This prospectus can be made available in different formats. Please contact Student Recruitment for further information:
recruitment@stir.ac.uk
Our focus is on ensuring every student achieves their full potential, by offering an education based on innovation and excellence. Stirling is a place where everyone is treated with respect and where ability—not background—is valued.

We provide an inspiring academic experience and a world-class living and learning environment—equipping you with the skills to achieve your full potential and giving you the best possible start in life.

Our flexible degree courses will help you to be the difference in your chosen career, by providing you with the knowledge, expertise and lifelong employability skills to ensure you stand out from the crowd.

You will be taught by Stirling’s world-leading academics, whose internationally renowned research is tackling some of the biggest global challenges.

At the University of Stirling, we’re committed to helping you to make a positive difference in the world.

Our award-winning Students’ Union is the University’s hub, providing entertainment and welfare services to make your life at Stirling the best it can be. With more than 120 clubs and societies to choose from, settling into university life couldn’t be simpler.

You’re about to make a very exciting decision about where you choose to study, and we’re delighted that you’re considering joining us at Stirling. I hope this prospectus offers you a flavour of life at the University of Stirling, and that you’re able to visit our campus during one of our Open Day events.

I wish you the very best of luck with your studies—and look forward to welcoming you on campus soon.

Professor Gerry McCormac
Principal and Vice-Chancellor
WALLACE MONUMENT
Climb 246 steps to reach the top of our famous landmark, built to commemorate Scots hero, Sir William Wallace.

COTTRELL BUILDING
The Cottrell Building is home to the Faculty of Natural Sciences and the Business Management School.

INTO BUILDING
Our brand-new centre is designed to offer international students unique academic pathways that can help them gain a degree.

NATIONAL SWIMMING ACADEMY
Home to Scottish Swimming and our world-class student athletes, who practice more than 35 hours per week in our Olympic pool.

THE PITCHES
Get a front row seat to the action on our grass and artificial 4G pitches.

STIRLING COURT HOTEL
Offering 100 bedrooms and one of only two venues in Scotland awarded the Conference Centre of Excellence Award.

UNIVERSITY OF STIRLING INNOVATION PARK
Home to some cutting-edge research and development companies.

SPITTAL-HILL CHALETS
Popular student accommodation in our Scandinavian-style timber chalets.

AIRTHREY CASTLE
Our very own 18th-century castle is still in use today, and overlooks the University’s picturesque golf course.

AIRTHREY GOLF COURSE
Less than a five minute walk from student accommodation, our nine-hole golf course is right on your doorstep.

ANDREW MILLER BUILDING
The heart of the University made up of the Atrium, Library, Academic Union and the Macrobert Arts Centre.

THE LINK BRIDGE
The scenic commute between Halls and University; you’ll make your nine am lecture even if you leave at five-to-nine.

AIRTHREY LOCH
Our very own loch; home to our water sports teams, along with our resident swans.

STUDENT ACCOMMODATION
Home to our students; more than 2,500 bedrooms across 20 residences on and off campus.

PATHFOOT BUILDING
Home to the Faculty of Arts and Humanities, the Faculty of Social Sciences and Sport and the Institute of Aquaculture. It also hosts an art collection.

NATIONAL TENNIS CENTRE
Named after tennis superstars Andy Murray and Gordon Reid, famously honed their skills on our courts.

AIRTHREY PARK MEDICAL CENTRE
Our on-campus general medical practice and dental centre.

STUDENT ACCOMMODATION
Home to our students; more than 2,500 bedrooms across 20 residences on and off campus.

1ST IN THE UK FOR A GOOD ENVIRONMENT ON CAMPUS
International Student Barometer 2016

I AM STIRLING
The University’s 330-acre campus isn’t just a gorgeous place to call home. It’s a place where inspiration strikes, where cutting-edge technology fuses with breath-taking nature and where hidden gems enhance the lives of our students, staff and visitors.

YOUR NEW CAMPUS

FIVE-STAR FACILITIES
Our facilities were given the top score in the 2018 QS Stars World University Rankings – and it’s easy to see why. The University’s newly refurbished library has a range of different study spaces to suit your needs; our contemporary, spacious and secure accommodation includes a range of options to suit every taste and budget; and our world-class sports facilities enable you to play and train alongside Olympic athletes.

THE ATRIUM
The Atrium is the social hub of the University. Not only does it connect students to the library; it also houses our Students’ Union, where you can relax with a coffee during the day, catch up with friends or socialise into the wee hours. There’s also a vibrant shopping precinct with a bank, pharmacy, mini-market and bookshop – as well as a wide selection of restaurants and cafes.

PLENTY OF CULTURE
Our campus is a vibrant, artistic and cultural hotspot. Located at its heart is the Macrobert Arts Centre, central Scotland’s leading cultural hub and arts centre. It regularly hosts live theatre, dance, comedy and contemporary music. Meanwhile, its critically acclaimed Filmhouse offers the best value and most unique films in town.

“"The campus is a five-minute bus ride away from the city centre, enabling you to have the peace and quiet of the country but also the buzz of the city.”

Angela McIvor (Scotland)
BA (Hons) Human Resource Management and Marketing

120+ NATIONALITIES ARE REPRESENTED ON CAMPUS

OUR HIDDEN GEMS

AIRTREY CASTLE
How many universities can say they’ve got their very own castle? Overlooking the University’s loch, the 18th-century Airthrey Castle boasts a fascinating history – and is still in active use today.

AIRTREY GOLF COURSE
Are you a budding golfer? We’ve got our own nine-hole, par-three course, driving range and putting green right here on campus. The course is suitable for both amateur and professional golfers. Affordable equipment hire is always available.

VENUE
Our newest multi-purpose social space offers the perfect place to collaborate, show off your skills or just hang out. Venue hosts regular unplugged music sessions throughout the day and provides plenty of room to stretch out and enjoy a Starbucks, a healthy drink from the Juice Bar or a great selection of food.

SCOTTISH TENNIS CENTRE
Are you the next Andy Murray? As the home of the Scottish National Tennis Centre, our campus is the nation’s premier training ground for the game’s biggest stars. But you don’t need to be an aspiring Wimbledon champion to take advantage of our world-class facilities – courts are open to everybody.

UNIVERSITY ART COLLECTION
Stirling’s public art collection is one of the most diverse on offer. Housed primarily within the Pathfoot Building, our unique collection plays home to an array of paintings, sketches, tapestries and sculptures from some of the biggest names in Scottish contemporary art.

STIRLING COURT HOTEL
If your family and friends are keen to visit, they’ll be pleased to know that the University has a 100-bedroom hotel and award-winning conference centre right here on campus. The hotel also features a relaxing bar, cafe and excellent restaurant.

YOUR NEW CAMPUS

PLenty of CULTURE
Our campus is a vibrant, artistic and cultural hotspot. Located at its heart is the Macrobert Arts Centre, central Scotland’s leading cultural hub and arts centre. It regularly hosts live theatre, dance, comedy and contemporary music. Meanwhile, its critically acclaimed Filmhouse offers the best value and most unique films in town.

macrobert.org

“"The campus is a five-minute bus ride away from the city centre, enabling you to have the peace and quiet of the country but also the buzz of the city.”

Angela McIvor (Scotland)
BA (Hons) Human Resource Management and Marketing
The ancient city of Stirling offers students a unique blend of Scottish tradition and a vibrant, cosmopolitan feel.

**PUBS AND GRUB**
The city plays home to the award-winning TinPot microbrewery, and is just a few minutes’ walk from campus. Craft beer revolutionaries BrewDog also recently set up shop in Stirling – while student-friendly eateries like Nando’s, Domino’s and Subway are sprinkled throughout the city centre.

**WALK WITH HISTORY**
Stirling Castle is one of Scotland’s grandest – befitting the childhood home of Mary Queen of Scots. It’s also where the world’s oldest football was discovered hidden behind some paneling! The historic Old Town has hosted the likes of Robert Burns and William Wallace, and still bears scars from its role in military campaigns that changed the course of Britain’s history.

**GET CONNECTED**
Stirling has everything you could hope for in a city, and even has its own cycle sharing network in the form of Nextbike. But its central location also means getting across Scotland couldn’t be easier. Glasgow and Edinburgh are both within easy reach for a day of shopping or a night out. With around 130 gigs a week in Glasgow, and the world’s biggest arts festival in Edinburgh, you’re not going to want to miss out on either city. Stirling is also just a stone’s throw away from the Kelpies and the impressive Falkirk Wheel.

For a change of pace, the Scottish Highlands are a short hop on the train. Whether it’s skiing, rock climbing or simply enjoying the beauty of one of the world’s last wild places, you should definitely add a trip ‘up North’ to your to-do list.
EDUCATION
Scotland has more world-class universities per head of population than anywhere else in the world. Our universities offer unrivalled quality and choice, and also maintain some of the highest rates of graduate employment in the UK. Stirling is regularly awarded five QS Stars1 for its commitment to graduate employability, with more than 96 percent of our students in employment or further study within six months of graduating.2

INNOVATION
Scotland is famous for its inventions: Penicillin, the bicycle, the television, the telephone and animal cloning all came from our nation of innovators – and we’re continuing that tradition. University of Stirling researchers are at the forefront of their fields, which means our students are taught by experts in each area of study. During your time at Stirling, you’ll be encouraged to take part in work placements and internships with the best and brightest start-ups, as well as national and global organisations – who knows what you’ll discover?

BEAUTY
Scotland is, quite simply, beautiful. Mountains, lochs, beaches, islands and castles offer wonderful opportunities for cycling, climbing, walking, skiing, swimming or simply having the space to sit and think. Our towns and cities all have their own character, and Stirling’s central location means you’re never far from a new adventure. We also celebrate the creative arts – you don’t have to wait long for a festival, concert, exhibition, play or screening. And travelling to the rest of the UK and Europe is easy, with convenient and affordable transport links.

SPORT
The Scots invented golf, curling and cycling, and have had a major impact on the development of rugby, hockey and football. From Scotland’s biggest ever medal haul at the 2016 Rio Olympic Games, to Team Scotland’s preparations for Gold Coast 2018, our country is a haven for sporting success. Glasgow is also preparing to host its first-ever European Championships in 2018, with British Swimming set to use the University of Stirling’s stunning campus to prepare for the games. With world-class facilities, strong community links and our great outdoors just waiting for you, why not take up a new sport or outdoor activity when you’re here? You’ll find lots to inspire you in Scotland!

FOOD AND DRINK
Scotland is renowned for its unique cuisine and internationally acclaimed whisky. The country boasts an incredible culinary tradition with no fewer than 13 Michelin-star restaurants. No Scottish experience is complete without a hearty serving of haggis, neeps and tatties. Meanwhile, some of the globe’s top whisky distilleries are dotted throughout the countryside surrounding Stirling and the neighbouring Highlands. If you’re into food and drink, Scotland has plenty to offer.

As a proud Scottish University with an international outlook, we encourage our students to make time to explore our fantastic country.

Studying at the Centre of Scotland

Nestled in the heart of Scotland, Stirling places you right in the thick of the country’s lively atmosphere. With our beautiful campus as your base, choosing Stirling means immersing yourself in the unique sights and sounds of one of the world’s most vibrant and inspiring countries.
University is all about trying new things – and Stirling is the perfect place to get involved. The city gives you a backstage pass to some of the country’s weirdest and most wonderful experiences imaginable.

To give you an idea, here are our top 10 events that you need to mark in your calendar.

**01**
**STAY COOL AT THE LOONY DOOK**
**JANUARY**
Feeling bold? One of Scotland’s biggest New Year’s Day traditions is the annual Firth of Forth Loony Dook, which sees thousands of brave souls charge into the freezing sea to celebrate the new year and raise money for charity.

**02**
**HIT THE SLOPES IN AVIEMORE**
**FEBRUARY**
Do you enjoy skiing or snowboarding? We’re just a short drive from the Cairngorms National Park and Aviemore. There are world-class runs available for all skill levels and, for practice, there’s a 120m dry slope just eight miles from the University.

**03**
**SHOP THE STYLE MILE**
**MARCH**
Stirling’s got plenty of fantastic shops – but nothing compares to Glasgow’s Style Mile. According to Lonely Planet, it’s the UK’s biggest shopping district outside London, with more than 200 quirky shops and massive names in international fashion. Best of all, it’s just 30 minutes down the road from Stirling.

**04**
**CELEBRATE IN STYLE AT THE SPORTS UNION BALL**
**APRIL**
The Sports Union Ball is without doubt one of the most anticipated events on the social calendar. As the annual awards ceremony for student achievements in sport at the University of Stirling, it’s a celebration not to be missed.

**05**
**BE INTRIGUED AT STIRLING CASTLE**
**MAY**
Perched high above the city, award-winning Stirling Castle will transport you to the 16th-century with all its splendour. Meet historical characters in the Royal Palace and learn about kings, queens and warriors of old who changed the course of Scotland’s history.

**06**
**EDINBURGH FRINGE FESTIVAL**
**AUGUST**
Looking for a bit of culture? The world’s largest arts festival is just a hop and a skip away from Stirling. It runs over 25 days in August, and features more than 50,000 performances across 300 venues. You’ll find all sorts of music, dance, theatre, comedy, cabaret, musicals, lectures, special events and so much more.

**07**
**STIRLING AND BRIDGE OF ALLAN HIGHLAND GAMES**
**AUGUST**
Keen to experience the real Scotland? Every summer, pipe bands and athletes from across the globe flock to the University’s doorstep to show off their skills and compete in traditional feats of strength like the caber toss, hammer throw and tug of war.

**08**
**GET LOST IN THE ENCHANTED FOREST**
**OCTOBER**
Named the Best Outdoor Festival in the Scottish Outdoor and Leisure Awards 2017, the Enchanted Forest is Scotland’s top immersive sound and light event. It’s set amidst the stunning Faskally Wood just north of Stirling, and is the perfect way to find your holiday spirit.

**09**
**DECK THE HALLS IN EDINBURGH**
**NOVEMBER**
Counting down the days until Christmas? You’ll find plenty of magic in Edinburgh. For seven weeks every year, the medieval Old Town is transformed into a winter wonderland – complete with traditional markets, ice skating and plenty of mulled wine.

**10**
**RING IN THE NEW YEAR AT STIRLING HOGMANAY**
**DECEMBER**
Have you ever counted down to midnight in a medieval castle? Every year, locals gather at Stirling Castle to ring in the New Year with some of music’s biggest names. There’s always plenty of food and drink to keep you warm, and the atmosphere is totally electrifying.
The University of Stirling is an international university with a global reputation for excellence in teaching and high-quality research. With more than 100 international research partners, almost three-quarters of our research activity is rated either world-leading or internationally excellent. We’ve also been awarded five QS Stars in the World University Rankings for internationalisation.

Thinking and working globally is part of our daily teaching, learning and research practice. This means your degree will be outward-looking and full of possibilities and potential. Studying at Stirling sets you up to be a global citizen in an increasingly connected world.

We’re top in Scotland for welcoming international students, with more than 120 nationalities represented on campus. Our exchange partnerships mean students can join our community for a year or a semester as part of their studies. This helps to create a unique atmosphere on campus with plenty of opportunities to meet new people and experience diverse cultures.

Studying at Stirling is a truly connected experience. When you graduate, you’ll automatically become a member of our alumni organisation. This means you’ll join a vibrant network of 85,000 people in more than 160 countries. It’s an amazing resource for mentoring, career development, advice and support.

We strive to make sure our former students stay connected with each other, and love welcoming back our alumni as mentors, guest lecturers and speakers through our Alumni Ambassador Programme. Our alumni frequently host internships and work experience opportunities, as well as work-based projects or placements that enable students to practise their skills in real-life situations.
“I chose to study at Stirling because it offered so much choice in terms of combined degrees – and I’m so glad I did. I’ve found Stirling really warm, welcoming and inviting. The lecturers are passionate, Student Services really take care of you and I’ve become a lot more confident and independent.”

**MEET CHRISTOPHER**  
Christopher Szucs (Hungary)  
BA (Hons) Film and Media and Journalism

“Following my Study Abroad experience in Alabama, I’m now back in Stirling and it’s great to come home to the beautiful campus and my friends, but I will never forget the experience. I am very fortunate that the University has many connections all over the world.”

**MEET LIAM**  
Liam Holmes (England)  
BA (Hons) History

“I’m so happy for the opportunity to study in a beautiful place with a lot of history, and it’s incredibly flexible. The course combinations allowed me to change my degree from geography to sociology and criminology, after taking sociology as an elective module initially.”

**MEET KATE**  
Kate Penton-Voak (England)  
BA (Hons) Sociology and Criminology

“The University of Stirling was always my first choice; it has the best Film and Media course and the people I met on the first day have become friends for life. I jointly set up the Film Society and it opened so many doors for me.”

**MEET CHANTEILLE**  
Chantelle Grieve (Northern Ireland)  
BA (Hons) Film and Media

JOIN OUR COMMUNITY  
@universityofstirling
“Here at the Students’ Union, our main aim is to ‘Make Students’ Lives Better’ - we achieve this by representing your needs and views to ensure we work together with the University to make a positive difference to your student experience. We ensure that the Students’ Union offers something for everyone. Whether it’s getting involved in clubs and societies, with our environmental team or simply having a coffee in the Union, we look forward to welcoming you to Stirling.”

Astrid Smallenbroek
Union President
2017/18

YOUR STUDENTS’ UNION
Your award-winning Students’ Union is the beating heart of the University. Through its student-focused representation, the Union is committed to ‘Make Students’ Lives Better’.

Alongside our student-focused representation work, we offer a wide range of services designed to improve your student experience. From societies to sports clubs, events to environmental projects, no matter what your interest is, we are here for you.

SUPPORT FROM THE UNION
The Students’ Union body elects Student Officers each year to work with Faculty Officers and Course Reps to enhance all aspects of student life. From academic representation to course feedback, campaigns on student housing to tuition fees, the Union is here for you.

The Union will help you to deal with any personal or academic issue you may be facing. All services are run by a dedicated team that provides confidential and informed academic and non-academic support and guidance.

IS THIS YOUR STUDENTS’ UNION?

TO GIVE YOU A QUICK TASTE, HERE ARE A FEW OF THE GROUPS YOU CAN GET INVOLVED IN:

INTERNATIONAL
Want to mix with students from across the globe? The International Society is the biggest on campus and all are welcome. From Christmas Markets in Edinburgh to St Andrews and its beaches – the International Society is the best way to explore while making new connections.

LIVE MUSIC
Are you a budding musician? Check out the Live Music Society. All instruments, skill levels and tastes are welcome. Both electric and acoustic sessions are offered, and the society hosts a weekly Open Mic night in the Students’ Union Studio bar.

COMIC AND SCI-FI
Ever fancied teaming up with friends for an awesome fantasy adventure, or roaming the post-apocalyptic wastes? “Shazam!” is the - self-confessed – geek hub on campus, and is the perfect place to relax and indulge in all your favourites.

MUSICAL THEATRE
Do you have secret West End ambitions? The Musical Theatre Society is the perfect training ground. The group runs loads of singing and acting workshops designed for beginners and seasoned thespians alike.

PSYCHOLOGY
The Psychology Society hosts all sorts of workshops, trips and socials that are open to everybody – whether you’re studying Psychology or not. You may not learn to read people’s minds, but you’ll have an amazing time.

LIGHTSABER ACADEMY
Is the Force strong with you? As part of Midlochians Scotland, The Lightsaber Academy schools students in a range of sword styles inherited from both Oriental and Occidental martial arts, as well as fictional films featured in the iconic Star Wars™ films.

VOLUNTEERING
Want to make a difference? This society is for anyone interested in volunteering, fundraising and helping local charities in Stirling. From collecting donations for the local foodbank to raising money for charities and visiting social enterprises, if you’re passionate about helping others, this is the place for you.

POLITICS
Ready to join the debate? PolSoc brings together all sides of the political spectrum for an array of activities. In recent years, they’ve travelled to Amsterdam, Berlin and Barcelona – and given students a taste of power with their Model UN here on campus.

See page 25 for more on the Sports Union.
“The Students’ Union has played a huge role in making my overall experience a brilliant one. It’s a great opportunity to make new friends, develop interests and improve your CV, as it has for me as part of the Business Society.”

MEET CHARLIE
Charlie Crawford (Scotland)
BA (Hons) Sports Studies and Business Studies

“I’ve made friends with people from all over the world, and I have been lucky enough to gain work experience related to my course. I’ve also really enjoyed being a committee member for one of the Union’s many societies, allowing me to develop transferable soft skills.”

MEET PAMELA
Pamela Nxumalo (South Africa)
BA (Hons) Film and Media
OUTSTANDING SPORTS FACILITIES

Our sports facilities include:

- The National Tennis Centre, which features six indoor courts, two outdoor all-weather floodlit courts and two outdoor clay courts.
- The National Swimming Academy, which houses a 50-metre, six-lane pool and land-conditioning room.
- A nine-hole, par-three golf course, putting green, driving range, pavilion and video analysis suite.
- The MP Jackson Fitness Centre, which boasts a great range of cardiovascular and resistance equipment, with two free weights areas containing many lifting platforms.
- An eight-court sports hall and three squash courts.
- An air-conditioned dance and fitness studio.
- A 400m all-weather running track.
- Two artificial pitches and seven grass pitches.

