We're proud to provide our students with an outstanding education, founded on innovation and excellence. You'll find that Stirling is a place where everyone is treated with respect and where ability, not background, is valued.

Our focus is on helping you to be the difference in your chosen career and, with flexible degree courses to choose from, we'll equip you with the knowledge, expertise and lifelong employability skills to stand out from the crowd.

We're delighted 97 percent of our undergraduate – and 96 percent of postgraduate – leavers are in work or further study within six months of graduating.

Our students, graduates and staff are having a positive impact internationally and we celebrate our global outlook, with more than 120 nationalities represented on our diverse, inclusive and multicultural campus.

We were named UK Sports University of the Year, in The Times and Sunday Times Good University Guide 2020. And in November 2019, our world-leading Institute of Aquaculture received the UK’s most prestigious academic honour – the Queen’s Anniversary Prize.

The University's beautiful 330-acre campus offers an unrivalled living and learning environment. In the latest QS World University Rankings, the University retained its five-star rating as an institution and was awarded five stars for teaching, employability, internationalisation, facilities and inclusiveness.

To further enhance our student experience, we’re investing £41 million to create world-class fitness and high-performance sports facilities, as well as a new ‘Campus Central’ social and learning space. These projects have been shaped in collaboration with our students, staff and wider community.

If you’re into sport, you’ll love Stirling. As Scotland’s University for Sporting Excellence, we provide high-quality sports facilities for our students, high-performance and Olympic athletes, staff, and the wider community.

We’re the home of Scotland’s National Swimming Academy, GB National Tennis Academy and Triathlon Scotland. Our students rated our sports facilities – which include a 50m swimming pool and a golf course – first in Scotland, and fourth in the UK, in the Times Higher Education Student Experience Survey 2018.

Our award-winning Students’ Union is the University’s hub, providing entertainment and welfare services to make your life at Stirling the best it can be. With more than 120 clubs and societies to choose from, settling into university life couldn’t be simpler.

You’re about to make a very exciting and important decision about where you choose to study – and we’re delighted you’re considering joining us at Stirling. I hope this prospectus offers a flavour of life at Stirling and that you’re able to visit our campus during one of our Open Day events.

I wish you the very best of luck with your studies and look forward to welcoming you on campus soon.

PROFESSOR GERRY MCCORMAC
Principal and Vice-Chancellor

BE YOU
BE THE
DIFFERENCE

At the University of Stirling, we’re committed to helping you make a positive difference in the world.
At the University of Stirling, we want to give you the best-possible student experience – which means you’ll need world-class facilities. That’s why we’re investing £41 million updating our student hubs in time for your arrival in September 2021, and we think you’re going to love it.

Campus Central will be the new heart of our stunning campus, giving you cutting-edge learning facilities and dynamic spaces. It’s going to be an expert blend of modern architecture and natural beauty, and will include:

- New meeting spaces and student support facilities
- Collaborative learning and research spaces
- Bigger and better food and shopping facilities
- Beautiful green space to sit and think
- A convenient transport hub

As the UK’s Sports University of the Year¹ and Scotland’s University for Sporting Excellence, you’d expect Stirling to have incredible sports facilities – and you won’t be disappointed with our new cutting-edge complex. Integrated with the National Swimming Academy and GB National Tennis Academy, our brand-new facilities will include:

- Purpose-built fitness studios
- State-of-the-art gym
- Two sports halls and six indoor tennis courts
- Indoor cycling studio
- Strength and conditioning areas
- World-class high-performance suite
- Enhanced changing facilities
- Open-plan communal spaces, cafe and reception area

¹ The Times and Sunday Times Good University Guide 2020
WALLACE MONUMENT
Climb 246 steps to reach the top of our famous landmark, built to commemorate Scots hero, Sir William Wallace.

COTTRELL BUILDING
The Cottrell Building is home to the Faculty of Natural Sciences and the Stirling Management School.

INTO BUILDING
Offers international students unique academic pathways that can help them gain a degree.

GB NATIONAL TENNIS ACADEMY
Tennis superstars Andy Murray and Gordon Reid famously honed their skills on our courts.

NATIONAL SWIMMING ACADEMY
Home to Scottish Swimming and our world-class student athletes, who practise more than 35 hours per week in our Olympic pool.

