**SAFETY OF ELECTRICAL EQUIPMENT**

If you intend to bring any electrical appliances into your University accommodation, it is your responsibility to ensure that each item is PAT tested (Portable Appliance Testing) and correctly labelled as safe by a qualified electrician. These appliances can be tested when you arrive in Stirling – Details on how to arrange this can be obtained from the Reception Desk in your allocated residence. This must be carried out within one week of arrival.

It is not necessary to have new appliances tested (those of less than one year old) however you must have proof of purchase.

Please enter the details below and return this sheet to your Reception Desk within one week of your arrival at Stirling.

Item eg. Radio, television etc.	Tested at eg. Glasgow etc.	Date of Test

Name ..... Student ID Number .....

University Address .....