SCOTLAND’S UNIVERSITY FOR SPORTING EXCELLENCE

We have been at the forefront of Scottish sport for nearly five decades, and are proud to have supported world-class athletes from around the globe. Our incredible student athletes have competed at the Olympic Games, the Commonwealth Games and the Walker Cup.

We aim to make sure every student can enjoy our world-class sports facilities, which are fully accessible to disabled users, and we provide a wide range of activities and support services that cater to all of our students’ individual needs.

Choose from more than 50 fitness classes per week, learn to swim, try tennis, join a walking or running group around our beautiful campus or bolster your CV with fantastic coaching and volunteer opportunities. Be part of something brilliant.
STIRLING CLANSMEN: FOUR-TIME BRITISH NATIONAL CHAMPIONS

ARE YOU READY TO JOIN THE TEAM?

GET INVOLVED
The best way to experience sport at the University of Stirling is to give it a try. It doesn’t matter whether you’re a competitive athlete or simply looking for a bit of fun, we have plenty of ways for you to get involved.

The Sports Union has more than 50 clubs that compete both locally and nationally. Our football, golf, tennis, swimming, rugby, triathlon and American football teams are hugely successful throughout the year – and are always on the lookout for talented students to join their clubs and help them be the difference on and off the pitch.

But we’re not only about competition. If you’re just looking to get fit and have fun, our Intramural Sport programme offers a variety of recreational activities, including table tennis and basketball.

For more information on our Sports Union clubs, visit: stir.ac.uk/1a7

1ST IN SCOTLAND AND TOP 5 IN THE UK FOR GOOD SPORTS FACILITIES

Times Higher Education Student Experience Survey 2017
**Sports Scholarships**

**Scholarship Opportunities**
The University of Stirling’s International Sports Scholarship Programme is one of the largest high-performance sports programmes in the UK and has been in place since 1981, with graduates including Olympic and Paralympic medallists, as well as world champions. The programme offers an environment designed to help scholars achieve their sporting and academic potential by providing high-quality coaching and support services, including academic flexibility, sports science and sports medicine, as well as financial subsidies.

Scholars are awarded to talented students in the following sports:

- Curling
- Football (men and women)
- Golf
- Swimming
- Tennis
- Triathlon

Students from England, Wales and Northern Ireland, who meet the stipulated criteria, are also eligible for a £2,000 per year sports bursary. These bursaries are available in the sports outlined above, as well as:

- American football
- Badminton
- Futsal
- Women’s hockey
- Netball
- Women’s rugby
- Volleyball

**Winning Students**
The University of Stirling was appointed Scotland’s University for Sporting Excellence in 2008, and is responsible for the governance of Winning Students, Scotland’s national sport scholarship programme. Winning Students supports more than 150 high-performance student athletes across Scotland, with scholarships valued at up to £6,000 per year.

A core sport philosophy is adopted where partner governing bodies nominate eligible athletes for the Winning Students programme. Athletes can also apply to be considered for scholarships in non-core individual or small combination sports.

Core scholarship sports include:

- Badminton
- Canoeing
- Curling
- Football (women)
- Golf
- Hockey
- Judo
- Orienteering
- Rowing
- Swimming
- Tennis
- Triathlon

For more information about sports scholarships, contact:

PerformanceSport@stir.ac.uk
+44 (0)1786 466910

**Partners on Campus**
Throughout the time we’ve spent transforming Stirling into one of the UK’s leading universities for sport, we have formed close working relationships with a number of partner agencies that are now based on the campus, including:

- sportscotland institute of sport
- Commonwealth Games Scotland
- Scottish Swimming
- Tennis Scotland
- Triathlon Scotland
- Scottish Football Association (Central Region)

**15 Olympians**
**4 Paralympians**
**9 World Records**
Based in the heart of our beautiful campus, our state-of-the-art library houses more than 500,000 books and has plenty of space for research and study. Recently refurbished, you’ll enjoy a contemporary study hub that gives you all the tools and inspiration you need to succeed.

WORKING TOGETHER
Libraries get a bad rap for being as silent as the grave. But here at Stirling, we’re into collaborative working. That’s why our contemporary library offers a wide range of study options to suit all tastes. We’ve got futuristic study pods, 10 group training and private study rooms, beanbags, coffee bar seating and plenty of lounges.

ARCHIVES AND SPECIAL COLLECTIONS
Our collections don’t just include journals — on everything from popular culture to quantum physics — the library also has a dedicated archives reading room that will enable you to explore our wide range of historical collections. You’ll enjoy unrivalled access to key texts and quirky artefacts that have played crucial roles in shaping world events.

YOUR LIBRARY

THE UNIVERSITY INVESTS £1.5 MILLION EACH YEAR ON NEW CONTENT, BOOKS, JOURNALS, DATABASES AND DVDS
Living away from home for the first time is exciting. New students are always prioritised when we allocate accommodation, and our friendly staff are here to lend support. We also have dedicated, on-site Accommodation Liaison Students who are on hand to help you.

Student living is split between our campus, nearby Stirling and Bridge of Allan – all beautiful, safe places to live with excellent travel links to and from campus.

We’ll guarantee you an offer of University-managed accommodation in your first year of study if you meet the eligibility criteria. All you need to do is confirm your place at Stirling and apply for accommodation by the advertised date. (See website for eligibility criteria and terms and conditions).

In 2017-2018, accommodation costs ranged from £84-£166 per week, and includes: utilities, Wi-Fi, insurance and bed linen.

BUILT AROUND YOUR NEEDS
We’ve invested £40 million in our student housing, listening to what our students wanted every step of the way. All accommodation is single occupancy and you can choose from a range of: flats, chalets, townhouses and family accommodation.

On campus, everything is planned around you – so you’ll find card-operated laundry facilities, a supermarket, pharmacy, medical and dental centre, gym, bookshop and bank within a few minutes’ walk, as well as all the facilities the University and Students’ Union have to offer.

And if your family and friends are missing you and fancy a visit, we have the Stirling Court Hotel on campus, with a fantastic restaurant, bar and facilities.

FIND OUT MORE
You can apply for accommodation through our online portal – you’ll get access to this once you have a confirmed place (either conditional or unconditional). New students can apply for accommodation from around April. There are a number of different instalment plans available for paying rent.

For more information, up-to-date costs and booking details, visit: stir.ac.uk/5k
LIVING IN UNIVERSITY ACCOMMODATION

It’s safe and secure. All our accommodation has staff on hand 24/7 to offer you their full support and assistance.

You don’t need to worry about bills. Heating, electricity, insurance and Wi-Fi charges are all included in your rent. Bedding and housekeeping support are also provided.

Conveniently located. It’s easier to roll out of bed and make it to those early morning lectures if you’re in University accommodation. You’re always within a stone’s throw of our on-campus restaurants, bar, supermarket, cinema, theatre and Sports Centre.

You may feel homesick. It happens to everybody. But just remember that everyone feels that way at first, and that’s why we have our Accommodation Liaison Students on hand to help you.

You’ll have to budget. Moving away from home and paying rent means you’ve got to manage your money wisely. Fortunately, Stirling offers a low cost of living. See page 123.

RENTING PRIVATE ACCOMMODATION

You have the power of choice. Stirling has a strong rental market with accommodation to suit all tastes and budgets.

Share with friends. Choose accommodation to suit yourself and a group of friends.

Be prepared to haggle. If you choose to go privately, landlords may charge extra for additional services.

Think about bills. All of our University accommodation prices include bills. But most private rental fees don’t include energy or broadband fees – some properties don’t come with furniture either.

You’re on your own. Most private properties don’t give you 24/7 access to dedicated security staff.

LIVING AT HOME

You won’t feel homesick. Family and friends will still be right there whenever you need them. Home-cooked meals are a plus too.

You get continuity. You can continue to work at the same part-time job or stay at the same clubs and teams that you’re in.

Nobody likes a commute. If you choose to live at home, you may have to spend a lot of time travelling to and from campus.

You’ll lose time with peers. Living in University accommodation is a quick way to make new friends, gain independence and make the most of university life.

For more advice, contact our Accommodation Services team: stir.ac.uk/5k

PLAN AHEAD

Sometimes it helps to write everything down. There are loads of great, free websites that can help you to budget and plan your monthly expenses.

TAKE UP COOKING

Nothing eats away at your finances quicker than too many takeaways. Instead of eating out, why not learn to cook? It’s cheaper, healthier and a fantastic way to impress your flatmates.

THE RIGHT BANK ACCOUNT

It can be tempting to choose a bank account based on who’s offering the most freebies or the highest overdraft, but you’ve got to shop around and read the fine print. If you need help, we have a bank right here on campus that offers plenty of savings advice.

SHOP SAVVY

You can save hundreds of pounds each year by simply shopping smart. Use price comparison sites, shop for food online to avoid impulse buys and don’t be afraid to try out supermarkets’ own brand labels.

TAKE ADVANTAGE OF DISCOUNTS

Our students enjoy discounts at a wide selection of retail shops and restaurants around Stirling. You should always ask staff before you buy something to make sure you don’t miss out.

Just because you’re choosing to study doesn’t mean you’ve got to fall into the cash-strapped student stereotype. There are plenty of ways to manage your money and stretch your finances to make sure you live comfortably while studying with us.

FIVE OF OUR TOP TIPS:

We appreciate every student is after something a little bit different. That’s why we’ve compiled a quick list of pros and cons to help you decide where you’d like to stay during your time at Stirling.
At Stirling, one of our top priorities is to enhance your employability through top-quality education. Everything you do while you’re studying here is designed to help you build the skills you’ll need to be the difference and stand out to potential employers – whether it’s getting involved in the Students’ Union, studying abroad, taking part in internships or even balancing part-time work with study.

We’ve been awarded five QS Stars for employability, with more than 96 percent of our graduates having a positive destination after University, including work or further study. In the Higher Education Statistics Agency Destinations of Leavers from Higher Education (DLHE) survey published in 2017, our students were earning more than £23,000 on average per year within six months of graduating.

**GOING INTERNATIONAL**

You can’t help but build a fantastic network for the future in our friendly, international community.

And if you want to impress a future employer, you won’t do better than studying abroad – it’s a brilliant way to show you’re able to stand on your own two feet and thrive in today’s increasingly international job market. Most of our students are eligible to spend a semester or more living and studying abroad in countries like China, Australia, the USA and all over Europe.

**SKILLS THAT LAST**

We’ve built strong links with national and international organisations, as well as the brightest and best small businesses and start-ups flourishing around us. That means all sorts of opportunities for you to test your learning in real-life situations. Whether it’s an internship, work experience or tackling a real business issue in a work-based project, you’ll stretch yourself and learn new skills to get an idea of what working environment suits you.

Reflecting on your personal and professional development is important. Our expert staff within our Careers and Employability Service can support you with practical skills like CV writing and interview practice. They’ll also help you get to know yourself, your strengths, your aspirations and the things you need to work on – all essential skills for developing a career for life.

While you’re studying for your degree, our innovative My Stirling award will help you identify the wide range of different skills and attributes you’ve developed over your time at Stirling, bringing everything together in your own transcript. So when it comes to proving your worth to potential employers, it’s all in one place.

**ARE YOU CAREER READY?**

“The Careers and Employability Service is a wonderful resource that all students should make use of during their time at Stirling (and even after you graduate)! The guidance they offer gives you the skills you need to be a cut above the rest of the graduate market.”

Amy McDermott (Scotland)
BA (Hons) Politics and Social Policy

“During my time at Stirling, I was given the privilege of an internship with Barclays in Geneva, Switzerland, thanks to the Saltire Scholar Internship Programme. This allowed me to demonstrate and put to use all of the leadership skills I had acquired. It was a once-in-a-lifetime opportunity and a truly amazing experience!”

Robynn Cole (Oman)
BA (Hons) Economics

---

1. QS World University Rankings 2018
2. Destinations of Leavers from Higher Education survey 2015/16
Increasing your employability isn’t just about achieving outstanding academic results. That’s why we’re committed to providing you with the skills and knowledge you’ll need to make a difference to major industries and change the world for the better.

As part of this commitment, we’ve partnered with a wide range of leading businesses and public service providers to offer students a host of internship and work experience opportunities. That’s just part of the reason we have been awarded five QS stars for employability,1 with more than 96 percent of our undergraduate leavers in employment or further study within six months of graduating.2

EXPLORE NEW OPPORTUNITIES
Launched in collaboration with Santander Universities, the Stirling Internship Programme offers students and graduates a wide range of paid internships, from part-time during semester to 10 weeks full-time during the summer holiday.

The Careers and Employability Service also advertises work experience opportunities throughout the year. Our Careers and Employability Consultants are on standby to help you secure those opportunities by boosting your CV and preparing you for your first big step into the world of work.

A HANDS-ON EDUCATION
A number of our courses, such as Nursing, Teaching Qualification in Further Education (TQFE) Pre-service and Social Work include compulsory work placements as part of the curriculum. These placements are a great way to develop practical skills ahead of your future career in a workplace environment supported by industry professionals.

ENTERPRISE RENT-A-CAR INTERNSHIP
“This internship has played a fundamental role in planning my future career. Not only has it made me more employable through new skills and awards, it has also allowed me to understand what I enjoy and what I’m good at – so my future career path is much clearer.”

Adelle Brotherton (Scotland)
BA (Hons) Marketing

“Congrats@Adelle_ERAC from @StirUni @CDCStirling for winning intern of the year in Scotland @ERAC_Jobs @gradu8recruiter.”

Mark Darley
@DarleyERAC
Group HR Manager
Enterprise Rent-a-Car

EDINBURGH AIRPORT INTERNSHIP
“I really enjoyed working for the airport. I had previously been involved in travel, working for Thomas Cook as a travel adviser, so the chance to work for another part of the travel industry was fascinating. I enjoyed every single day of my internship and it is definitely something I would recommend to prospective students.”

Omari Whyne (England)
BA (Hons) Marketing

“During Omari’s internship he showed immense enthusiasm for the role, regularly seeking to understand more about the business and the commercial reasoning behind decisions.”

Rob Lang
Marketing Manager
Edinburgh Airport

ARE YOU READY for adventure?

Want to see the world? The University of Stirling is a truly international institution that offers a wide range of once-in-a-lifetime Study Abroad opportunities.

From a semester in Tokyo to a year in Spain or California, we have partnerships with more than 70 universities across five continents that provide our students with a global and dynamic educational experience.

WHY STUDY ABROAD?
Our Study Abroad programmes are unique adventures designed to help you to see the world, experience new cultures and discover crucial skills and perspectives that will broaden your horizons. Taking part will also show future employers your ambition, maturity and self-reliance. Study abroad helps you stand out to employers by showing you’ve got what it takes to thrive in an increasingly global workplace.

As a student at the University of Stirling, you could spend up to a year studying at one of our many partner universities as a fully integrated part of your degree. That means you’ll continue to learn more about your chosen field while overseas, and will keep earning credits towards your graduation at Stirling.

A WORLD OF OPPORTUNITY
All of our students are encouraged to take part in one of our overseas exchange programmes. Most Honours degree students are eligible to study abroad in their third year – and it’s a compulsory part of your course if you study French or Spanish.

The application process starts in October every year, and students are chosen based on their academic profile, the strength of their application and a short interview. From there, our expert team will guide you through the process to help you prepare for your adventure and make the most of your time overseas.

WANT TO MAKE THE MOST OF YOUR TIME ABROAD?
Most of our Study Abroad programmes are once-in-a-lifetime opportunities. That’s why we’ve rounded up a few top tips from students who have taken advantage of the Study Abroad programme to ensure you’re able to make the most out of your adventure:

1. DO YOUR HOMEWORK
Once you’ve successfully snagged a Study Abroad spot, it’s always worth learning a little bit about your new country before you ship off. Not only will it give you a working knowledge of the local customs and culture, but it will also give you some ideas about what you’d like to see or do in between classes.

2. LEARN THE LANGUAGE
Half the fun of studying abroad is getting the opportunity to immerse yourself in a brand new culture. To get a taste of life as a local, it’s always worth talking the talk. Do your best to learn key phrases and regional slang. Not only will it help you get by on a daily basis, but you’ll definitely earn some respect from the locals.

3. DON’T FORGET YOU’RE JUST VISITING
After you settle in, you may be tempted to shun sightseeing in order to live more like a local. There’s nothing wrong with that, but don’t forget that your time abroad has got an expiry date. If there’s something you want to see or do, you shouldn’t put it off.

“Studying abroad in Hong Kong was the most fun I’ve ever had. I really immersed myself in university life and met other students – some of whom I now regard as life-long friends. I gained an insight into the culture and enjoyed exploring markets, foods and hiking. The experience helped me build confidence and truly broadened my horizons.”

Frances Cope
BA (Hons) Business Studies and Marketing
Study Abroad at City University of Hong Kong

Want to see the world? The University of Stirling is a truly international institution that offers a wide range of once-in-a-lifetime Study Abroad opportunities.
University is about finding your own way – but that doesn’t mean you’ve got to do it on your own. Our extensive support services are here to lend a helping hand every step of the way.

**STUDENT SERVICES HUB**
Our friendly and welcoming Student Services Hub team is the first point of contact for a wide range of student enquiries, from finance and personal support to academic issues or University life in general.

**STUDENT MONEY SUPPORT**
Our Student Money Advisers help with budgeting and money management. They can also help you apply for additional funding or financial support.

**EMOTIONAL WELLBEING**
We offer a free, confidential and professional counselling service to talk about anything that’s troubling you. We also have a dedicated mental health support team.

**CARE EXPERIENCED YOUNG PEOPLE**
If you have experience of being looked after (by kinship or foster care, at home under a supervision order or in residential care), we offer a range of individual support. We can help with all aspects of the University application process, including what to study. We also offer tailored support, including money advice and a guarantee of 52 weeks of accommodation from the start of your course.

**YOUR NEEDS**
Even before you apply, please get in touch if you need any additional support. We’ll be happy to discuss your requirements and arrange an on-campus visit if you need one. We highly recommend an early pre-entry visit for students with mobility or sensory impairments.

**PERSONAL TUTORS**
Each student is assigned an academic member of staff as a Personal Tutor. You’ll meet with them regularly and they can offer guidance and support at any point during your studies.

**TRAINING OPPORTUNITIES**
We offer a range of training modules, including IT Skills, Data Skills, Employability Skills, Personal Development Planning and Student Learning.

**RELIGION**
The multi-faith Chaplaincy and Faith Centre organises programmes of worship, discussion and social events. The Chaplaincy also supports Friends International Stirling, linking international students with local host families. We have a dedicated prayer room for Muslim students.

**ACCESSIBILITY AND INCLUSION SERVICE**
Our Accessibility and Inclusion Advisers offer one-to-one needs assessments for all your learning and support requirements, and will work with you to implement a tailored support package.

**JUST ASK**
If students at Stirling have a question or a problem, all they have to do is email ask@stir.ac.uk, or drop into the Student Services Hub.
WE ARE A UNIVERSITY OF EXCELLENCE

Our flexible, interdisciplinary approach to teaching and research means you gain a world-class degree at the University of Stirling that is built around your interests and passions.

WE'RE FLEXIBLE

Flexibility is built into the curriculum at Stirling.

In Year 1 and Year 2 for most degrees, you'll generally study a range of subjects across a variety of disciplines. We encourage you to push your boundaries and study the things you’re passionate about. That may mean studying subjects that naturally enhance your main degree topic, or trying something completely new. Whatever you choose to study, it all counts towards your final degree, and you'll earn credits all the way through.

Midway through Year 2 is when we ask you to bring together everything you’ve learned so far and choose your graduating subject(s). Again, this is completely flexible – you can stick to your original subject choice, add a second subject for Combined Honours or change path completely. It’s up to you!

Why do we place this emphasis on flexibility? We want every student to get the most out of their time with us, so our ethos is based on offering as many opportunities as possible. Subject choice is a big part of that. Put simply, you’re in control, so you have the chance to expand on your interests as they develop and study the things you love.

COMBINED HONOURS

If you do choose a Combined Honours degree, you’ll be able to specialise simultaneously in two or more subjects. But choosing to study more than one subject does not mean you’ll have to do more work. You’ll still take the same number of credits each semester, and will be allowed to choose from a wide range of modules.

ADVANCED ENTRY

If you have excellent A-level, Advanced Higher grades or full HNC/HND qualifications, we also offer Advanced Entry routes that enable you to skip Year 1 study and enter directly into Year 2 of your chosen degree – so you can complete your Honours degree in just three years. Advanced Entry is only available for some courses, so you should consult your preferred course page to learn more.

