

## TRAFFIC AND PARKING REGULATIONS – 2019/2020

The following document comprises the University of Stirling's Traffic & Parking Regulations and sets out the rules for all individuals bringing a vehicle onto the University's Stirling campus and the conditions under which Permits are granted. These rules are referred to as the Regulations in this document and may be amended from time to time. This version of the Regulations comes into force on 1 September 2019 until 31 August 2020 and will be reviewed regularly and updated as required. The Regulations are in force on Campus 24 hours per day, 365 days a year.

**Please note: Permits provide a holder's entitlement to gain vehicular access to the Campus BUT DOES NOT PROVIDE GUARANTEED ACCESS TO A PARKING SPACE AT ANY GIVEN TIME.**

### 1.0 GENERAL

- 1.1 All roads within the Campus connect with the public highway and come under the Road Traffic Acts and Police may be called by the University to deal with any serious breaches of the Acts.
- 1.2 The maximum speed limit for vehicles within the Campus is 20 miles per hour except within those areas as otherwise indicated. Vehicles must at all times be driven in accordance with the Highway Code and with due care and consideration for all pedestrians, wildlife, vehicular traffic and University property. Drivers must treat pedestrian crossings on the Campus in the same way as those located off campus.
- 1.3 All users of vehicles on the Campus must comply with all traffic and parking signs, notices and directional arrows showing the prescribed direction of traffic flow. The Regulations apply to all signs (temporary and permanent) whatever their nature or period of use. The University reserves the right to record any reported breach of this Regulation and pursue further action against any vehicle user found to be in breach. Vehicle users must also comply with instructions from University Security Officers or other University employees having requisite authority.
- 1.4 With the exception of paths that are officially designated and marked for use by cyclists, motor cycles, scooters and bicycles must not be ridden on University footpaths or in areas which are normally closed to private motor vehicles.
- 1.5 All vehicles used on the Campus must be registered in terms of the Vehicles Excise and Registration Act 1994 and all drivers must hold a current insurance policy providing cover against third party risks (Section 143 Road Traffic Act 1988). It is the responsibility of the Registered Keeper to check that their insurance policy provides cover for driving on the Campus roads.

- 1.6 Vehicle users are reminded that parking is available in a number of locations on the Campus including areas adjacent to the residences and that it is their responsibility to locate a legitimate parking space within an area designated as a car park. It is not acceptable to park a vehicle illegally because insufficient time has been allowed to locate a legitimate space.
- 1.7 The University does not accept responsibility for any damage to, or loss from, vehicles driven, parked, left or abandoned on Campus.
- 1.8 Owners of motorcycles are not required to register or display a permit or pay & display ticket unless they opt to park in a full parking space.
- 1.9 Electric vehicle charging stations are available for all car park users wishing to recharge their electric vehicles subject to a maximum permitted stay of 4 hours in any one day. It is the responsibility of any driver of an electric vehicle occupying a designated parking space for the purposes of recharging their vehicle battery, to ensure that they move their vehicle to an alternative parking space not reserved solely for charging purposes prior to the expiry of this 4-hour period. Vehicles parked in these spaces must still display a valid permit or pay & display ticket. Any unauthorised use of these designated spaces or failure to display a valid permit or pay & display ticket will result in the issue of a Private Parking Notice (PPN).
