Abstract

‘UNIVERSITY STUDENTS’ CITATION SKILLS AND STYLES’

This workshop will present findings from a study of the different ways in which university students who submitted their assignments to the BAWE corpus acknowledged their use of sources. In particular it will focus on variation in citation practices across disciplines, and the development in students’ citation styles as they progress from the first to the final year of study. Participants will be shown how to investigate citation for themselves, using corpus query techniques, and they will be given the opportunity for hands-on practice with the BAWE corpus www.coventry.ac.uk/bawe.