WE ARE THE HOME OF WORLD-CLASS RESEARCH

We believe great ideas and groundbreaking research can transform society and make the world a better place. That’s why research is such a crucial part of our learning and teaching, and why almost three-quarters of our research activity is rated either world-leading or internationally excellent*.

Our research makes an economic, social and cultural impact on the world, and falls under three interdisciplinary themes: Cultures, Communities and Society; Global Security and Resilience; and Living Well. Whether it’s preventing cancer, helping governments combat the effects of climate change or improving food security in communities across the globe, our researchers are collaborating to solve real-world problems.

Our Aquaculture and Marine Biology experts are ranked top five in the UK for research in Agriculture, Veterinary and Food Science. We’re also first in Scotland and top 15 in the UK for Health Sciences research. We’re in the top 25 UK institutions for Business and Management research and 100 percent of our Psychology impact case studies are classed as world-leading*.

HAVE YOU CONSIDERED A COMBINED DEGREE?

• Marketing
• Professional Accountancy
• Retail Marketing
• Sport Business Management
• Sustainable Events Management

220+ SINGLE AND COMBINED HONOURS DEGREES
As an agent for global change, we work to forge strong partnerships both at home and further afield. That’s why our academics team up with a range of local and international institutions to offer a diverse selection of undergraduate degrees taught in part, or entirely, overseas.

These degrees enable Stirling students to develop new skills and ideas by spending a semester or more studying with one of our overseas partners, and offer international students at our partner institutions the opportunity to study at our campus in Scotland.

**INTERNATIONAL**

**HEBEI NORMAL UNIVERSITY, CHINA**

Hebei Normal University is a key provincial institution that caters to a student population of more than 57,000. The University of Stirling offers a dynamic double award that is jointly delivered both on our campus in Stirling, as well as in Hebei.

BA (Hons) Translation and Interpreting Studies

- BSc (Hons) Professional Education (Secondary) with Engineering Technologies
- BSc (Hons) Professional Education (Secondary) and Chemistry
- BSc (Hons) Professional Education (Secondary) and Physics

hw.ac.uk

**INTO UNIVERSITY OF STIRLING, STIRLING**

INTO University of Stirling offers a variety of pathways for international students, from preparatory courses into a wide range of university degree courses.

See pages 48-49 for more information.
The University of Stirling plays home to a diverse international community. To help that community thrive, we’ve teamed up with global education leader, INTO University Partnerships.

At INTO University of Stirling, our focus is on the provision of preparatory courses for international students, with the following pathway programmes:

- International Foundation Year programmes
- Integrated undergraduate degree programmes
- Academic English language programmes

NEW INTO CENTRE

Our brand-new INTO University of Stirling Building sits at the heart of the campus, providing everything you need from bright, modern classrooms and specialist tuition to friendly support teams.

stir.ac.uk/1io

INTO University of Stirling’s International Foundation programme ensures you meet the English language and academic entry requirements for Year 2 entry to your preferred course at the University of Stirling. Each programme can be completed in three terms – or four if you’d like to take an extra English language course at the beginning of your programme.

Pathways include:

- International Foundation in Business, Finance, Economics and Marketing
- International Foundation in Media, Humanities and Social Sciences
- International Foundation in Science, Sport, Computing and Engineering

INTO University of Stirling’s integrated programmes combine the pathway programme with a progression degree of your choice. It’s ideal if you’d like to progress to degree study at the University of Stirling, because it allows you to study both your university preparation programme and degree under one student visa.

Pathways include:

- Integrated International Year 1 in Business, Finance, Economics and Marketing
- Integrated International Year 1 in Media, Humanities and Social Sciences
- Integrated International Year 1 in Science, Sport, Computing and Maths
- Integrated International Year 2 in Business, Finance, Marketing and Humanities

“At the INTO programme created a pathway for me to get into University without having to take A-levels. I chose Stirling as it gave me the option of pursuing a combined degree. I have enjoyed meeting different kinds of people and experiencing different cultures during my time here.”

MEET MAAME

Maame Anamua Joy Ewusie-Mensah (Ghana)
BA (Hons) Human Resource Management and Psychology

ENGLISH LANGUAGE COURSES

If you’re an international student wanting to study with us, INTO University of Stirling offers flexible and intensive English language courses designed to prepare you for your degree. You can take these courses individually or as part of an integrated degree programme, and they help you develop your knowledge, ability and confidence in a variety of skills that are essential for study here in Stirling.

Courses include:

- Academic English
Are you interested in more than one of our courses? You might not have to choose between them.

Here at Stirling, we believe in choice. That’s why we offer more than 220 course combinations, enabling you to specialise in multiple subject areas as part of your own, unique Combined Honours degree.

If you know exactly which subjects you’d like to study, you can apply for one of our combined courses now — or, thanks to our flexible course structure, you can try out different subjects and decide which ones you’d like to combine later.

After you’ve been accepted onto a course at Stirling, you’ll be asked to sign up for three modules to take in your first semester. One of these modules needs to be in the subject you’ve picked as your degree, but the other two could be from any one of the almost 70 Single Honours courses we offer.

If you end up falling in love with your new subjects, you’ll be allowed to mix and match two of them after Semester 3 to create your Combined Honours degree.

**TAKE A LOOK AT SOME EXAMPLES OF DEGREE COMBINATIONS:**

- **FILM AND MEDIA STUDIES AND LAW**  
  BA (Hons)

- **PSYCHOLOGY AND SPORTS STUDIES**  
  BA (Hons)

- **PHILOSOPHY, RELIGIOUS STUDIES AND PROFESSIONAL EDUCATION**  
  BA (Hons)

- **ENVIRONMENTAL SCIENCE AND POLITICS**  
  BSc (Hons)

- **ACCOUNTANCY AND SPANISH**  
  BAcc (Hons)
Accountancy at Stirling is ranked 3rd in Scotland according to the National Student Survey 2017.

The Bachelor of Accountancy (BAcc) in Accountancy is designed specifically for students planning a career in the accountancy profession or the wider financial sector. Having our degree behind you will help you achieve this, as you will gain significant examination exemptions from professional bodies, enabling you to progress quickly in your chosen area of professional study. Many professional bodies recognise the BAcc as a relevant degree, including: ICAS, ACCA, CIMA and CIPFA.

By studying towards the BAcc degree, you will learn that accountancy involves the preparation, presentation and interpretation of financial information to enable investors, lenders, management, employees, government and others to make effective decisions.

Course Content

In Semesters 1-3, you will study a series of core modules including: Accounting; Finance; Economics; Business Management; and Business Law. In Semesters 4-8, you will develop a critical understanding and analytical approach to subjects directly relevant to accountancy, including: Auditing; Advanced Financial Accounting; Taxation; Personal Financial Planning; and External Reporting.

You will have numerous opportunities to develop appropriate workplace-related skills at every stage of your studies, including the Professional Development and Practice module in Semester 8, which helps you prepare to enter the workplace.

Our BAcc degree can be taken as a three-year specialist degree or as a four-year Honours degree, which includes writing a dissertation on an accounting topic. A BAcc (Hons) Accountancy and Finance course is also available, which provides scope to study more finance-based topics.

Career Opportunities

Accountancy offers a wide choice of careers with organisations in every field, from healthcare and sport to charities and local and national governments. Careers include financial and management accounting, auditing, taxation, consultancy and financial services.

Course Combinations

This course can be combined with Business Law (HN24A); Business Studies (HN4F4); Economics (LN14); Finance (HN4G3); Marketing (HN4G5); Mathematics (GN14); Spanish (GN444); or Sports Studies (NC46).

Additional Information

See page 117.

Other Qualifications

Additional Information

General entry requirements apply – see pages 120-121.

Mathematics National 5 (B), Intermediate 2 (C), Standard Grade (3), GCSE (C4) or equivalent required.

Accountancy and Finance at Stirling is ranked in the UK’s top 15 institutions according to the 2018 Times and Sunday Times Good University Guide.

The Bachelor of Accountancy (BAcc) in Accountancy and Finance is designed specifically for students planning a career in the accountancy profession or the wider financial sector. Having our degree behind you will help you achieve this, as you will gain significant examination exemptions from professional bodies, enabling you to progress quickly in your chosen area of professional study. Many professional bodies recognise the BAcc as a relevant degree, including: ICAS, ACCA, CIMA and CIPFA.

You will learn that accounting concerns the preparation, presentation and interpretation of financial information to enable investors, lenders, management, employees, governments and others to make effective decisions. A degree in Accountancy and Finance will ensure you gain a thorough understanding of the theoretical and analytical skills you need for a career in corporate finance, investment management or financial services.

Career Opportunities

Accountancy and Finance offers a wide choice of careers with organisations in every field, from healthcare and sport to charities and local and national governments. Careers include financial and management accounting, auditing, taxation, consultancy and financial services.

Our Accountancy graduates are currently working in 21 countries around the world. A wide range of opportunities are open to graduates in this field. These include working as Financial Analysts for fund management institutions, dealers on the stock exchange, Investment Bankers or financial market regulators.

Course Combinations

This course is not available as a combined degree.

Mathematics National 5 (B), Intermediate 2 (C), Standard Grade (3), GCSE (C4) or equivalent required.
ANIMAL BIOLOGY
BSc (Hons)

PT  " "
UCAS CODE: C300

MINIMUM REQUIREMENTS

YEAR 1 ENTRY – FOUR-YEAR HONOURS
SQA Highers: AABB – one sitting
GCE A-Levels: BBB
IB Diploma: 32
BTEC (Level 3): DDM

Essential subjects:
To include one of Biology, Chemistry, Geography or Physics.

YEAR 2 ENTRY – THREE-YEAR HONOURS
SQA Adv. Highers:
GCE A-Levels: BBB
IB Diploma: 32

Essential subjects:
To include one of Biology and one of Chemistry, Environmental Science, Geography or Physics.

OTHER QUALIFICATIONS

ADDITIONAL INFORMATION
General entry requirements apply – see pages 120-121.

What determines variation in animal resistance to disease? Why do many female animals exhibit mate choice? How can we help animals cope in hostile environments? This course will enable you to study the enormous variety of animal life on earth and discover the answers to these and many other questions.

Our strong research focus on the interaction between people and the environment makes Stirling the ideal place to study organismal biology.

Our Faculty studies many facets of animal biology including: animal behaviour, ecology, evolution, cell biology, and physiology. We also explore applied aspects of animal conservation and management. Stirling is Scotland’s hub for conservation science, and we have close links with many animal conservation organisations based on campus or in the local area.

Fieldwork is an essential part of your training. In addition to fieldwork in Scotland, we run two optional field courses in Year 4. One course is situated in the French Cévennes Mountains, which is a UNESCO World Biosphere Reserve, and the second course is based at Gabon’s Lopé National Park, in the heart of the western Congo Basin. Additional student costs are kept as low as possible, but include the purchase of a lab coat and some personal lab kit.

MINIMUM REQUIREMENTS

YEAR 1 ENTRY – FOUR-YEAR HONOURS
SQA Highers:
GCE A-Levels: BBB
IB Diploma: 32
BTEC (Level 3): DDM

Essential subjects:
To include one of Biology or Chemistry.

Preference will be given to candidates with a strong science background.

OTHER QUALIFICATIONS
Access courses and other UK/EU and international qualifications are also welcomed. See page 117.

ADDITIONAL INFORMATION
Please note that this course is a fully integrated degree taught in conjunction with Forth Valley College. Selection will be determined by a successful interview.

Scotland is internationally recognised in the Life Sciences arena, with crucial contributions to areas like drug discovery and development, contract research, medical technologies, stem cells, specialised bio-manufacturing and bioinformatics.

The Life Sciences industries have identified particular problems in recruiting work-ready science graduates. These industries are highly regulated, and many students currently graduate from university without the skill sets employers seek.

To meet the needs of the Life Sciences industry, and in consultation with employers, Forth Valley College and the University of Stirling have developed a four-year, fully integrated degree course in Applied Biological Sciences. This course is designed to equip students with an awareness of industry practices and the technical expertise sought by employers. This will help ensure that Scotland has ‘employment-ready’ graduates with the competence and education required by industry, while supporting realistic graduate expectations and promoting staff retention rates.

Academics from the University and College work together alongside employers to deliver the most up-to-date and industry-relevant curriculum. All undergraduates of this course will have dual student status, and will be fully enrolled within both institutions. Students will have full access to all of the University’s and College’s online and on-site facilities from Year 1 onwards.

A degree in biology can help you get a job in health sectors and science. However, there are many other career opportunities this degree can provide. You can find employment as:

• Biotechnologists
• Higher Education Lecturers
• Microbiologists
• Nanotechnologists
• Nature Conservation Officers
• Pharmacologists
• Secondary School Teachers
• Soil Scientists
• Zoologists

COMPANIES IN THE SECTOR CONTRIBUTE IN EXCESS OF £4.2 BILLION TO THE SCOTTISH ECONOMY

Life Sciences Scotland 2017

This course is not available as a combined degree.
A major skills gap is opening up in Scotland's computing sector. The BSc (Hons) in Applied Computing is a unique course developed to meet the identified skills shortages within the industry. It allows students to develop skills in key areas identified by Scottish information and communications technology (ICT) employers. There is a strong focus on employability and industrial awareness throughout this four-year course.

**INCLUDES A THREE-MONTH INDUSTRIAL WORK PLACEMENT**

**COURSE CONTENT**

You will spend the first two years of this four-year course at Forth Valley College, before transferring to the University for Years 3 and 4. During Year 2 at the College, students will also take a module at the University to support the transition from the College to the University environment. The course contains a compulsory three-month industrial work placement after Year 3.

Semesters 1-4 are based at Forth Valley College, and cover modules in: Computer Systems Fundamentals; Professionalism and Ethics in Computing; Mathematics: Calculus and Matrices for Computing; Software Development: Programming Foundations; Software Development – OOP; Systems Development – Object Oriented Analysis and Design; and XML (taught at the University).

Semesters 5 and 6 at the University cover modules in: Software Engineering; Multimedia and Human-Computer Interaction; Database Principles and Applications; Computer Game Technologies; and Information Systems.

In Semesters 7 and 8, modules include: Big Optimisation Spaces; Concurrent and Distributed Systems; Technologies for e-commerce; Artificial Intelligence; InterNetworking on the Wide Scale; and Enterprise Portals. You will carry out an independent project in your final year that will give you the opportunity to develop a major piece of work from initial requirements to final delivery.

**CAREER OPPORTUNITIES**

There is high demand for computer science graduates who can find employment in various sectors such as software development, consultancy and business analysis.

Our graduates have found employment as:
- Software Applications Developers
- Computer Systems Analysts
- Computer Systems Engineers
- Network Systems Administrators
- Database Administrators
- Business Intelligence Analysts
- Web Developers
- Computer Programmers

**ADDITIONAL INFORMATION**

Please note that this course is a fully integrated degree taught in conjunction with Forth Valley College. Selection will be determined by a successful interview.

---

**AQUACULTURE BSc (Hons)**

The Institute of Aquaculture at the University of Stirling is the leading international centre in its field, and the largest of its kind in the world. Keeping our aquatic environments healthy, protected and sustainable is vital for our planet and the people living on it. The aquaculture industry – or aquatic agriculture – already provides over 50 percent of all fish and seafood for human consumption worldwide. However, aquaculture is more than just ‘fish farming’; it includes the culture of many species, including crocodiles and turtles. Our Aquaculture course will train you in all subjects relevant to global aquaculture. In Semesters 5 and 6, you could benefit from an exchange programme with various institutions across the world, including Australia, Canada, and the USA.

The course enables students to understand the form and function of aquatic systems, and understand the biology, ecology, and management of organisms inhabiting these systems. Students will gain detailed knowledge of various aspects of the aquaculture industry, including: production and hatchery systems; nutrition; animal health and disease, and broodstock management. Practical work ensures students can translate theory into practice. The Institute of Aquaculture enjoys an international reputation in teaching, research, innovation and consultancy. We provide expertise to organisations in one of the most rapidly expanding food production sectors in the world, and were one of the most rapidly expanding food production sectors in the world, and were rated fourth in the UK for Agriculture, Veterinary, and Food Science in REF 2014.

Additional student costs are kept as low as possible, but include the purchase of a lab coat and some personal lab kit.

**COURSE CONTENT**

Our Aquaculture course will train you in all species, including crocodiles and turtles. However, aquaculture is more than just ‘fish farming’; it includes the culture of many species, including crocodiles and turtles. The course contains a compulsory three-month industrial work placement after Year 3.

Semesters 1-4 are based at Forth Valley College, and cover modules in: Computer Systems Fundamentals; Professionalism and Ethics in Computing; Mathematics: Calculus and Matrices for Computing; Software Development: Programming Foundations; Software Development – OOP; Systems Development – Object Oriented Analysis and Design; and XML (taught at the University).

Semesters 5 and 6 at the University cover modules in: Software Engineering; Multimedia and Human-Computer Interaction; Database Principles and Applications; Computer Game Technologies; and Information Systems.

In Semesters 7 and 8, modules include: Big Optimisation Spaces; Concurrent and Distributed Systems; Technologies for e-commerce; Artificial Intelligence; InterNetworking on the Wide Scale; and Enterprise Portals. You will carry out an independent project in your final year that will give you the opportunity to develop a major piece of work from initial requirements to final delivery.

**CAREER OPPORTUNITIES**

A graduate in Aquaculture is well equipped to enter both the expanding field of aquaculture or related positions, including: aquaculture development, aquaculture production, hatchery companies, fish farm companies, environmental impact assessment, environmental and conservation fields; pollution control, pharmaceutical companies, fisheries management and governmental regulatory departments.

In addition, there is a wide range of more general graduate employment, such as with biotechnological companies, bioinformatics, health sciences, the food industry, marketing, science journalism and teaching. A second degree (MSc or PhD) will often be required for career advancement to more senior research posts, and many of our graduates go on to pursue further study at Stirling or other UK and overseas universities.

Our graduates have found employment as:
- Scientists e.g. analytical research and development etc.
- Ecologists
- Microbiologists
- Health Managers
- Fisheries Technicians e.g. hatcheries
- Nutrition Analysts (Fish Feed)
- Higher Education Lecturers
- Trainee Fish Farm Managers
- Commercial Fish Farm Operators, Managers, Owners, Directors
- Agriculture Managers (Fish Supply)
- Fish Pathologists
BSc (Hons)

MINIMUM REQUIREMENTS
YEAR 1 ENTRY - FOUR-YEAR HONOURS

CAREER OPPORTUNITIES
Biology graduates progress to successful careers in the pharmaceutical, biomedical and agricultural industries, among others. Many find employment in conservation, management and environmental agencies. Other career paths include: the civil service, forensic science, teaching, the food industry, hospital analytical laboratories, and government and industrial research laboratories. Our graduates have found employment as:
- Scientists e.g. analytical biological research/soil/water etc.
- Microbiologists
- Laboratory Technicians
- Recycling Officers
- Waste Management Officers
- Geographic Information Analysts

This course is not available as a combined degree.

In this course, you will examine just how critical computers are to business. The emphasis is on organisations and how computers are used within them. In addition, you will study the basic skills of designing and building software systems.

You will gain a broad base of skills by combining theory and practice – a skillset that resonates well with employers, whether in the software industry itself or in a wider and more strategic context, developing the use of IT in any business.

We help our students build a strong link with industry and, during Year 3, you will have the opportunity to take part in a three-month summer placement or a one-year placement. Students also have the opportunity to engage with an international teaching environment through our exchange programmes.

BSc (Hons) graduates are fully accredited by The Chartered Institute for IT for the educational requirements of being a Chartered Information Technology Professional (CIITP), which is the Society’s professional member level.

100% OF OUR BUSINESS COMPUTING STUDENTS ARE IN WORK OR FURTHER STUDY WITHIN SIX MONTHS OF GRADUATING
Destinations of Leavers from Higher Education survey 2015/16

Our graduates have knowledge of both business and computing science – a skills combination highly valued by employers. You will be ideally placed to work either in the software industry itself, or in a more strategic role developing the use of IT in business.

Possible employers range from consulting firms to IT users such as governments, banks and insurance companies. Our industrial placements will equip you with work experience that will facilitate entering the job market.

Recent employment successes for graduates in business and financial services include: Prudential, Standard Life Assurance, Bank of Scotland and HSBC, as well as companies such as KAMA, Logica, Microsoft and Google.

CAREER OPPORTUNITIES
BUSINESS STUDIES
BA (Hons)

Our focused yet flexible approach to learning means you can undertake a Single Honours degree in Business Studies, or one of a number of combined degree courses that bring together Business Studies and another subject. Students intending to specialise in Business Studies are encouraged to take modules in related subject areas, such as: Accountancy, Marketing, Retail Studies, Economics or Computing Science.

Which ever route you choose, the knowledge, skills and competencies you gain from this course offer a firm foundation to continue developing your management expertise.

Our teaching staff are active in various areas of current management research, which informs our teaching and ensures our course content is relevant to current trends within business. Guest speakers from a wide range of industries bring learning into the classroom, and several modules use ‘live’ business simulations to give you real-world experience of managing a company.

COURSE CONTENT
Semesters 1-2 will provide you with a grounding in the subjects of Business and Management, as well as analytical techniques that underpin Business Activity and Management.

Semesters 3-4 focus on Business and Management, including: the Organisation of Business and the Fundamentals of Business and Management.

Semesters 5-8 comprise a series of interlinked core modules, including: International Business; Responsible Business; and Strategic Management.

You will have numerous opportunities to develop appropriate work-related skills at every stage of your studies, including the Professional Development and Practice module in Semester 6 or 8, which helps you prepare for entering the workplace. We also offer opportunities for you to gain work experience via internships with a number of local, regional and national organisations.

CAREER OPPORTUNITIES
Business Studies graduates are well placed for a variety of jobs covering many different business sectors. Our graduates have gone on to work in: communications, banking, insurance, human resources, information management, advertising, retailing, international trade and research and development.

ADDITIONAL INFORMATION
General entry requirements apply – see pages 120-121.

CELL BIOLOGY
BSc (Hons)

The study of biological systems at cellular and subcellular levels is key to understanding how organisms develop, how they respond to their environment and how the diseased state differs from the healthy state.

Recent advances in cell biology are enabling cell biologists to:
- Understand the basis of diseases in humans, animals and plants
- Develop novel treatments and therapies for diseases
- Explore the processes associated with aging
- Improve the quality and quantity of important food crops
- Develop novel and sustainable fuels
- Assess the impacts of environmental changes on biological systems

Our focused yet flexible approach to learning means you can undertake a combined degree course that brings together the subjects of Biology, Chemistry, and one of the following disciplines: Economics or Computing Science.

This course can be combined with:
- Accounting (NFF3)
- Economics (LN11)
- English (NJ11)
- Environmental Science (Q013)
- Film and Media (NP13)
- Geology (NP11)
- Human Resource Management (NH11)
- Law (MN11)
- Management (MN12)
- Marketing (MN25)
- Modern Languages (NJ19)
- Politics (NJ21)
- Professional Education (NX11)
- Professional Education and Computing Science (NX21)
- Psychology (CN81)
- Spanish (NR84)
- Sports Studies (NC16).

National Student Survey 2017

100%

COURSE CONTENT
In Semesters 1-4, you will study the following core modules options: Cell Biology, Physiology, Genetics and Evolution; Ecology, and Biodiversity. In addition to the core modules, you will study Practical Skills in the Biological and Environmental Sciences and Quantitative Techniques. You will take additional modules in other disciplines of your choice. These are often in Environmental Sciences or Aquatic Sciences.

Students 5-6 include modules in: Animal Physiology, Microbiology, and Animal Cell Biology. Students will also select additional modules such as: Applied Immunology, Enzymes and their Applications, Oceanography and Limnology, and Plant Physiology. In Semesters 7-8, you will undertake an independent research project and a number of advanced modules from a range of options, which currently includes: Cell Birth, Life and Death; Genetic Engineering; Immunology and Disease; Molecular Techniques; and Proteomics.

A research project is a major component of the final year, and the project topics offered to you will reflect the active research interests of academic staff.

CAREER OPPORTUNITIES
Graduates of this degree enter careers in the healthcare, science and pharmaceutical sectors. Specific career paths include working as Research Assistant/Technician in academia or industry, or teaching in colleges/schools. A number of our students have progressed onto a postgraduate degree such as a MSc or PhD.

Our graduates have found employment as:
- Scientists e.g. analytical biological/ research/scientist etc.
- Microbiologists
- Laboratory technicians

stir.ac.uk/3w

This course is not available as a combined degree.
COMPUTING SCIENCE
BSc (Hons)

This course will teach you how to design, build and analyse computer systems in both practice and theory. It will also help you to develop a firm understanding of how computers work, effective computer programming and how they fit into their environment. Our graduates are highly sought-after within the industry.

We help our students build strong links within the industry, and offer the opportunity to take part in a three-month summer placement or a one-year placement. Students will also have the option to experience diverse international teaching methods by choosing to study abroad.

Our students enjoy access to a vibrant community, with exposure to BCS (The Chartered Institute for IT) chapters and an active Computer Club that supports projects and activities for those interested in computer sciences, including the organisation of a Hackathon. BSc (Hons) graduates are fully accredited by The Chartered Institute for IT for the educational requirements of being a Chartered Information Technology Professional (CITP), which is the Society’s professional member level.

COURSE CONTENT
In Semesters 1-3, students from all three of our computing-related degrees take the same core modules in Computing Science. Core concepts include: Computational Thinking; Programming; Using Java, Social and Professional Issues; Usability and Accessibility of Interfaces; and Data Structures, Objects and Algorithms. You will also take two further subjects. In Semester 1, you must take a Mathematics module.

Semesters 4-8 cover compulsory modules such as: Computer Systems and Software Engineering; Optional modules include: Computer Security and Forensics; Artificial Intelligence; Web Services; Telecommunications; and Games Development.

Honours students undertake an independent project in their final year. The choice of project topic can be motivated by a particular interest that you have, and may involve the design and development of a major piece of software, an investigation into a particular research-driven topic or the development of control software for a hardware device.

CAREER OPPORTUNITIES
This degree will place you at the forefront of computing in a web-based world. Our industrial placements will equip you with work experience that will facilitate entering the job market.

Our graduates are well equipped to enter either the software industry itself or one of the many fields in which computer systems are extensively used and developed. Recent employment success for our graduates include: Agilent (Hewlett Packard Ltd), British Telecom, Google, HSBC, KANIA, Logica, Microsoft and Scottish Power.

Our graduates have found employment as:
- IT Management Consultants
- Information Systems Managers
- Software Developers and Testers
- Systems Developers
- Systems Administrators
- Web Developers
- Cybersecurity Consultants
- Database Administrators
- Game Developers
- Multimedia Programmers

2ND IN SCOTLAND FOR COMPUTER SCIENCE
National Student Survey 2017

stir.ac.uk/3y

CONSERVATION BIOLOGY AND MANAGEMENT
BSc (Hons)

The contemporary world is one of rapidly increasing human interference in natural environments, as well as competition for space and resources. A degree in Conservation Biology and Management will provide you with the framework to develop an understanding of the complex relationships between environments and their inhabitants, as well as the policies and management strategies that aim to safeguard our biodiversity and the ecosystem services upon which humans depend.

Stirling is a superb place to study this. The city is home to more environmental and conservation organisations than anywhere else in the UK. We have strong links with all these organisations, and some of them are even based at the University.

Our research is at the interface between the environment and society, and includes: Conservation Science; Evolutionary Ecology; Ecosystem Ecology; Hydro-Geomorphology and Remote Sensing.

You will receive excellent practical training, hands-on experience and preparation for a range of careers in conservation and related fields. Additional student costs are kept as low as possible, but include the purchase of a lab coat and some personal lab kit.

COURSE CONTENT
In Semesters 1-4 cover core modules in foundation subjects, including: Ecology, Biodiversity, Cell Biology and Physiology, Environmental Sciences; and Practical Skills.

Semesters 5-6 cover advanced modules in: Environmental Policy and Management; Population and Community Ecology; plus up to four modules from a defined list of options, including a field course to Spain.

Students doing Conservation Biology and Management have a four-week placement working with a relevant organisation in the summer between Years 3 and 4.

In Semesters 7-8, you will undertake a research project and can choose to go on the ecology field course, currently based in the Cevennes National Park in Southern France. Students take up to six modules from a range of options.

Students must pay a contribution towards the cost of travel, accommodation and subsistence for the Scottish field course in Year 2 and the optional field courses in Years 3 and 4.

CAREER OPPORTUNITIES
There is high demand for well-qualified conservation graduates, and students completing a Conservation Biology and Management degree at Stirling work with a range of UK employers. We have strong links with research and conservation bodies both in Scotland (e.g. Scottish Natural Heritage, Scottish Environmental Protection Agency), the wider UK and overseas (e.g. International Union for Conservation of Nature, European Environment Agency, Norwegian Institute for Nature Research) and various conservation non-governmental organisations such as the Royal Society for the Protection of Birds, British Trust for Ornithology, Bat Conservation Trust, wildlife trusts and environmental consultancies. Other graduates may train as teachers or undertake further study.

Our graduates have found employment as:
- Nature/Conservation Officers
- Ecologists
- Energy Advisors
- Environmental Education Officers
- Environmental Manager/Consultants

93% OF OUR STUDENTS SAY OUR STAFF ARE GOOD AT EXPLAINING THINGS
National Student Survey 2017

stir.ac.uk/3z
Criminology

How does society work? How are crime and other social problems situated in society, and how do different cultures understand these problems? What can we learn from the success of social policies in other countries?

This course provides an international and comparative approach to help you understand a wide range of social issues including crime and criminal justice, inequality and welfare, race, immigration, disability, addictions, youth and ageing. You will attain a strong training in Criminology and the theory and methods of applied social science. If you are considering a career in the police, prison service or human rights agencies, it will provide a strong academic base.

Criminology is based in the Faculty of Social Sciences, and may only be studied as a combined degree. It can be combined with any of the following options: Law (MM91); Philosophy (MV95); Politics (ML92); Sociology (LM93) or Social Policy (LL64).

There is a very strong practical/applied focus at Stirling with excellent links between our research, research centres and our teaching. Our lectures are involved in various fields of research, for example: police practice, surveillance, children affected by parental substance use, resistance from crime; human trafficking, and corporate and white collar crime. You will also have the opportunity to develop practical research skills yourself through two intensive core courses on qualitative and quantitative research methods. If you choose a dissertation, you will also have an opportunity to put research methods into practice while focusing on an area of particular interest.

Throughout the duration of the course you will learn how to identify and recognize the inherent importance and value of a discipline from an economic, social and cultural perspective - and make links between the discipline and professional opportunities. You will also learn how to become a critical thinker with analytical and problem-solving abilities that you can then apply creatively in different contexts.

Career Opportunities

Criminology provides a strong academic base if you are considering careers in the police; the prison service; probation; social work; community care and law; regulatory fields such as the factory and tax inspectorates; human rights agencies; charitable foundations and lobby groups. As well as specific subject-based knowledge, you will graduate with a wide range of experience and skills; in particular, communication skills, self-management skills and interpersonal skills providing you with a competitive edge across the private, public and voluntary sectors.

Digital Media

As the speed of change in the media sector continues to accelerate, the demand for graduates able to embrace new technology and innovative methods of content delivery is also growing.

This course provides students with rigorous and challenging training in the tools, applications and possibilities of the digital environment – from the preparation of journalistic and multiplatform content to its effective display and dissemination across television, film, radio, print, online and beyond.

The overarching aim of the course is to make sure graduates are work ready, and will meet the critical skills requirements of a multi-sector job environment through the development of relevant skills in journalism and related content development technologies.

Course Content

The Digital Media course combines the applied technological and media-oriented skills of Forth Valley College’s course with the advanced academic training and latest digital expertise of the University. Students will be equipped not only with the skills to be creative and productive in the digital era, but will also understand the ethical, legal and theoretical dimensions of this training.

Semesters 1-4 are based at Forth Valley College in Stirling, and include modules in: Complex Oral Presentation; Correcting Creative Text; The Media: Features and Trends; Research Skills; Writing for the Media; Law and the Media. With options in: Web Design; Analysing and Producing Radio; Video Production; Photography, Media Analysis, Desktop Publishing and Layout; Critical Analysis of Text; Creative Industries Enterprise Actively; Radio Music Programme Production and Creative Writing for Vocational Purposes.

Semesters 5-8 are based at the University of Stirling. In Semester 5 and 6, core modules include: Digital Creativity; Production: Online Content; and Social Media Marketing. Optional modules include: Journalism in Society, and Advertising and The Poetic Eye: Documentary Film and Television.

In Semester 7, you will choose from advanced modules including: Digital and Data Literacy; Production: Content Development and Research; Researching the Media and Culture; Advanced Reporting; and Digital Journalism. As part of a final-year Honours project, you will also complete a 60-credit independent study module. This will take the form of a digital publishing project or film and media studies dissertation.

Career Opportunities

Graduates are work ready, well rounded, informed, highly skilled and digitally literate individuals, able to work effectively across a range of media platforms.
ECOLOGY
BSc (Hons)

People have an enormous impact on their environment through resource use, habitat degradation and climate change. Understanding how our actions impact the ecological balance across the planet has never been more important.

Our Ecology course is designed to help you understand how animals, plants, fungi and microorganisms interact with their environment, as well as the relationship between people and the rest of the biosphere.

This course covers the core conceptual issues of Ecology in its broadest sense, but also provides hands-on opportunities to learn transferable skills and analyse ecological relationships across all types of organisms.

Whether you are interested in pursuing an academic career, or want to participate in the practical solution of ecological problems, Ecology will provide you with the tools and concepts you need to make a difference.

Fieldwork - an essential part of training - takes place in Scotland and France. There is also an optional trip to Spain. Additional costs may occur.

FIELDWORK OPPORTUNITIES IN SCOTLAND, FRANCE AND SPAIN

This course is not available as a combined degree.

ECONOMICS
BA (Hons)

Almost every decision taken in our fast-moving social, commercial and technological world is dictated by economic imperatives at regional, national and global levels.

In the current economic climate, the role of the economist is now becoming more crucial, with the welfare and prosperity of nations dependent upon their accurate interpretations and responses to continually shifting economic realities.

CAREER OPPORTUNITIES

Almost every decision taken in our fast-moving social, commercial and technological world is dictated by economic imperatives at regional, national and global levels.

EDUCATION (PRIMARY)

Our courses in Primary Education will equip you with the necessary knowledge and skills to start a career in one of the most rewarding professions.

You will develop your understanding of Education theory and practice alongside your subject specialisation in Semesters 1-2, and undertake a self-organised placement in an educational setting of your choice. In Semesters 3-4, you will continue to study Education alongside your subject specialism. You will also be supported by an academic supervisor who will provide you with access to a combination of cutting-edge research and practice throughout your study.

Our unique model of teaching also allows you to develop gradually as a teacher through a series of placements and placements.

In Semester 5-6, you will continue to develop your understanding of teaching literacy and numeracy. After your four-week school experience, you will undertake an advanced education module with a focus on differences, identities and inclusion. You will also be supported by a module on professional practice and policy in relation to your subject specialism.

Semester 7 includes a 10-week school experience, with opportunities to teach your chosen specialism. In Semester 8, you will complete an Enquiry into Practice that is closely related to your placement, and undertake an independent project related to your choice linked to your chosen specialism.

EDUCATION (SECONDARY)

We offer a wide range of courses to prepare secondary school teachers that enables them to gain a research-informed degree in Professional Education, studying both pedagogy with a first teaching subject or subjects (see course combinations below).

Our distinctive courses, studied over four years rather than the traditional five, have been offer for over 40 years, and our confidence in this process is validated by the recommendations of the Don Scanlon Report into Teacher Education.

We review and modify our programmes to take account of the changing educational context to ensure you have the most up-to-date knowledge and skills for teaching. We also work in close partnership with the Local Authorities, schools, Education Scotland and the Scottish Government’s Probationary Teacher Scheme.

CAREER OPPORTUNITIES

Most of our graduates enter the Scottish Government’s Probationary Teacher Scheme, which entitles them to guaranteed employment for one year as a newly qualified teacher in a Scottish Local Authority school. Your degree and teaching qualification will also allow you to enter into a wide variety of other professional roles, such as corporate training and development, museum and education, educational psychology, translation or media, as well as other career routes less closely allied to teaching.

ACREER OPPORTUNITIES

The majority of our graduates enter the Scottish Government’s Probationary Teacher Scheme, which entitles them to guaranteed employment for one year as a newly qualified teacher in a Scottish Local Authority school. Your degree and teaching qualification will also allow you to enter into a wide variety of other professional roles, such as corporate training and development, museum and education, educational psychology, translation or media, as well as other career routes less closely allied to teaching.

ACCREDITATION

Recently re-accredited by General Teaching Council of Scotland with seven commendations that include being student-centred and the high quality of our research-informed approaches.

ENGLISH STUDIES
BA (Hons)

COURSE CONTENT
In Semesters 1-2, you will take compulsory modules: Introduction to English Studies 1: Genres, and Introduction to English Studies 2: Theories Approaches; plus four additional modules from other disciplines, which could include Linguistics. In Semester 3, you will study Literary Revolutions. In Semester 4, you will study a choice of core modules including: Writing and History; Writing and Identity; and Writing and Language. In Semester 5, students choose from several period-based modules, such as: Modernism and Modernity; British Romanticism; and Victorian Literature and Culture. Semesters 6-7 cover a range of optional modules which may include: Modern Gothic; Scottish Literature; Shakespeare’s Theatre; Language and Gender; Jane Austen; and Creative Writing. The final semester will be spent writing your dissertation, supervised by your tutor.

CAREER OPPORTUNITIES
The ability to think and write clearly is extremely valuable in many careers and professions. Our graduates are well prepared in these transferable skills, and have an excellent success rate in finding rewarding employment in many fields like teaching, TEL, advertising, marketing, PR, journalism, charity or arts administration, publishing, broadcasting and creative writing.

ENVIRONMENTAL GEOGRAPHY/ENVIRONMENTAL SCIENCE AND OUTDOOR EDUCATION
BSc (Hons)

COURSE CONTENT
Studying Outdoor Education with either Environmental Geography or Environmental Science combines a solid foundation of theory with extensive hands-on practice, giving you an in-depth understanding of environmental, geographical and ecological issues.

In addition, you will gain the Mountain Leader Award, which is endorsed by the Mountain Training Association and provides you with training in navigation, mountain hazards and other outdoor leadership skills. Lectures and tutorials are combined with practical in-the-field learning, making this a physically demanding course requiring a certain level of health, fitness and mobility.

COMBINE YOUR DEGREE WITH A MOUNTAIN LEADER AWARD
In addition, you will gain the Mountain Leader Training Award, which is endorsed by the Mountain Training Association and provides you with training in navigation, mountain hazards and other outdoor leadership skills. 2ND IN SCOTLAND FOR ENGLISH STUDIES
The Complete University Guide 2018

CAREER OPPORTUNITIES
Graduates have found work as: Countryside Rangers, guides and environmental science or geography educators – raising public awareness of environmental issues – and other careers specific to outdoor education. Our graduates have also found employment as:
• Scientists e.g. analytical biological/ environmental research/water etc.
• Microbiologists
• Laboratory Technicians
• Energy Advisors
• Environmental Education Officers
• Environmental Managers/Consultants
• Recycling Officers
• Waste Management Officers
• Geographic Information Analysts
• National/Conservation Officers
• Ecologists

This course is not available as a combined degree.

ENVIRONMENTAL SCIENCE
BSc (Hons)

This course offers innovative, interdisciplinary training for students who want to address the world’s most pressing environmental challenges. The environmental systems on which our society depends are complex and fragile. To understand these systems, environmental scientists need to take an interdisciplinary approach that combines knowledge of the physical, chemical and biological processes with how these interact over space and time to shape our natural environment and its interplay with human society.

For more information about student membership to the Institute, please see the website.

COURSE CONTENT
Semesters 1-4 will explore the science behind the global physical, chemical and biological processes that shape our natural environment, and provide training in laboratory and field skills through a series of core and optional modules, including a residential field trip to Aviemore or the Lake District.

Semesters 5-8 will provide specialist training in core modules, such as: Environmental Policy and Management, Geographical Information Systems, and Methods and Applications in Environmental Science. These are complemented by a range of other modules.

CAREER OPPORTUNITIES
Our focus on providing technical field and laboratory training, as well as scientific knowledge, means our graduates are highly employable. Many go on to work in a wide range of organisations including water authorities, renewable energy companies, conservation bodies, environmental consultancies, local authorities and government agencies - or take up postgraduate study in education, environmental management, and information technology.

Our graduates have found employment as:

- Scientists e.g. analytical biological/ research/soil/water etc.
- Microbiologists
- Laboratory Technicians
- Energy Advisors
- Environmental Education Officers
- Environmental Manager/Consultants
- Recycling Officers
- Waste Management Officers
- Geographic Information Analysts
- Nature/Conservation Officers
- Ecologists

COURSE COMBINATIONS
This course can be combined with: Economics (FL91); Mathematics (FG51); Politics (FL52); or Professional Education (Primary) with specialism in the Environment (XC11).

FILM AND MEDIA
BA (Hons)

We are pioneers in Film and Media education and research, and have been nationally and internationally active in the field since 1978.

The Film and Media degree combines analysis and practice. You will develop the critical and theoretical skills you need to study film, broadcasting, journalism, digital media, advertising and public relations – and will have the option of selecting modules devoted to audio and video production, and developing related skills.

Our students get the chance to develop their skills within a supportive and stimulating environment. Teaching staff include specialists in gender, broadcast production, documentary, screenwriting, radio drama, Scottish cinema, public relations and digital media. The course is strengthened by regular input from our industry advisory board of professionals, who offer a diverse range of experience and expertise.

As well as our excellent teaching and research, you will benefit from access to the Macrobert Arts Centre, our on-campus, multi-screen cinema and theatre. This excellent resource is strengthened by regular input from our industry advisory board of professionals, who offer a diverse range of experience and expertise.

You will also be able to choose additional modules from a range of options.

Semester 5 & 8 provide choices from modules including: Screenwriting; Terrorism in the Media; Experimental Cinema; Sport and the Media; and Feminism and Television.

Semester 5 & 8 also offer regular production modules that build core skills as the degree progresses. Modules include: Radio Drama Production; Editing and Workflow; and Content Development and Research. The production strand ends in Semester 8 with Documentary Production – the results of which regularly win national awards.

Some modules include regular workshops and guest lectures delivered by industry speakers, many of whom are graduates of the course.

CAREER OPPORTUNITIES
Many Film and Media students have established successful careers in the media. These include broadcast and print journalism, television, radio and film production, media management, advertising and public relations. Transferable skills also mean that some students have established careers in more traditional areas such as education, banking and the civil service.

COURSE COMBINATIONS
This course can be combined with: Business Studies (NP13); English Studies (OP33); French (RP13); History (PV31); Journalism Studies (P9335); Lavel (P3M1); Marketing (PH135); Philosophy (VP53); Politics (PL32); Psychology (CP32); Religion (VP33); Sociology (LP33); Spanish (RP43) or Sports Studies (CP63).

COURSE CONTENT
In Semesters 1-4, you will learn vital skills in different aspects of film and media analysis across five core modules, including: Media Issues and Industries; The Moving Image; Reading Film and Television; Digital Media and Culture; and Understanding Audiences. You will also be able to choose additional modules from a range of options.

**FRENCH**

STA (Hons)

French at Stirling focuses on the contemporary, global nature of French language and culture today. Through studying language, literature and film you will develop a cultural awareness of how France sees itself and its place in the world. You will explore ethnic diversity in contemporary France and the complexity of Francophone cultures in places as diverse as Quebec, the Maghreb and sub-Saharan Africa.

**COURSE CONTENT**

You can begin your French studies in either our Advanced stream (for all students who have a Higher French or equivalent) or in our Beginners’ stream. For students in the Beginners’ stream, the focus is first and foremost on intensive language learning and on building written and spoken language skills across the first semesters of study.

Students in our Advanced stream will combine written language classes, spoken language classes and the study of aspects of French and Francophone culture, politics and society from Semester 1 onwards. These modules examine the language, culture and society of 20th and 21st century French and the wider French-speaking world through the analysis of texts, films and online materials. The Beginners’ and Advanced streams merge from Semester 4 onwards.

In Semesters 5-8, students will take core language modules in spoken and written French, and choose specialisms from a range of modules, including: French; Detective Film and Fiction; Women Writers on Women; Children’s Literature and Cinema; French Cultures of Travel; and Black France.

In most degree combinations, including French, Semester 6 is an integral and compulsory period of Study Abroad, which is spent at one of our partner institutions across France, Switzerland, Morocco or Quebec. All students of French will be required to spend some time abroad as part of their degree course.

**CAREER OPPORTUNITIES**

Language graduates are confident communicators with an ability to adapt well to new environments. In recent years, our graduates have progressed to careers in publishing, journalism, television, advertising, translating, law, teaching in French or English as a foreign language, administration and management.

---

**GEOGRAPHY – ENVIRONMENTAL GEOGRAPHY**

BSc (Hons)

This is a unique course rooted in the real world that equips our graduates with the skills to face global challenges in the 21st century.

Environmental Geography is the integrated study of the world, its landscapes, places, people and their relationship with the environment. It seeks to make sense of the world we live in, and is unique in bridging the environmental and social sciences.

While Physical Geography and Human Geography are disciplines in their own right, Environmental Geography combines these subjects to provide a much-needed capability to study and understand interactions between people and the environments in which they live.

Environmental geographers have expertise in and skills to research, analyse and communicate how the changing environment affects our lives. They visualise geospatial issues at different spatial scales, from global to local, and offer solutions to some of our most pressing environmental problems.

You will apply these skills to understanding the bio-physical processes that drive environmental change – and to real-world issues including food, energy and water security – within political and economic frameworks.

**COURSE CONTENT**

Semesters 1-4 cover the following core modules: Physical Geography, Geology, Biography, People and Environment, Global Environmental Issues and Statistical Techniques; plus additional modules from a wide range of options including a residential field course.

Semesters 5-8 offer a more specialised approach. You will study advanced modules on themes including: Sustainable Environmental Resources; Palaeo-Environments; Earthe Surface Processes; Remote Sensing and GIS; and Contemporary Environmental Issues. A further element of the course is a residential field class in Spain or Ireland. Additional costs may occur. All our final-year students develop research skills through their Honours research project.

Students have the opportunity to undertake study abroad during the third year of the course; this may be for a semester or for the full academic year (two semesters). We have a long-standing and highly successful exchange programme in Europe and in North America.

**CAREER OPPORTUNITIES**

Environmental Geography graduates are equipped with a unique combination of subject-specific and transferable skills, enabling them to develop their understanding of the relationships between environment and people. These skills, along with experience in fields like investigation, problem-solving, team working, communication and geographical information technology make them highly sought after by a wide range of industrial, commercial and public sector employers.

Our graduates have found employment as:
- Geographic Information Analysts
- Waste Management Officers
- Recycling Officers
- Commercial and Public Sector Analysts
- Environmental Conservation Officers
- Ecologists

---

**FACULTY OF NATURAL SCIENCES**

GGEOGRAPHY- ENVIRONMENTAL GEOGRAPHY
An innovative degree designed for students interested in the heritage, conservation and tourism sectors.

The University has joined forces with Forth Valley College to create an innovative new course that will produce highly skilled, work-ready graduates for the heritage, conservation and tourism sectors. The degree is supported by organisations such as VisitScotland and Scottish Canals.

This course combines the applied tourism and business skills of Forth Valley College’s Travel and Tourism programme with the University’s advanced academic skills in areas such as heritage, history, exhibition design, marketing and environmental studies. It is designed to equip students with sector-specific applied business skills alongside academic theory that is appropriate for an understanding of contemporary heritage management issues, and promotional and interpretative methods and techniques.

It will also provide you with a broad knowledge and understanding of the challenges facing the management and promotion of historic and natural environments – both in Scotland and internationally.

Throughout the four years, there will be an integrated approach to teaching. Academics from the college and the University will work together alongside employers to deliver the most up-to-date and industry-relevant curriculum. The result is a broad interdisciplinary training in heritage, tourism and conservation that is rigorous and intellectually challenging.

COURSE CONTENT
The first two years will be delivered by Forth Valley College at its new Stirling campus, and all students will also be registered at the University from the first year – providing full access to the University Library and other services. Students will also take a module at the University in the second year.

Students will have the opportunity to gain work experience with a relevant company in Year 2. Students will then progress to the University of Stirling for the last two years. Modules include: Heritage Protection: Theory and Practice; Interpretation and Exhibition Design; History; Heritage and Tradition: Making Identities in the Modern Era; Branding and Communications; Environmental Policy in Management; and Conservation Management.

During the final year of the course, you will engage in an extended piece of supervised independent study in the form of either a dissertation or a portfolio.

CAREER OPPORTUNITIES
Heritage and tourism play a vital role in Scotland’s economy and together offer diverse and rewarding forms of employment.

There is a wide range of associated organisations and businesses in the UK and internationally that require employees with advanced skills, learning and experience. These include conservation, heritage management, interpretation, community engagement, education, visitor attraction operations, tourism management, marketing and communication.

Employability skills are embedded throughout the course, alongside transferable skills in critical thinking, research, planning, communication and teamwork.

We work in partnership with organisations like VisitScotland, Scottish Canals and Historic Environment Scotland to make sure our course meets the needs of the heritage and tourism sectors and our students have close contact with them.

This course is not available as a combined degree.
HUMAN RESOURCE MANAGEMENT
BA (Hons)

Human Resource Management (HRM) deals with the management of an organisation’s workforce, from the most junior member of staff to the chief executive.

Specialists in this industry work closely with operational managers to develop and promote the employment relationship, enhance individual and team performance and ensure that workers are fairly treated.

HRM also attempts to increase the organisation’s ability to adapt within its environment through broadening the skills of the workforce. As such, HR specialists also need a good understanding of the labour market and their organisation’s wider social, economic and political environments.

FIELD
IN SCOTLAND FOR HUMAN RESOURCE MANAGEMENT
National Student Survey 2017

COURSE CONTENT
In Semesters 1 and 2, you will be taught core modules including: The Global Business Environment: An Introduction and The Management Challenge: An Introduction. Additional modules are taken from elsewhere in the University, though many students choose related subjects such as: Business Law, Economics, Psychology, or Sociology.

From Semester 3 and 4, you will take specialist modules in Human Resource Management, including Fundamentals of HRM and Work; Employment and Society.

In addition to specialist HRM modules, you can choose optional modules from Business Studies, Management or one of the other subjects you are qualified in – for example, Marketing. You are encouraged to take electives in Accounting and Finance for Managers and Economics for Managers.

You will have numerous opportunities to develop appropriate work-related skills at every stage of your course, including the Professional Development and Practice module in Semester 6 or 8, which helps you prepare for entering the workplace.

CAREER OPPORTUNITIES
Students completing this degree are well qualified for specialist careers both in HRM and general management. The increasing importance of individual performance to organisational success suggests that all managers should possess HRM skills.

Focusing on understanding employment in the widest sense, this course also enables graduates to take up roles in trade unions, employment-related charities, government departments, non-governmental organisations and employment research bodies.

COURSE COMBINATIONS
This course can be combined with: Business Studies (NH16); French (NPB1); Law (MN16); Marketing (NN65); Psychology (NC38); or Spanish (MN64).

INTERNATIONAL MANAGEMENT STUDIES AND INTERCULTURAL STUDIES (IMIS)
BA (Hons), plus integrated Masters

This course will offer you the opportunity to develop high-level language skills and study management subjects in an international context.

IMIS is a unique integrated Masters course available in conjunction with either the Ecole de Management in Strasbourg, France, or the University of Passau in Bavaria, Germany (the latter is open to native or near-native speakers of German only).

In both partnerships, the course will lead to an undergraduate degree from Stirling, as well as either a Masters in International Cultural and Business Studies from the University of Passau, or a Master Grande Ecole from Strasbourg.

INTERNATIONAL MANAGEMENT STUDIES WITH EUROPEAN LANGUAGES AND SOCIETY

BA (Hons)

Graduates with business and marketing skills, combined with a strong knowledge of European languages and society, are highly sought-after in the global job market. Choosing this course could be your first step to an international career.

During this course, you will combine aspects of international business and marketing with the study of either French or Spanish – as well as the economic, political, social and cultural environment in which international business is conducted.

You will spend Semester 6 studying in either Spain or Latin America, or at one of our French language partners across France, Switzerland, Canada or Morocco.

Students taking two languages can take a year out at the end of Year 2 to work as language assistants in France (or another Francophone location), Spain or Latin America. You will then spend Semester 6 in the country of your second language, so you’ll spend two lengthy periods in French and Spanish-speaking countries.

COURSE CONTENT
This course involves the study of three subject areas throughout. Students always take a language (French or Spanish) and Management (specialising in Business or Marketing as the course progresses). The third subject area can be either Accountancy, Economics, Law, Politics or a second language. The three subject areas chosen in Year 1 are retained throughout the course.

Students take core modules in their three subject areas in Semesters 1-4. In Semesters 5-8, students take specialist option modules in Business or Marketing, as well as options in their third subject area, and continue with high-level written and spoken language work including translation. Semester 6 is an integral Study Abroad semester.

CAREER OPPORTUNITIES
Our graduates have a strong command of one or more languages, and have studied management subjects within a global context. They are ideally equipped for careers in international business or marketing.

Recent graduates have progressed to positions in advertising, marketing, banking and management – securing positions with leading manufacturers and retailers, financial institutions and communications companies.

stir.ac.uk/5c

JOURNALISM STUDIES
BA (Hons)

The University of Stirling has been a leading player in journalism research and teaching for more than 30 years. It is one of Scotland's top institutions in the field.

Jon Snow, the successful and widely respected broadcaster and journalist, described us as "a breed apart", and many students have gone on to careers in press, broadcasting and online communications.

This course covers theoretical and practical aspects of Journalism Studies, and offers students an in-depth, critical understanding of journalism practice. With our modular approach, you will be able to tailor your degree to play to your strengths. Working individually and in groups, you will develop skills in news and features writing, sub-editing and design, digital journalism and news management.

Assessment is through a combination of coursework, practical work and examinations, and you will be taught by academics who are experts in their field – many of whom have extensive experience in the news industry.

stir.ac.uk/5z

COURSE CONTENT
In Semesters 1-2, you will take modules that introduce you to the study and contest of Journalism in the 21st century. In Introduction to Journalism Studies in Semester 1, you will explore key concepts and debates in the media and journalism – while in Ethical Issues in Journalism in Semester 2 you will consider the ethical dimensions of the news industry and its products. You will also choose two other modules of your preference from a range of subjects.

In Semesters 3-4, core modules Writing for Journalism I and II will introduce you to the techniques and resources used by professional journalists to identify, verify and interrogate information in the digital era, and help you develop the skills needed to write journalistic content. Also in Semester 4, an optional module in Photожournalism teaches you how to produce professional visual material for news stories. Semesters 5-8 will offer a choice of advanced Journalism Studies modules, such as: Print Journalism; Advanced Reporting; Law and Government for Journalists; Digital Journalism; Analysing the Language of News; and Journalism and Society. You can also choose from a selection of Film and Media modules such as: Public Relations; Advertising; or Gender and Representation. You may also take a work experience module in which you gain first-hand exposure to the modern media workplace.

CAREER OPPORTUNITIES
We have extensive links with the media industry, and many of our graduates have pursued successful careers in print, broadcast and online journalism. This course is also strengthened by regular input from our industry advisory board of professionals, who offer a diverse range of experience and expertise.

The BA (Hons) Journalism Studies degree also offers a foundation for vocational postgraduate study in journalism and related fields, such as public relations and media management.

STUDENT SATISFACTION
Psychology; and Politics.
Examples of the other options available
in Years 1 and 2 include: Languages;
Management; Economics; Criminology;
Politics; and Psychology.
COURSE CONTENT
The Business Law course caters for students
considering a career in business. Semesters
1-4 of the degree introduce the building
blocks of Business Law, with core modules
including: Contract Law; Company Law;
Commercial Law; and Corporate Insolvency.
In Semesters 5-8, you will choose advanced
modules from specialist legal topics, including:
Law of Banking and Finance; Sports Law;
International Law; and Environmental
Law (please note that advanced module
choices are subject to change).
The Law course provides a broad understanding
of a wide range of areas. Semesters 1-3
introduce the subject through core modules,
which include Criminal Law and Family Law.
In Semesters 4-8, you will choose from the
range of specialist legal topics mentioned
above for the BA (Hons) Business Law,
including: Child Law; International Human
Rights Law; and Intellectual Property Law.
CAREER OPPORTUNITIES
Our Law graduates entering into employment
in the past few years currently work as
Business Relations Managers, Trainee
Solicitors, legal counsel, Business Development
Managers and PR Account Executives.
COURSE COMBINATIONS
This course can be combined with:
Accountancy (with Business Law)
(MN24); Business Studies (MN15);
Criminology (MN10); Film and Media
(P3M1); French (RM11); History (MV11);
Human Resource Management (MN16);
Journalism (PSM1); Marketing (MN15);
Politics (ML12); or Spanish (MR14).

FACULTY OF ARTS AND HUMANITIES
LAW: LLB
LLB
The Stirling LLB provides in-depth
knowledge and understanding of legal
principles, theories, institutions and
rules – as well as the wider social and
political context in which law operates.
Available as an undergraduate degree
and as a two-year accelerated graduate
degree, this course will provide a well-
rounded qualification that can be your first
step towards becoming a Scots lawyer or
entering other prestigious professions.
COURSE CONTENT
There are eight semesters in total. Semesters
1-4 cover 10 core modules that introduce the
fundamental areas of law, including: Criminal
Law; Family Law; and Commercial Law.
Honours students will also be able to choose
two non-law modules in Semesters 3 and 4.
From Semester 5 onwards, you will
select advanced modules from a range
of specialist legal topics, including Child
Law; Environmental Law; Sports Law
and Intellectual Property (please note that
advanced module choices are subject
to change).
CAREER OPPORTUNITIES
Graduating with the Stirling LLB will enable
students who want to become Scots lawyers
to apply for entry to the Diploma in Professional
Legal Practice, which is offered by a number
of universities, and is the next stage in
qualifying as a lawyer in Scotland.
Students who want to practise law in England
and Wales will also need an additional period
of study after graduation, and must take the new
Solicitors Qualifying Examination. The LLB is also
recognised as a rigorous degree that develops
important intellectual and personal skills, making
graduates attractive to employers in a wide
range of other professions. Many LLB graduates
choose to pursue careers in banking, insurance,
accounting, management, the civil service
and education.
ACCELERATED DEGREE
Graduate entrants can obtain the LLB after
two years of study concentrating on the
core modules. For more information,
please contact Admissions.
COURSE COMBINATIONS
This course is not available
as a combined degree.

**MARINE BIOLOGY**

**UCAS CODE: C160**

- **MINIMUM REQUIREMENTS**
  - **YEAR 1 ENTRY – FOUR-YEAR HONOURS**
    - **SOA Higher:** ABBB
    - **IB Diploma:** 32
    - **BTEC (Level 3):** 32

  - **YEAR 2 ENTRY – THREE-YEAR HONOURS**
    - **SOA Higher:** AABB
    - **IB Diploma:** 25

- **OTHER QUALIFICATIONS**
  - **Scottish HNC/HND:** Minimum entry: Bs in graded unit. Advanced entry: Please consult website for details. Access courses: See page 117.
  - **Additional information:** General entry requirements apply – see pages 120-121.

- **Career Opportunities**
  - Our students are sought after in relevant areas of employment in both public and private sectors, such as: environmental protection, environmental impact assessment, environmental and conservation fields, pollution control, water companies, tourism, fisheries management, governmental regulatory departments and the fast-growing aquaculture sector.
  - In addition, there is a wide range of more general graduate employment, such as with biotechnological companies, bioinformatics, health sciences sales, the food industry, and marketing, science journalism and teaching.
  - A second degree (MSc or PhD) will often be required for career advancement to more senior research posts and many of our graduates go on to pursue further study at Stirling or other UK and overseas universities.

- **Study at the Leading International Institute in its Field, and the Largest of its Kind in the World**

---

**STIRLING MANAGEMENT SCHOOL**

**BSc (Hons)**

- **Course Content**
  - Semesters 1 and 2 will provide you with a broad grounding in Business and Management, and include: The Global Business Environment; An Introduction and The Management Challenge: An Introduction.
  - Modules are taught alongside students from Business Studies and Human Resource Management.
  - In Semesters 3-7, compulsory core modules provide theory and applications of management. They include: Fundamentals of Management, Operations Management; Leadership and Management; Responsible Business/Ethics; Project Management; and Strategic Management.
  - You will also be encouraged to take electives in Accounting and Finance for Managers; and Economics for Managers.
  - You will have many opportunities to develop appropriate work-related skills at every stage of your studies, including the Professional Development and Practice module in Semester 6 or 8, which helps you prepare for entering the workplace.

- **Career Opportunities**
  - Our Management graduates are in demand for a wide range of roles, including general management, project management, risk analysis and business analysis roles – while others have joined consultancies offering specialist analytical skills.
  - Organisations that have recently recruited our Management students include BMW, Bank of Scotland, NHS, Lloyds Bank, Enterprise Cars, Hilton Hotels, British Airways and Marks and Spencer.

- **This course is not available as a combined degree.**

---

**STIRLING MANAGEMENT SCHOOL**

**BSc (Hons)**

- **Course Content**
  - Semesters 1-4 will cover Biology and Marine Science modules, including: Our Blue Planet; Science of Diving; OurThirsty Planet; and Evolution and Genetics.
  - During Semesters 5-8, Honours students take modules including: Advanced Marine Biology; Aquaculture; Animal Physiology; and Marine Systematics and Taxonomy. Year 3 includes two field-course modules, one of which is residential.
  - Marine Biology is not available as a combined Honours degree, but it shares a common foundation with the degree course in Aquaculture, so you have the option to take a degree in Aquaculture until the end of Semester 5.

- **Career Opportunities**
  - Our students are sought after in relevant areas of employment in both public and private sectors, such as: environmental protection, environmental impact assessment, environmental and conservation fields, pollution control, water companies, tourism, fisheries management, governmental regulatory departments and the fast-growing aquaculture sector.
  - In addition, there is a wide range of more general graduate employment, such as with biotechnological companies, bioinformatics, health sciences sales, the food industry, and marketing, science journalism and teaching.
  - A second degree (MSc or PhD) will often be required for career advancement to more senior research posts and many of our graduates go on to pursue further study at Stirling or other UK and overseas universities.

- **This course is not available as a combined degree.**
Every business has end users or customers and every successful business correctly identifies its customers and strives to deliver what they want in order to keep them. If you combine logical analysis with creative intuition, then Marketing can be the right degree for you.

Marketing is at the centre of what businesses do. It helps organisations work out how they can identify and satisfy customer needs using strategic thinking, business acumen and carefully designed communications.

The teaching options available on this course reflect the specialist expertise of staff who have an active interest in particular topic areas, such as social marketing and consumer, culture and society. This contributes to the current international perspective of the course.

**COURSE CONTENT**

Semesters 1-2 will provide a background in business-related modules, which will be taught alongside other Management students. These modules include The Global Business Environment: An Introduction and The Management Challenge: An Introduction. Semesters 3-4 will further your understanding of marketing, and you will also choose four elective modules.

Year 2 entry is available for suitably qualified candidates who can expect a seamless transition into Semester 3. Semesters 5-8 modules include: Understanding Consumers; Strategic Management; Understanding Supply Chains; along with elective modules drawn from current marketing activities.

You will also undertake a Marketing and Retail Consultancy project designed to engage you with current 'live' business practices.

You will have numerous opportunities to develop appropriate work-related skills at every stage of your studies, including the Professional Development and Practice module in Semester 8, which helps you prepare for entering the workplace.

**CAREER OPPORTUNITIES**

Marketing students acquire a comprehensive range of analytical, problem-solving and professional skills, that are increasingly valued in industry, commerce, education, government and non-profit organisations.

As your acquired skills have applications in most walks of life, a Marketing degree can become your entry to a specialised marketing career or to a more general management career in a wide range of sectors.

**COURSE COMBINATIONS**

This course can be combined with: Accountancy (NN45); Business Studies (NN25); Economics (NL51); Film and Media (PN35); French (NSR1); Human Resource Management (NN65); Law (MN15); Marketing and Sociology (JN35); Psychology (CN85); Spanish (NSR4); or Sports Studies (NC56).

Do you enjoy numbers the way others enjoy music, poetry or art? Mathematical training develops specific skills and broad analytical expertise, which are valued across all professions. There is also a particular demand for graduates who not only have quantitative skills, but also know how to use them.

This course delivers that sought-after combination – through our teaching style, and our focus on real-world applications of both mathematical and statistical techniques. For example, you will use the mathematics computing laboratories as an integral part of your learning process, making your study as much experiential as theoretical.

Our Maths teachers provide a stimulating and supportive learning environment, and we have a strong and active research group. Its primary interest is the application of mathematics to biology, economics and life sciences, and we offer combined Honours degrees in the relevant disciplines.

The BSc Mathematics covers the same areas of mathematics as the BSc Applied Mathematics, but specialises in more areas of pure mathematics in Years 3 and 4.

**CAREER OPPORTUNITIES**

There is a growing need for graduates with mathematical skills in business, research and the sciences. This course provides both the theoretical background and the quantitative skills you need to solve real-world problems.

Our graduates find employment as:

- Actuarial Analysts
- Chartered Accountants
- Data Analysts
- Data Scientists
- Investment Analysts
- Research Scientists
- Secondary School Teachers
- Statisticians
- Systems Developers

**COURSE COMBINATIONS**

This course can be combined with: Accountancy (GM14); Biology (GC11); Computing Science (GB41); Economics (GB13); Environmental Science (GS91); Finance (GN13); French (GR11); Professional Education (GK11); Professional Education/Computing Science (GX91); or Psychology (GC81).
Mathematics is not just about knowledge and numbers. It’s about gaining transferrable skills such as critical thinking, problem solving, analysis of data/information, experimental and project design, as well as communication and teamwork skills, that will make you a desirable candidate to your future employers.

As part of the course you will have the opportunity to use the mathematics computing laboratories as an integral part of your learning process, making your study as much experimental as theoretical.

This course focuses on the foundation of the mathematics and statistics with a strong emphasis on real-world applications. The teaching in class is informed by our internationally recognised research undertaken by academics that are experts in the field of mathematics and statistics.

The BSc Applied Mathematics covers the same areas of mathematics as the BSc Mathematics but specialises in more areas of applied mathematics in Years 3 and 4.

**Course Content**

In Semesters 1-3, you will take Mathematics plus two other subjects. Material covered at secondary level is reviewed and applied before being developed further, ensuring a smooth transition from a school teaching approach to a university one.

You will take core modules in: Calculus of One and Several Variables; Vectors, Matrices, Complex Numbers; and their Application in Geometry and Systems Theory; Statistics and Probability; and Analysis. You can also opt to take additional mathematics modules in Discrete Structures and Practical Statistics.

In Semesters 4-8, the Applied Mathematics Honours course covers a broad range of skills. Advanced modules cover the following key areas: mathematical techniques for solving a wide range of problems; the theory underlying these mathematical techniques; model-building; statistics data analysis; multi-variable methods and statistical inference. This will include projects that allow further development of skills in areas of applied mathematics.

**Career Opportunities**

There is a growing need for graduates with mathematical skills in business, research and the sciences. This course provides both the theoretical background and the quantitative skills you need to solve real-world problems.

Our graduates find employment as:

- Actuarial Analysts
- Chartered Accountants
- Data Analysts
- Data Scientists
- Investment Analysts
- Research Scientists
- Secondary School Teachers
- Statisticians
- Systems Developers

**Course Combinations**

This course can be combined with:

- Accountancy (GN14); Biology (CG11);
- Computing Science (G401); Economics (G611);
- Environmental Science (FG15);
- Finance (GM13); French (GR11);
- Professional Education (GX11);
- Professional Education/Computing Science (G639); or Psychology (CG81).

---

**Modern Languages**

**BA (Hons)**

While English may be an international language, it is far from the only one. With long-established relationships across the globe, French and Spanish are languages spoken all over the world.

This is why we study them from a global perspective at Stirling, exploring wide-ranging perspectives and opportunities on offer to study, live and work in other countries.

In Semester 6, honours students spend a period of residence abroad, studying at a university or business school in France, Spain, Morocco, Switzerland, Quebec or Latin America. Additionally, you will have the option of spending a year abroad as a language assistant between Semesters 4-5 via a British Council-run scheme.

**Combined Degree Only**

**Minimum Requirements**

- **YEAR 1 ENTRY** – **FOUR-YEAR HONOURS**
  - SQA Highers: AABB – one sitting
  - GCE A-levels: AABB – two sittings
  - IB Diploma: 32
  - BTEC (Level 3): DDM

- **YEAR 2 ENTRY** – **THREE-YEAR HONOURS**
  - SQA Adv. Highers: BBB

**Course Content**

We recognise that you may not have studied a language before. That is why we enable you to start your study of French or Spanish from a beginner, as well as from an advanced level.

During Year 2, both streams merge and students study the same areas of French or Spanish, then go on to take one of these languages at Higher or Advanced level (or equivalent).

**Opportunities to Combine Your Study With Living and Working in France, Spain and Beyond**

- **Combined Degree Only**
  - Visit France
  - Spanish language immersion

**Career Opportunities**

Language graduates are confident communicators and highly sought after by employers. The combination of subjects available with either French or Spanish, or in some cases both, allows students to go on to a wide variety of careers in publishing, journalism, television, advertising, translating, law, teaching in French, Spanish or English as a foreign language administration and management.

Graduating students, having studied French and/or Spanish to the highest level, are well placed for jobs in the UK and internationally.

**Course Combinations**

This course can be combined with:

- Modern Languages and Business (NT19); European Languages and Psychology (CRB9); French and Education (Secondary) (RX11); French with Spanish and Education (Secondary) (RXD1); Education (Primary) with specialization in Modern Languages (XR18); International Management Studies with European Languages and Society (NR29); International Management and Intercultural Studies (NL10); International Politics and Languages (RL32).
NURSING (ADULT)  
BSc / BSc (Hons)  

This course provides an innovative and contemporary nursing education that will result in either a three-year BSc or a four-year BSc (Hons) degree, and professional registration as a nurse in the adult field of practice.  

Pre-registration Nursing in the Faculty of Health Sciences and Sport is led by a group of world-leading academics with strong and established research records, expertise in nursing practice and a wealth of world-class publications. Our academic and practice staff are committed to ensuring that our students have the highest quality student experience.  

The aim of the course is to fully prepare you to work in a complex and dynamic health and social care environment – having acquired the knowledge, skills and attributes necessary to practise safely, compassionately, ethically and effectively in a range of contemporary care settings.  

**BSc (Hons)**  
BSc (Hons) Nursing students follow the same course structure as the BSc Nursing for the first two and a half years of their course. After that point, Honours students carry out an additional placement module with the opportunity to study overseas.  

In their final year, Honours students complete additional modules, including a dissertation and their NMC-required final placement, achieving registration and their Honours degree at the end of Year 4.  

**CAREER OPPORTUNITIES**  
This course is the beginning of a career that involves ongoing professional development. Some of our graduates focus on practice, initially consolidating their learning by working, for example, as a staff nurse in a hospital, community setting or care home, while others progress to postgraduate studies. These experiences can develop a career pathway leading to specialised areas, such as palliative care or advanced nurse practitioner roles.  

An Adult Nursing degree from the University of Stirling will prepare you to meet the needs of a modern profession and provide the best possible patient care in a range of settings. You will leave us as a confident and capable practitioner, fully equipped to join a healthcare team.  

97% OF OUR NURSING (ADULT) STUDENTS ARE IN WORK OR FURTHER STUDY WITHIN SIX MONTHS OF GRADUATING  

by studying BSc/BSc (Hons) Nursing (Mental Health) at the University of Stirling, you can make a difference to people’s lives. The BSc is a three-year course, and the BSc (Hons) is a four-year option. Mental health nursing is a rewarding profession that allows you to establish strong therapeutic relationships with clients and provide holistic, compassionate care that respects the intrinsic value of people and their individuality.  

As a mental health nurse, your practice will focus on establishing relationships with service users and carers, to help bring about an understanding of how they might cope with alterations in their mental health and well-being, thus maximising their potential for recovery.  

Our Mental Health Nursing course will prepare you to meet the needs of a modern profession and provide the best possible patient care. You will leave us as a confident and capable practitioner, fully equipped to register with the Nursing and Midwifery Council (NMC) and join a healthcare team upon graduation.  

**CAREER OPPORTUNITIES**  
This course is the beginning of a career that involves ongoing professional development. Some of our graduates focus on consolidating their learning by working in practice, while others progress to postgraduate studies. Career options may include working in acute units, in the community or in specialist areas such as forensic psychiatry, alcohol or substance misuse or psychological therapy.  

A Mental Health Nursing degree from the University of Stirling will prepare you to meet the needs of a modern profession and provide the best possible patient care in a range of settings. You will leave us as a confident and capable practitioner, fully equipped to join a healthcare team.
PHILOSOPHY
BA (Hons)

COURSE CONTENT
In Semesters 1-3, you will take courses in Philosophy and two other subjects. These include the following three core modules on central philosophical problems and issues: "Philosophy: What is it all about?" and "Mind, Value and Reality: an introduction to key metaphysical and ethical issues. What is it to be a person? Are we responsible for what we do? Can we be motivated by anything other than our own self-interest? These and some other topics will be considered and some ethical implications explored.

From Plato to Existentialism is a philosophical examination of the relationship between the individual and society, looking at works by Plato, Hobbes, Mill and Sartre.

In Semesters 5-8, you will take optional modules from a broad list, including: Knowledge and Reality, Environmental Ethics; Philosophy of Language; Philosophy of Biology, Political Philosophy and Aesthetics.

In Year 4, there are opportunities for directed independent study, including dissertation projects and supervised study of a particular topic, theme or book.

CAREER OPPORTUNITIES
Our Philosophy graduates are currently working for a number of leading organisations, including Scottish Enterprise, BAE Systems, Deveaux, Australian Government, UK Government, Justice Publishing and Aegon.

POLITICS
BA (Hons)

COURSE CONTENT
Politics permeates every aspect of people’s lives – shaping their opinions, informing their decisions, guiding their alliances and enabling their understanding of others’ beliefs and motivations at individual, organisational and cultural levels.

Studying this subject will increase your awareness of the different political systems, ideologies and policies that impact people’s lives at national, regional and global level.

Our Politics division is highly regarded, and our students benefit from a strong, research-led approach to teaching.

In addition to being able to participate in a range of University-wide Study Abroad options, our exchange programme with the Politics department at the University of Gothenburg offers you the opportunity to study in Sweden in Semester 6, subject to passing an interview and meeting the grade requirements.

CAREER OPPORTUNITIES
Degree courses in Politics encourage you to develop intellectual, communication and analytical skills, which are invaluable to many employers. These include the ability to: critically evaluate data and information; work independently; develop effective time management skills; organise and solve problems; and communicate clearly, both in writing and speech.

Our graduates have developed these transferable skills, which is why they become successful in commerce and industry, as well as the civil service, journalism, law, teaching and both research and representative politics.

2ND IN SCOTLAND FOR PHILOSOPHY
National Student Survey 2017

stir.ac.uk/4s

3RD IN SCOTLAND FOR POLITICS
National Student Survey 2017

stir.ac.uk/4t

"I think that I am in control of what I do, but why do I do the things I do? Do I do them because of my upbringing, my circumstances, and my biological make-up? But these are things over which I have no control. If they determine what I do, how can I have any control over what I do?"

This is just one example of the kind of questions that philosophers ask. It is possible that you have asked a question like this yourself at some point in your life. Philosophy is the activity of thinking seriously, creatively and carefully about these, and similar, questions. Engaging in this activity is not only fascinating in itself, but also an excellent way to sharpen and improve your mind.

MINIMUM REQUIREMENTS
YEAR 1 ENTRY - FOUR-YEAR HONOURS
SQA Highers: AABB – one sitting
AABB – two sittings
GCE A-levels: BBB

POLITICS (INTERNATIONAL)

BA (Hons)

If you are contemplating a future in the world of politics, you will need to understand issues of power, alliances, conflict and peace, the workings of influential organisations and the processes surrounding international decision-making.

Don’t worry if this sounds daunting; we will help you to build a confident and well-rounded knowledge of all of the above and much more. Our Politics division is highly regarded, and our students benefit from a strong, research-led approach to teaching.

In addition to being able to participate in a range of University-wide Study Abroad options, our exchange programme with the Politics department at the University of Gothenburg offers you the opportunity to study in Sweden in Semester 6, subject to passing an interview and meeting the grade requirements.

COURSE CONTENT

In Semesters 1-3, you will take Politics, plus two other subjects.

Semesters 1-4 will cover five core modules including: The Politics of the British Isles; Introduction to International Politics; and Comparative Politics.

In Semesters 5-8, you will study at least five International Politics modules, including: Global Development; Human Rights in International Politics; and Global Political Economy. In addition, you must complete the Semester 6 module, Research Methods, and the final year International Politics dissertation.

CAREER OPPORTUNITIES

The study of International Politics equips you with intellectual and analytical skills that are attractive to many employers. These include: the ability to critically evaluate data and information; work independently; develop effective time management skills; organise and solve problems; and communicate clearly, both in writing and speech.

Having developed these transferable skills, Stirling Politics graduates work in commerce and industry, as well as the civil service, journalism, law, teaching and within politics in both research and representative capacities.

COURSE COMBINATIONS

This course can be combined with: Languages (French or Spanish) (BL52).

Intermediate Macroeconomics.

Philosophy: Moral Theory; and Economics: Development.

In Semesters 1-3, you will take Politics, plus two other subjects.

Semesters 4-8 will cover core modules including: The Politics of the British Isles; Introduction to International Politics; and Comparative Politics.

In Semesters 5-8, you will study at least five International Politics modules, including: Global Development; Human Rights in International Politics; and Global Political Economy. In addition, you must complete the Semester 6 module, Research Methods, and the final year International Politics dissertation.

CAREER OPPORTUNITIES

Having completed your PPE degree, you will graduate with an in-depth knowledge of political institutions and the policy-making process, the big ideas that have shaped Western societies and how the economy works. You will be skilled in argument evaluation, while enjoying the ability to effectively express your own viewpoints. You will also have developed valuable insight into the cultural, intellectual and moral pressures on decision-makers. This broad-ranging ability and understanding will therefore make sure that you are well-positioned to succeed in the graduate job market, whether you choose to work in the public sector, private companies, voluntary organisations, the financial sector or the media.

COURSE COMBINATIONS

This course can be combined with: Languages (French or Spanish) (BL52).

PROFESSIONAL ACCOUNTANCY

BA (Hons)

COURSE CONTENT
In the first year of the course, you will study a series of core modules to give you a grounding for subsequent stages of more advanced studies. These core modules will be in Financial Accounting, Management Accounting, Finance, Economics, and Business Law. In subsequent years, you will develop a more critical and analytical approach to your studies. You will take modules in Advanced Financial Accounting, Accounting Information and Employment; and Applied Management Accounting, together with modules in Personal Financial Planning, Quantitative Methods; International Finance; and Financial Analysis; plus modules in Auditing and Taxation. Higher-level skills of critical evaluation, analysis, and synthesis are extended in Issues in Accountancy and Critical Analysis of Accountancy and Finance. There will be numerous opportunities to develop your work-related skills at every stage of your studies.

The BA (Hons) degree in Professional Accountancy is a three-year Honours degree. Please note that it is NOT accredited by ICAS (Institute of Chartered Accountants in Scotland). Students wishing to obtain an ICAS accredited degree should register for the BAcc (Hons) Accountancy or the BAcc (Hons) Accountancy and Finance degrees.

CAREER OPPORTUNITIES
Accountancy offers a wide choice of careers with organisations in every field, from healthcare and sport to charities and local and national governments. Careers include financial and management accounting, auditing, taxation, consultancy and financial services.

MINIMUM REQUIREMENTS
Three-year Honours degree designed for students holding advanced qualifications who wish to pursue a career in accountancy. The degree provides significant exemption from the professional examinations of the ACCA, CIMA and CIIPFA.

ADDITIONAL INFORMATION
General entry requirements apply – see pages 120-121.

FOUR-YEAR HONOURS

MINIMUM REQUIREMENTS

UCAS CODE – BA (HONS): C801

UCAS CODE – BSc (Hons): C800

 BA (Hons) / BSc (Hons)

If you are interested in the mind and human behaviour, then Psychology is for you.

In our last accreditation review, the British Psychological Society described us as being ‘at the forefront of the student-led teaching experience in Psychology across the UK’, and commended our staff, who ‘clearly care about the well-being and development of their students, and provide a nurturing learning environment’.

We also received the inaugural Award for Innovation in Psychology Programmes in 2014 from the British Psychological Society for our innovative, student-led teaching initiatives and commitment to integrating employability.

This course will give you the opportunity to be involved in designing and conducting a number of experiments, individually or in groups researching:

- Human electrophysiology (SEGERP)
- Health research (including GSR and heart rate monitoring)
- Face research (including eye-tracking)
- And vision research (including stereoscopic displays)

Our module on The Social Mind explores the psychology of human and non-human communication, and Brain and Behaviour – Clinical Perspectives explores abnormal psychology from the perspectives of Neuroscience and Clinical Psychology.

In Semesters 5-6 you will take modules covering some of the core areas of psychology: social psychology; developmental psychology, evolutionary psychology; clinical and health psychology, individual differences (including personality); and cognitive psychology and neuroscience.

In your final year, as well as an individual research project, you will choose from a variety of electives that are designed to explore topics that interest you and will enable you to build your employability skills. The final-year programme also includes an opportunity to take part in a placement with a local employer.

COURSE CONTENT

The breadth of Psychology provides an excellent foundation for a wide range of careers. Studying Psychology develops skills that are highly valued by employers, such as interpersonal and communication skills, numeracy and computer literacy, presentation skills, time management and critical thinking.

Our graduates have found employment as: Clinical Psychologists; Educational Psychologists; Forensic Psychologists; Further Education Teachers; Health Psychologists; Occupational Psychologists; Primary Care Graduate Mental Health Workers; Psychological Well-being Practitioners; Sport and Exercise Psychologists; Advice Workers; Careers Advisers; Counsellors; Human Resources Officers; Play Therapists.

100% OF PSYCHOLOGY CASE STUDIES RATED ‘WORLD-LEADING’
Research Excellence Framework 2014

CAREER OPPORTUNITIES
The course can be combined with:
- Biology (CC18); Business Studies (CN11); English Studies (QC81); European Languages (CR89); Film and Media (CPE3); Human Resource Management (NC85); Marketing (CN85); Mathematics (EC81); Philosophy (CPE8); Politics (LC82); Sociology (CL83); or Sports Studies (CG8).

COURSE COMBINATIONS

This course can be combined with:
- Biology (CC18); Business Studies (CN11); English Studies (QC81); European Languages (CR89); Film and Media (CPE3); Human Resource Management (NC85); Marketing (CN85); Mathematics (EC81); Philosophy (CPE8); Politics (LC82); Sociology (CL83); or Sports Studies (CG8).

COURSE COMBINATIONS
Religion at Stirling is distinguished in its critical approach. It is critical because it not only explores areas of experience generally described as ‘religion’ or ‘religious’, but also places the category of ‘religion’ itself under the microscope.

We encourage students to subject the problematic term to different forms of analysis – including postcolonial or feminist – in a wide range of contexts, including the historical, colonial and neo-colonial. We engage with it in fields such as literature, the arts, philosophy, anthropology, sociology, politics and international relations.

We expect a lot from our students, since our critical and interdisciplinary approach demands a grasp of many different subjects, methods and discourses. The course content is, therefore, rigorous and intellectually challenging – but it is also deeply rewarding on numerous levels.

**COURSE CONTENT**

Religion is studied as a combined degree, and is taken with two other subjects in Years 1 and 2.

Semesters 1-4 cover four core modules, examining issues such as conflict, colonialism and rationalism, representation and historical methods of studying religion.

In Semesters 5-8, advanced core modules include: Religion and Post Colonialism; Religion and Theory; and Dissertation Preparation. You may also choose advanced option modules, such as: Religion and Literature; Gender and Religion; and Political Islam. In Semester 8, students will write a dissertation of between 10,000 and 12,000 words on a topic chosen in consultation with an individual supervisor.

**CAREER OPPORTUNITIES**

The key transferable skills gained by studying Religion – critical thinking, research, communication, organisation and self-motivation – make our graduates an invaluable resource on whatever career path they choose. In addition, by enhancing their capacity for the critical identification of cultural difference and alternate perspectives, we help develop ‘soft’ skills of reflexivity and empathetic identification that are absolutely vital in any of the wide range of contexts that involve managing or working with people.

Recent graduates have gone on to work in the civil service, social work, hospital and prison management, banking and insurance, music production, commerce, including commercial research, the police, armed services, publishing and the media, as well as the perhaps more traditional career pathways of teaching and academic research.

**MINIMUM REQUIREMENTS**

- **YEAR 1 ENTRY – FOUR-YEAR HONOURS**
  - SQA Highers: ABBB
  - GCE A-levels: ABB
  - IB Diploma: 32
  - BTEC (Level 3): DDM

- **YEAR 2 ENTRY – THREE-YEAR HONOURS**

  - GCE A-levels: ABB
  - IB Diploma: 35

**OTHER QUALIFICATIONS**

- Scottish HNC/HND: Minimum entry: 8s in graded unit. Advanced entry: Please consult website for details.
- Access courses: See page 117.

**ADDITIONAL INFORMATION**

General entry requirements apply – see pages 120-121.

---

**RETAIL MARKETING**

Retailing is a large and diverse industry that contributes significantly to the overall economy, as well as something that we as consumers experience regularly as part of our everyday lives. Understandably, the retail industry attracts a lot of attention from governments, the media and consumer groups.

The sector is a major employer with over 2.9 million people currently working in retailing, equating to 11 percent of the total workforce. The retail sector is constantly met with new challenges: the growth of the internet, new forms of technology and consumer demand. As a result, retailers need new skills to tackle and meet these challenges.

The wide-ranging experience of Stirling’s Institute for Retail Studies (IRS) academics and their links with the retail industry ensure that the retail marketing degree is practical and up-to-date with trends in the retail industry.

This degree course provides a solid foundation in the general principles of industry, management, marketing, human resources and organisations. Students will also develop extensive knowledge and skills in consumer behaviour, marketing, international business, logistics and related subjects.

**MINIMUM REQUIREMENTS**

- **YEAR 1 ENTRY – FOUR-YEAR HONOURS**
  - SQA Highers: ABBB – one sitting
  - GCE A-levels: ABB – two sittings
  - IB Diploma: 32
  - BTEC (Level 3): DDM

- **YEAR 2 ENTRY – THREE-YEAR HONOURS**

**ADDITIONAL INFORMATION**

General entry requirements apply – see pages 120-121.

**CAREER OPPORTUNITIES**

- This course can be used as a combined degree.
SCOTTISH HISTORY

BA (Hons)

Scottish History is dark and dramatic. At Stirling, we bring it to life for you in unique ways not explored at other universities.

For instance, one of our core modules, ‘Reputations in History’, offers a riveting insight into famous Scottish and international, male and female historical characters from the past thousand years of history, including William Wallace and Nelson Mandela.

At advanced level, in your final year, you have a choice of special subjects for a year-long intensive study module (which runs alongside the dissertation) that must be taken by all Scottish History Honours degree students. However, you will be helped along by the enthusiasm, encouragement and, of course, the most recent research from staff members with special interest in your subject.

**COURSE CONTENT**

In Semesters 1-3, students take Scottish History, plus two other subjects. Semesters 4-6 will cover at least five Scottish History modules, including: Scotland in the Age of Wallace and Bruce; The Birth of Modern Europe, 1500-1700 (with Scotland at the centre); and 19th-Century Scotland.

In Semester 4, all Honours Scottish History students must take the module Back to the Future: Putting History and Heritage to Work, an employability module aimed at exploring a wide range of career options through guest speakers and workshops.

Additionally, Single Honours students must take the Semester 6 module on Dissemination Preparation, which takes the fear out of doing your final-year dissertation.

Students will write a supervised dissertation of between 12,000 and 14,000 words on a research topic of their choice.

In Semesters 7-8, Honours students will take a special subject from a choice of five or six options. This module involves using printed documentary collections and other challenging and fascinating source material.

**CAREER OPPORTUNITIES**

A History or Scottish History degree sets intellectual challenges and fosters skills that employers have always recognised and valued. These include the ability to argue a persuasive case, a capacity for independent work and effective time management, an ability to organise and solve problems, and a capacity to communicate clearly, both in writing and speech.

Graduates in Scottish History find opportunities for a wide variety of posts within and outside of Scotland. The module Back to the Future will get students thinking about their future in work.

This course is not available as a combined degree.

SOCIAL WORK

BA (Hons)

Do you want a career that is stimulating, rewarding and makes a positive contribution to society? If so, a degree in Social Work could be for you.

At the University of Stirling, social work education is committed to progressive social change through teaching, research and an active involvement with practice. We believe in a social work profession defined not only by its function but also by its values and integrity. We promote an understanding of social work, which is informed by social justice and human rights; a profession that acknowledges the links between “public issues” and “private troubles” and seeks to address both. We also value practice that has prevention at its heart and recognises the importance of collective approaches, actively engaging with and learning from user movements.

You will be taught by a team of qualified social workers including world leaders in their research field, and academics who maintain close connections with practice. You will enjoy the benefits of smaller class sizes (23-55) with creative approaches to teaching and assessment, as well as detailed feedback on your progress and you will be supported and assessed by accredited Practice Teachers and Educators.

This degree course incorporates the professional qualification you need to practice social work alongside a strong grounding in relevant social science subjects. We will help you qualify as a social worker who is knowledgeable, skilled, analytical and ethical in your approach to working with individuals, families, groups and communities.

Successful completion of this course will mean you are then eligible to be registered by the Scottish Social Services Council as a qualified social worker. Each UK country has its own registration body and this degree is accepted by all of them.

**COURSE CONTENT**

In Semesters 1-3 you will take four social work related modules that introduce you to social work knowledge skills, law and policy – one of which incorporates community-based practice. You will also undertake modules in sociology and social policy in order to enhance your understanding of the wider context for social work, and two other modules of your choice.

Teaching from Semester 4 onwards involves a high level of student participation. You are encouraged to engage with theory and research through the use of case studies and role play, discussions and project group work. You will continue to have a personal tutor who offers advice during university-based semesters and visits you on placement, strengthening the links between theory and practice.

You will have two professional practice learning opportunities in Semesters 5 (75 days) and in the summer period between Semesters 6 and 7 (35 days). These take place in a variety of settings where you will undertake direct work with people who use these services. During practice learning placements you will receive supervision from qualified social workers and other professionals and have your practice assessed by a qualified Practice Teacher.

SOCIOLOGY AND SOCIAL POLICY
BA (Hons)

Do you want to understand and learn how to analyse the way in which society works? Do you want to build and develop your ability to critically engage with the purposes, processes and outcomes of social welfare, both here and abroad?

This course's international and comparative sociological approach covers topics that analyse society and welfare issues in various countries. We have particular expertise covering Scotland, the UK, the EU, Western and Central Europe, Australasia, North America and Latin America. Our course and modules include the latest developments in social research, taught by recognised experts in their chosen fields, who raise real-world issues in a critical, informed and engaging manner.

The first two years of our degree structure are flexible, allowing students to experiment with new subjects. You can apply to spend Semester 6 at another university in Europe, Australia, Canada or the USA.

SOCIOLOGY COURSE COMBINATIONS

Sociology can be combined with:
- Criminology (LM39);
- Film and Media (LP33);
- History (L031);

History and Professional Education (VX1D); Marketing (LN35);

Politics (LL23); Psychology (LC83); Religion (LV36); Spanish (LR34); or Sports Studies (CL63).

SOCIAL POLICY COURSE COMBINATIONS

Social Policy can be combined with:

- Politics (LL24).

1ST IN SCOTLAND AND TOP 10 IN THE UK FOR SOCIAL POLICY

The Guardian University Guide 2018

COURSE CONTENT

In your first two years you will take three subjects each semester. Modules include:

- Aging, Society and Social Policy; Contemporary Social Issues in Practice; Co-operation and Society; Disability and Society; Drugs, Crime and Society; Gender, Work and Welfare; Health and Society; Housing Policy; Poverty, Income and Wealth; Race and Ethnicity Social Stratification; Social Network Analysis; Sociology of Childhood; Sociology of Development; Sociology of Youth; Urban Society; Work, Class and Society.

The key benefits are that you can change the emphasis of your degree as you progress, change from full-time to part-time if you need to, change your degree subject(s) and you don’t need to decide what your final degree subject(s) will be until midway through your second year.

In Years 2 and 4, you will specialise in your chosen area. You will choose from a list of optional modules and have the opportunity to develop practical research skills through two intensive core courses on qualitative and quantitative research skills.

You will also have the opportunity to undertake your own research dissertation, which will provide you with highly valuable transferable skills. Examples of recent dissertation topics include: Sexitarianism in Scottish Society, Understanding Ringle Drinking, the Criminalisation of Muslims in Britain, Body Image, Obesity, Anti-social Behaviour Orders, Young Female Bullying and Violence, and the Impact of Adoption on Personal Identity.

CAREER OPPORTUNITIES

Our graduates work in the private, public and voluntary sectors. There are some careers where a sociology degree is a requirement, for example working as a sociological researcher or a lecturer or teacher of sociology. However, there are many more opportunities where the knowledge and understanding students acquire in studying sociology is highly valued, for example work in local government, for the police or prison service, social work in the voluntary sector or in human resources.

SOFTWARE ENGINEERING

BSc (Hons)

Fascinated by technology and software, and keen to work with colleagues in the creative process? Teamwork is the secret of the software engineering industry, because the complex systems that software engineers design and build are often too large for a single person to develop alone.

On this course, you will learn how to reason logically, analyse problems and resolve them by building effective computer systems. You will study techniques for real-world software design and associated programming technologies, ensuring that you are well-prepared for a career involving large-scale software development.

We help our students build strong links with industry through three-month summer placements and one-year placements. Placement opportunities exist with local SMEs, as well as large corporates. Students also have the opportunity to engage with an international teaching environment through our exchange programmes.

Graduates are fully accredited by the British Computer Society (BCS) for the educational requirements of being a Charted Information Technology Professional (CityP), which is the Society’s professional membership level.

CAREER OPPORTUNITIES

You will have knowledge of Software Engineering as a coherent discipline, together with a wide range of analytical skills. Our industrial placements will ease your transition into the job market. You will be well equipped to enter the software industry itself, or any of the fields in which computer systems are extensively used. Recent destinations for our graduates include: Agilent (Hewlett Packard Ltd), British Telecom, Google, HSBC, Microsoft and Scottish Power.

Our graduates have found employment as:

- IT Management Consultants
- Information Systems Managers
- Software Developers and Testers
- Systems Developers
- Systems Administrators
- Web Developers
- Cybersecurity Consultants
- Database Administrators
- Games Developers
- Multimedia Programmers

This course is not available as a combined degree.
SPANISH AND LATIN AMERICAN STUDIES
BA (Hons)

This course offers Spanish for all – from complete beginners to advanced speakers. By the end of the course, you will be able to read, write and speak Spanish at an advanced level appropriate for the demands of today’s job market. Students also have the chance to acquire a critical awareness of the societies and cultures of Spain and Latin American countries, and critical skills that aid in the study of other subjects, as well as the development of careers. You will be taught by experts in the language, culture, history, politics and anthropology of these exciting and diverse nations.

COURSE CONTENT
In Semesters 1-4, you will take Spanish at either beginner or advanced level, plus two modules in other subjects, allowing you to develop your interests and practise your critical skills. The advanced course comprises tuition in written and spoken Spanish, plus an introduction to modern Spanish and Latin American cultures. Beginners focus exclusively in the first two semesters on developing their Spanish with a dedicated language course. During Semesters 3-4, beginners and advanced language students will continue to learn the language, while also studying Spanish and Latin American cultures. In Semesters 5-8, you will continue the study of language in written and spoken form, and choose from a variety of optional modules. Choices include: Andean Culture, History and Politics in Argentine Culture; National Identities in the Basque Country and Catalonia; and Sexuality and Gender in Latin American Film. For many of our Spanish degrees, there is a compulsory period of Study Abroad for a semester in a Spanish-speaking country. In your final study year, you may write a dissertation on your chosen subject in place of a taught module. If you are taking a Single Honours degree in Spanish and Latin American Studies, writing a dissertation is mandatory.

CAREER OPPORTUNITIES
Language skills are highly sought after by employers and open up a wide range of careers. Graduates have secured jobs in teaching, both in Spanish and English, translating and interpreting, finance, the civil service, industry and commerce, marketing, administration, charity work, publishing and public relations.

COURSE COMBINATIONS
This course can be combined with: Accounting (MR44); Business Studies (MR24); Computing Science (GR44); English Studies (KR34); Film and Media (RP43); French (MR14); French, Spanish and Professional Education (Secondary) (RXD1); History (RV41); Human Resource Management (MR64); Journalism Studies (PK64); Law (MR14); Marketing (MR54); Professional Education (Primary) with Modern Languages (XR18); or Sociology (LR34).
You may also study Spanish as a pathway on the following programmes: Psychology with a European Language (CR83); International Management Studies with European Languages and Society (NR29); Modern Languages and Business Studies (NT19); International Politics and Languages (RL52).

BSc (Hons)

How do our bodies respond to acute exercise and adapt to training? What influences our participation in physical activity and the ability to benefit from it? How can physical activity affect our health and well-being?

SCOTLAND’S UNIVERSITY FOR SPORTING EXCELLENCE

This course is not available as a combined degree.

COURSE CONTENT
Teaching is delivered in 8 semesters, with an extensive research project conducted in the final year.
In Year 1, you will gain a strong grounding in biological science and an introduction to the study of sport and exercise, with further outline modules in Cell biology, Physiology and Sports Studies. Both field and laboratory skills will also be introduced that year.
Year 2 considers issues and concepts of studies and the psychology of sport, examining the relationship between stress and sport performance. You will also further develop your knowledge and skills in biological science, and sport and exercise sciences. You will study subjects such as Human Anatomy and Physiology, Genetics and Evolution, and Statistical Techniques.
Further advanced level modules are delivered in Year 3, studying areas such as Physiology of Sport and Exercise, which considers adaptations to exercise training and the challenges of environmental extremes. Animal Cell Biology looks at the basic components of animal cells, their functions and how these functions are regulated in health and disease. Understanding exercise and diet in developing a healthy lifestyle is also explored during Year 3, and considers medical issues that affect physical activity. Applied Exercise Physiology is studied in the laboratory, and Psychology of Exercise considers the factors that influence a person’s decision to exercise. Semester 7 covers Proteomics and Molecular Techniques, and also helps you to discover the techniques and methodological assumptions underpinning sport and exercise science research – before undertaking a dissertation in the final semester.

CAREER OPPORTUNITIES
Careers in the sport sector account for around three percent of all jobs in Scotland. Our graduates progress to postgraduate study and research, various roles in the sport and leisure sectors, sports science support of athletes, health and fitness monitoring, physical activity promotion and coaching – as well as into the teaching profession, physiotherapy and commissioned officers in the Armed Forces.

nationalstudent survey 2017

IN SCOTLAND AND JOINT 4TH IN THE UK FOR IBERIAN STUDIES

THE UNIVERSITY OF STIRLING IS SCOTLAND’S UNIVERSITY FOR SPORTING EXCELLENCE

stir.ac.uk/52

stir.ac.uk/53
The Sport Business Management course is designed to meet the modern sport industry’s requirement for technically competent, customer-oriented, innovative and commercially-minded practitioners who have the flexibility and capability to apply their knowledge across the domestic and international sports markets.

This involves integrating core business management skills with an understanding of strategies, policies and practices in sport business – including knowledge of key contemporary issues such as marketing and branding, sponsorship and finance, sport event management, globalisation, regulation, corporate social responsibility and sport’s role in consumer culture.

By taking part in this course, you will experience an industry-focused curriculum delivered with the support of ‘real-life’ contexts and realistic sport-based working environments; an integrated learning experience facilitated through staff teams employing a variety of delivery modes; opportunities to enhance and develop a range of relevant personal skills including problem-solving, decision-making and reflection; and a consultancy project where you will work with a sport business company to help solve a real-world business challenge.

**COURSE CONTENT**

There are three key components to the Sport Business Management course: Sport Management and Technical Expertise; Business Enterprise; and Market Awareness. Each of these components is represented throughout the course, creating a unique balance between generic business study elements and the more industry-focused Sport Management, Sport Business and Sport and Society-based modules.

Year 1-2 are designed to provide you with a broad grounding in the subjects of business, management and sports studies, with a global perspective. You will study two core modules per semester, leaving the flexibility to choose from a range of options from Stirling Management School and the wider University.

Year 3-4 provide you with theory and applications of sport business management including: Marketing, Managing the Consumer Experience; Policy, Governance; Events Management; Project Management; and Financial Business Modelling. In the final year, there is the option to work on a sport business-focused individual project or work as a group and engage with an industry organisation on a consultancy project.

You will have numerous opportunities to develop appropriate work-related skills at every stage of your studies, including the Professional Development and Practice module in Year 4, which helps you prepare for entering the workplace.

**CAREER OPPORTUNITIES**

Upon graduating, you will be able to apply sound analytical techniques that underpin scientific principles and management skills specific to the challenges faced by the sport industry. There are many opportunities across a range of sport business organisations, including sport venue management, project management of sporting events, or management of a sport retail business.

**ADDITIONAL INFORMATION**

General entry requirements apply – see pages 120-121.
SUSTAINABLE EVENTS MANAGEMENT

BA (Hons)

Events range in scope, scale and complexity – from mega-events and community festivals to traditional gatherings and on-trend corporate events – boosting the economy, energising communities and attracting visitors. They cover a diverse array of activities, from sport, music and culture, to product launches and fundraising.

Sustainability has emerged as a key events management concept, and a successful events manager must have abilities in a wide range of subject areas. The Sustainable Events Management course crosses the boundaries between marketing, human resources, finance, planning and other business skills to develop multi-disciplined, creative leaders able to deliver the largest event down to the smallest detail.

The focus on events as a management form represents a dynamic approach relevant to the business and government objectives. This produces graduates well-versed in business and government objectives. This course produces graduates well-versed in management, with explicit business skills and knowledge and the ability to apply this to the current demands of the events industry.

Spent a semester abroad in Singapore – Asia’s Greenest City

Acrois Sustainable Cities Index 2018

TEACHING QUALIFICATION IN FURTHER EDUCATION (TQFE)

In-service BA

Where can I gain practical and hands-on experience that allows me to enhance my teaching experience and ensure that all learners feel valued, safe and included?

The TQFE is a recognised teaching qualification for those who are currently employed as lecturers in Further Education (and other settings) and provides further opportunities for professional and academic progression. The University of Stirling is one of the three Scottish universities endorsed by the Scottish Government to offer the TQFE course.

At Stirling, we place significant emphasis and value on the knowledge and skills that the students bring to the course and base much of our teaching on the critical reflection of student practice.

The TQFE course is delivered by staff who are both research-active and have teaching expertise in the further education sector, which ensures the practical focus is complemented by a strong research base.

COURSE CONTENT

MINIMUM REQUIREMENTS

University Diploma

Relevant Higher National Certificate (HNC) at Level 7 on the Scottish Credit Qualification Framework (SCQF) or equivalent. This pathway is for students where an HNC is the highest qualification available in the UK in that subject area.

BA Degree

Relevant Higher National Diploma (HND) at Level 8 on the Scottish Credit Qualification Framework (SCQF) or equivalent. Equivalent Qualifications which may be recognised include:

• A Part II, full technological certificate
• City and Guilds ‘Professional Recognition Award’ – Affiliation Level
• Senior Award from the City and Guilds of London Institute

Other equivalent qualifications may be accepted where applicants provide appropriate evidence of equivalence.

Candidates for both qualifications must also have both literacy and numeracy skills that meet the demands of the course:

• A National Qualification Course award in English at level 5 on the SCQF (or suitable evidence of being able to attain this standard) or SQA Communication Level III
• A National Qualification Course award in numeracy or Mathematics at level 4 on the SCQF (or suitable evidence of being able to attain this standard).

Candidates should have Information and Communication Technology (ICT) skills equivalent to Intermediate 2 (i.e. level 5 on the SCQF).
TEACHING QUALIFICATION IN FURTHER EDUCATION (TQFE)

Pre-service BA

T

MINIMUM REQUIREMENTS

University Diploma
Students must have a relevant Higher National Certificate (HNC) at Level 7 on the Scottish Credit Qualification Framework (SCQF) or equivalent. This pathway is for students where an HNC is the highest qualification available in the UK in that subject area.

BA Degree
Students must have a relevant Higher National Diploma (HND) at Level 8 on the Scottish Credit Qualification Framework (SCQF) or equivalent. Equivalents qualifications that may be recognised include:

• Senior Award from the City and Guilds ‘Professional Recognition Award’ (Affiliateship Level)
• Other qualifications that are of equivalent standard to an HND or HNC may be considered.

Candidates for both qualifications must also have both literacy and numeracy skills. The normal entry requirements are:

• A National Qualification Course award in English at level 6 on the SCQF (or suitable evidence of being able to attain this standard) or SQA communication level I

• A National Qualification Course award in numeracy or Mathematics at level 4 on the SCQF (or suitable evidence of being able to attain this standard).

Candidates should have Information and Communication Technology (ICT) skills equivalent to Intermediate 2 (i.e. level 5 on the SCQF).

Where can I gain practical, hands-on experience that allows me to qualify to teach in a Further Education college and best support effective learning?

This course will strengthen your knowledge of key vocational education issues and enhance your capacity to develop as a lecturer in further education. In particular, you will develop an ability to work collaboratively with a wide range of colleagues, explore issues relating to professional practice from a range of perspectives and contribute to the development of others.

The TQFE course is tailored specifically for individuals who aspire to a career in the further education sector and the University of Stirling is the only provider in the UK in that subject area.

Delivered by staff who are both research-active and have teaching expertise in the further education sector, the TQFE award offers a research-informed and practice-focused course, thus providing a high quality learning experience with the notion of professional enquiry at its heart. Through the research and scholarship activities undertaken by staff on the course, the research knowledge base is continuously reviewed, updated and enhanced and this further informs practice.

The course was commended by the General Teaching Council Scotland (GTCS) on behalf of the Scottish Government for the quality of its teaching and learning. In addition, the course is guided and informed by a Programme Advisory Group made up of colleagues from further education colleges.

This course is not available as a combined degree.

JOINT TEACHING COURSES WITH HERIOT-WATT

We have teamed up with Heriot-Watt University to introduce four undergraduate teaching courses:

• BSc (Hons) Education (Primary) with Primary Science
• BSc (Hons) Professional Education (Secondary) with Engineering and Mathematics
• BSc (Hons) Professional Education (Secondary) and Chemistry
• BSc (Hons) Professional Education (Secondary) and Physics

These new courses benefit from the combination of Stirling’s leading expertise in education studies and Heriot-Watt’s world-renowned STEM subject knowledge.

There are numerous advantages to studying on these courses:

• Teachers from local schools will share their own, hands-on experience
• You’ll gain specialist knowledge in a particular field of education
• Your work placements are in different schools with a variety of age groups

These are two fantastic university experiences that will boost your employability in this high demand sector.

Please refer to pages 68-69 for minimum entry requirements and stir.ac.uk/1hn for more course information.

COURSE CONTENT

The course is taught using a combination of lectures and seminars, both online and on campus. All the teaching materials are available online. As a pre-service student, you will undertake an unpaid college placement activity, which involves two to three days per week of teaching practice in a college, plus additional inputs on campus. The placement, supported by tutor visits and college mentors, provides you with the opportunity to develop and enhance your teaching practice in the further education environment. Course assignments are designed in such a way that you will be encouraged to explore links between professional practice and current research ideas and concepts. In addition, two teaching observations will be carried out, in the main, by core staff on the TQFE course.

The course is taken across one academic year and comprises five modules at SCQF Level 9 worth 120 credit points.

CAREER OPPORTUNITIES

As the recognised teaching qualification for individuals who are employed in Scottish Further Education, the TQFE provides you with a highly relevant and marketable qualification. Students achieving the BA award may progress to the MSc in Professional Education and Leadership.

stir.ac.uk/1hn

This course is not available as a combined degree.
ARE YOU READY FOR UNI?

1. Attend our open day June, Sept or Oct
2. Choose your course
3. Complete your application 15 Jan 2019
4. Check your inbox for our offer
5. Attend an applicant event April
6. Accept your offer
7. Make your funding arrangements
8. Apply for your accommodation from April
9. Study study study - exams
10. You are Stirling!

Please see page 116 for full application details.
If you’re applying for a full-time undergraduate course, use the UCAS online application system. UCAS starts receiving applications for entry in Autumn 2019 on 1 September 2018. You can apply for up to five different courses on your application – there’s no ranking of your choices, and universities don’t see your other choices. You can track your applications online and see any offers as soon as they’re made.

UK and EU applicants need to apply by 15 January 2019. All universities will consider applications received on time or before this date on an equal basis. Apply as early as you can – don’t leave it until the last day!

**INTERNATIONAL STUDENTS**

International applicants have until 30 June 2019 to apply. Our overseas agents can help with your application. Visit our country-specific information pages for details:
stir.ac.uk/2x

**UCAS APPLICATION FEE**

You’ll need to pay an application fee to UCAS based on the number of courses you apply for. If you only apply for one course, it costs £18. If you apply for two or more courses, there’s a one-off fee of £24.

**DEFERRED ENTRY**

You should make deferred applications through UCAS by the 2019 deadline for entry in September 2020.

**PART-TIME UNDERGRADUATE**

Applications for part-time courses should be made directly to us. Please contact Admissions to do this.
admissions@stir.ac.uk
+44 (0) 1786 467044

**MATURE STUDENTS**

We have an active mature student community, and welcome applications from mature students from all backgrounds. We can support you through the application process too.

Our access courses have been specially designed to offer tailored support to mature students with no qualifications, who want to access a degree course. We offer a part-time evening access programme based on campus that’s run by our lecturers. If you complete this successfully with the required grades, you’ll be guaranteed a place on a Stirling degree course.
stir.ac.uk/g4

**SCOTTISH WIDER ACCESS PROGRAMME**

We’re a member of the Scottish Wider Access Programme (SWAP), offering dedicated access courses for mature students at local Further Education colleges. We warmly welcome SWAP students who complete their course with the required grades to all of our degree courses.

For more information, visit the SWAP website: scottishwideraccess.org

If you already have some qualifications, contact our Mature Student Advisers – your qualifications may be enough to get you a place on a course.
realiseyourpotential@stir.ac.uk
+44 (0)1786 467046

**COLLEGE STUDENTS**

We have a strong tradition of students progressing from college to our courses. We also offer a range of advanced entry options – which means if you’ve completed an HNC or HND at college, you could apply for advanced entry by simply changing the year of entry on your UCAS form. Not all of our courses have advanced entry, so check our website first, if in doubt, get in touch with our College Advisers.
realiseyourpotential@stir.ac.uk
stir.ac.uk/1ir
+44 (0)1786 467046

**INTO**

Our partners at INTO University of Stirling offer a number of different preparatory options for international undergraduate students who do not meet our direct entry requirements.

See pages 48-49 for more information.

**PRE-SESSIONAL ENGLISH**

For students who meet the academic requirements to study on a University of Stirling degree, but do not have an adequate IELTS score to meet our English Language requirements, the University offers a range of Pre-sessional English courses. The courses range from 3 to 12 weeks, and are designed to improve your IELTS score by up to 1.0 in one or more skills.
stir.ac.uk/18q
We offer extra support to applicants throughout the application process. This includes support when you arrive to make the transition to University easier.

COLLEGE AND MATURE STUDENTS
Our dedicated team offers support through the entry process, including:
- Subject-specific visits for college students, giving you the chance to see our campus and meet our staff.
- Support modules in Semester 1, tailored to the needs of your degree.
- General orientation sessions including: timetabling; using the library; and the Students’ Union.

realiseyourpotential@stir.ac.uk

CARE-EXPERIENCED AND LOOKED AFTER YOUNG PEOPLE AND YOUNG CARERS
Our team of advisers offer one-to-one, confidential pre-application and transitional support, which can include:
- Help to choose a course and/or find the right route into University.
- How to fill in your UCAS form.
- Support at our Open Days and Applicant Days to make sure you get the most out of the experience.
- Bespoke visit to the campus for you and a friend, support worker or parent/guardian, to find out more about courses.
- Tailored support throughout induction and your first weeks at the University.

cli@stir.ac.uk
GENERAL ENTRY REQUIREMENTS

To study at Stirling, every student needs to meet our general requirements. Each course also has specific entry requirements.

GENERAL REQUIREMENTS
These are the minimum requirements for entry to the University. You should also check the subject-specific pages for any other grade and subject requirements.
Applicants must have one of the following:
• A minimum of four passes at SQA Higher Grade or three A-levels or equivalent
• An acceptable pass in entry subjects
• An approved pass in a recognised Access Course or equivalent.

School leavers’ qualifications from the European Union (EU), a degree from a university in the United Kingdom or EU, plus many other international school qualifications, also satisfy the general entrance requirements.
For country-specific information and to check the grades you need, visit: stir.ac.uk/2x

SUBJECTS APPROVED FOR ENTRY
All graded SQA, GCE and GCSE examination subjects are acceptable for entry. Passes in two subjects with a high amount of material in common may not be counted separately (e.g. Biology and Human Biology). If your subjects ‘overlap’ like this, ask our Admissions team for advice.

admissions@stir.ac.uk
+44 (0) 1786 467044

ENGLISH LANGUAGE
If English is not your first language, you need to demonstrate a suitable level of English language. We accept IELTS, TOEFL, the SQA ESOL qualification and many others. See page 117 for our Pre-sessional English courses.

OFFER MAKING
At Stirling we value ability, not background, and pride ourselves on providing students with every opportunity to succeed. When reviewing and evaluating your application, a number of factors are taken into consideration in addition to academic potential, including contextual information. For full details on our Admissions Policy please visit: stir.ac.uk/1le

VARIATIONS TO PUBLISHED GRADE REQUIREMENTS
The required grades are listed on the individual subject pages for guidance only. Check online for the latest minimum grades needed before you apply. If you are re-sitting or upgrading some subjects, you may be asked for a higher grade.

English
If English is not your first language, you need to demonstrate a suitable level of English language. We accept IELTS, TOEFL, the SQA ESOL qualification and many others.

See page 117 for our Pre-sessional English courses.

At time of publication, the majority of course requirements are:
• IELTS: 6.0 (minimum of 5.5 in each category)
• TOEFL: 80 (minimum of 17 in each subtest)

stir.ac.uk/3f

ENTRANCE WITH UK QUALIFICATIONS
SCOTTISH QUALIFICATIONS
We make offers based on your Higher and Advanced Higher grades. Grade C or above in an Advanced Higher counts as an upgrade to the original Higher grade achieved. If you have an Advanced Higher only (without the relevant Higher), you’ll be asked for grade B in the Advanced Higher. We accept Highers taken over two sittings, although you may be asked for a higher grade if you have repeated or upgraded examinations.

ADVANCED ENTRY
Some of our courses offer Advanced Entry routes that enable students to gain exemption from Year 1 of study and go directly into Year 2. Advanced Entry is not available on all courses, and entry requirements may vary. For more information, please have a look at the relevant course page or contact our Admissions team.

STIRLING UNIVERSITY
stir.ac.uk

A-LEVELS/VCE
We make offers based on your A-level grades. If you are re-sitting or upgrading some A-levels, we may increase our normal grade requirements.

BTEC
We consider BTEC Level 3 Extended Diplomas. Successful applicants will typically require a grade of DDM in their final Diploma.

COMBINED QUALIFICATIONS
We accept a wide range of qualifications from all over the world. If you are sitting a combination of different qualifications, you will be made an offer based on these (e.g. A-level and BTEC combinations).

COLLEGE STUDENTS
We will consider applications from a range of college courses, including Access, HNC and HND. For more information, go to pages 117-118.

AWARD OF CREDIT FOR EXISTING QUALIFICATIONS
We award credit on admission for certain qualifications gained before coming to Stirling. That means you may be able to shorten the length of time you need to spend at University to get your degree. We’ll award credit automatically on application if your qualifications are suitable.
If you want to request credit for any other professional qualifications, contact our Admissions team before entry. We can’t award credit retrospectively once you’ve started your course.
admissions@stir.ac.uk
+44 (0) 1786 467044

TERMS AND CONDITIONS
Any student who is offered a place will be subject to the University of Stirling’s Terms and Conditions.
stir.ac.uk/1a8

*Excludes BSc Nursing courses and forth Valley College programmes.
FEES

Fees vary depending on your permanent place of residence. So does the funding you may be eligible to receive.

Tuition fees for full-time BA/BSc/BAcc (Hons) courses (excluding Nursing)

Scottish students
You won’t have to pay tuition fees. The Scottish Government pays these on your behalf through the Student Awards Agency for Scotland (SAAS). You must apply for this funding every year.

Part-time students in Scotland
You will be required to pay tuition fees; however, fee waivers and support from SAAS may be available depending on your circumstances.

UK students (excluding Scotland)
Students from England, Northern Ireland and Wales will pay £9,250pa for the first three years of their undergraduate degree. A tuition fee loan is available to pay for these costs. Applications are made through your relevant funding body.

Students who successfully progress to their fourth, and final year, valued at £9,250.

Scholarship, covering the full cost of the fourth year will be awarded an Honours Scholarship, covering the full cost of the fourth year.

Students from England, Northern Ireland and Wales will pay £9,250pa for the first three years of their undergraduate degree.

International students (living outside the EU)
The annual tuition fee for new students entering in academic year 2019-2020 is £12,450 for classroom-based courses, and £14,820 for laboratory-based courses.

Visit the course pages for current fees:

stir.ac.uk/1h1

Tuition fees for nursing students
Scottish nursing students
SAAS pays tuition fees for all Scottish students on pre-registration courses.

There’s also a non-means tested bursary – please refer to our website for details.

EU nursing students
Funding provision is subject to change pending the timing and terms of the UK’s anticipated exit from the European Union. Please check our online course pages for the latest information about fees.

International/UK nursing students (excluding Scotland)
Fees will be payable for this course and will vary depending on your normal place of residence. Please check the course web pages for fees.

ADDITIONAL SOURCES OF FUNDING

Different trusts and bodies provide additional funding for students. These additional sources of funding include:

Carnegie Trust
carnegie-trust.org

Association of Charitable Foundations
acf.org

Stirlingshire Educational Trust
stirlingeducationaltrust.org.uk

University Scholarship Finder
This easy-to-use facility lets you search for available scholarships and bursaries.

stir.ac.uk/scholarships

Student Support Services
If you run into financial problems, we can help. We offer a range of services, including trained Student Money Advisers and access to discretionary and childcare funds.

stir.ac.uk/5v

CHOICE SCHOLARSHIP UK STUDENTS (EXCLUDING SCOTLAND)
All 2019 applicants from England, Northern Ireland or Wales, who make the University of Stirling their Firm choice on UCAS, and who meet the conditions of their offer, will receive a generous travel scholarship of £1,000 paid in Year 1.

In addition, these students are offered a guaranteed place in University-managed accommodation during their first year.

This Choice Scholarship, combined with the Honours Year Scholarship, results in more than £10,000 of support from Stirling.

For further information, visit:

stir.ac.uk/1h0

SPORTS BURSARIES UK STUDENTS (EXCLUDING SCOTLAND)
24 Sports Bursaries are on offer to students from England, Wales and Northern Ireland, or from outside the EU. These bursaries are available for athletes who participate in curling, football, golf, swimming, tennis and triathlon. Other sporting disciplines will be considered on a case-by-case basis.

Sports Bursaries are payable in addition to Choice and Honours Scholarships, but may not normally be combined with any other University scholarship.

For further information, visit:

stir.ac.uk/1bq

The cost of living in Stirling is more than 40 percent lower than London. The breakdown below shows you the potential costs of living away from home – but remember, the amount you actually spend will depend on your lifestyle.

Scottish/UK students
As well as financial support towards your tuition fees, you can typically apply to your relevant funding body for help with living costs. This usually takes the form of student loans, grants or bursaries, and the amount awarded depends upon your personal circumstances and household income.

EU/International students
Typically, you won’t be able to claim support for living costs through SAAS or other UK public funds. Contact the relevant authority in your own country to find out more.
GETTING HERE

BY AIR TO EDINBURGH/Glasgow airports:
- BELFAST: 1hr 55mins
- BIRMINGHAM: 1hr 10mins
- CARDIFF: 1hr 30mins
- DUNDEE: 1hr
- EDINBURGH: 55mins
- GLASGOW: 35mins

- NEWCASTLE: 2hrs 30mins
- NORWICH: 8hrs 30mins

GETTING AROUND THE CITY

TRAVELLING BY CAR

Students in Years 2-4 can park on campus. You can either buy a parking permit or use the pay and display.

TRAVELLING BY BUS

There are Uni Link bus services between the University and city centre that run every 10 minutes during semester time. National bus operators also offer frequent services that run to Edinburgh, Glasgow and Aberdeen.

JUMP ON A TRAIN

Trains depart from Bridge of Allan or Stirling stations for destinations across the UK. On average, there’s a train to Glasgow or Edinburgh every 30 minutes – more at peak times.

TRAVELLING FURTHER

Scotland’s two main international airports are less than an hour away by car. You can reach either airport by public transport, too.

There’s also a direct transfer service provided by Stirling Direct, the University’s airport pick-up service.

PROSPECTUS PRODUCTION

This prospectus is printed on Edixion. This paper is environmentally friendly having come from sustainable forests.
Do you want to learn more about the University of Stirling? We’d love to show you around.

By attending one of our Open Days, you’ll be able to explore our beautiful campus, check out our diverse range of courses and get a taste of what life as a Stirling student is really like.

All prospective students, parents, guardians, teachers and careers advisers are welcome!

WHAT IS OPEN DAY?
Open Days help guide you through the application process, enable you to explore our world-class accommodation and tell you all about our extensive support services. You’ll also be able to sit in on subject-specific presentations, meet our academic staff and enjoy useful discussions about student finance, accommodation and exciting Study Abroad opportunities.

HOW TO MAKE THE MOST OF OPEN DAY
To help you prepare for your visit, here are seven tips that will help you make the most of your day at Stirling:

1. PREPARE
Jot down five key questions that you want to ask us.

2. GO TO COURSE TALKS
Attend a subject presentation and visit the academic showroom.

3. TAKE A TOUR
Join the campus, accommodation and sports tours.

4. THINK GLOBAL
Learn about Study Abroad options from a choice of more than 30 countries.

5. CLUE UP ON CLUBS
Get information on our 120+ student clubs and societies.

6. MIX N’MATCH
Ask about our combined degrees.

7. GET FLEXIBLE
Not sure what to study? Don’t worry! You can still switch your course up until Year 2 – ask us for info.

JOIN OUR COMMUNITY

MAKE A DATE WITH US

“Stirling seems very nice – it’s big and spacious and it’s been really easy to talk to everyone. It’s great to listen to students who have been here and find out about their experiences.”
Dawn, (England)
Open Day attendee 2017

“I’m attracted to Stirling because of the sporting facilities – it’s top in Scotland for Sport. I’m hoping to get into the Sport Studies programme and play water polo. A combined degree really interests me.”
James, (Northern Ireland)
Open Day attendee 2017

HOW DO I REGISTER?
Open Days at the University of Stirling are open to everyone, but we do ask that you register in advance. Our 2018 Open Days are scheduled to take place on:

9 SATURDAY 9 JUNE
15 SATURDAY 15 SEPTEMBER
27 SATURDAY 27 OCTOBER

You can find the full programmes online nearer the time but you can register to attend now:
stir.ac.uk/5f

If you’re planning to come to the University from overseas, you can also meet our staff at events in your country:
stir.ac.uk/1ab

CAN’T ATTEND OPEN DAY?
No problem. If you’re unable to make one of our Open Days or wish to visit us at another time, there are plenty of other visiting opportunities.
stir.ac.uk/1aa