ANDREW MILLER BUILDING
The heart of the University, made up of Campus Central, Library, Students’ Union and the Macrobert Arts Centre.

COLIN BELL, IRIS MURDOCH AND RG BOMONT BUILDINGS
These buildings are where the Faculty of Social Sciences is based, and include some of our cutting-edge research centres.

COTTRELL BUILDING
The Cottrell Building is home to the Faculty of Natural Sciences and the Stirling Management School.

UNIVERSITY OF STIRLING INNOVATION PARK
Home to some cutting-edge research and development companies.

AIRTHREY GOLF COURSE
Less than a five-minute walk from student accommodation, our nine-hole golf course is right on your doorstep.

AIRTHREY CASTLE
Our very own 18th-century castle is still in use today, and overlooks the University’s picturesque golf course.

THE LINK BRIDGE
The scenic commute between halls and University, and you’ll never have to worry about being late again.

AIRTHREY PARK
Our on-campus general medical practice and dental centre.

STUDENT ACCOMMODATION
Home to our students: more than 3,900 bedrooms across 19 residences on and off campus.

AIRTHREY LOCH
Our very own loch; home to our water sports teams, along with our resident swans.

PATHFOOT BUILDING
Where the Faculty of Arts and Humanities, the Faculty of Health Sciences and Sport and the Institute of Aquaculture are based. It also hosts an art collection.

THE PITCHES
Get a front row seat to the action on our grass and artificial pitches.

LET’S EXPLORE
The University’s 330-acre campus isn’t just a gorgeous place to call home; it’s an inspirational place where cutting-edge technology combines with breathtaking nature and where a world of discoveries awaits you.

FIVE-STAR SPORT, STUDY AND LEISURE FACILITIES
Our facilities were given the top score in the 2020 QS World University Rankings – and it’s easy to see why. The University’s library has a range of different study spaces to suit your needs; our contemporary, spacious and secure student accommodation has options to suit every taste and budget; and our world-class sports facilities enable you to play and train alongside Olympic athletes.

CAMPUS CENTRAL
Campus Central is the social hub of the University. It connects students to the library and houses our Students’ Union, where you can relax with a coffee during the day, catch up with friends or socialise into the wee hours. There’s also a vibrant shopping precinct with a bank, pharmacy, Students’ Union outlet packed with branded goods and a well-stocked supermarket – as well as a wide selection of restaurants and cafes.

ARTHRHEY CASTLE
How many universities can say they have their own castle? Overlooking the University’s loch, the 18th-century Airthrey Castle boasts a fascinating history – and is still in active use today.

PLENTY OF CULTURE
Our campus is a vibrant, artistic and cultural hotspot. Located at its heart is the MacRobert Arts Centre, the leading cultural hub and arts centre in Scotland’s central region. It regularly hosts new theatre productions, dance, comedy and contemporary music. Meanwhile, its critically acclaimed cinema offers excellent value and a great programme of blockbusters, arthouse movies, classics and documentaries. macrobert.org

ARTHRHEY GOLF COURSE
Are you a budding golfer? We have our own nine-hole, par-three course, driving range and putting green. The course is suitable for both amateur and professional golfers, and affordable equipment hire is always available.

VENUE
Our multipurpose social space is perfect to collaborate, show off your skills or just hang out. Venue hosts regular unplugged music sessions and provides plenty of room to stretch out and enjoy a Starbucks, a healthy drink from the Juice Bar or a great selection of food.

GB NATIONAL TENNIS ACADEMY
As the home of the National Tennis Academy, our campus is the nation’s premier training ground for the game’s biggest stars. But you don’t need to be an aspiring Wimbledon champion to take advantage of our world-class facilities – courts are open to everybody.

UNIVERSITY ART COLLECTION
Stirling’s public art collection is one of the finest in the country. Our unique works include paintings, sketches, tapestries and sculptures from some of the biggest names in Scottish contemporary art. stir.ac.uk/artcol

STIRLING COURT HOTEL
For visiting family and friends, the University has a 100-bedroom hotel and versatile conference centre right here on campus. The hotel also features a relaxing bar, cafe and excellent restaurant. stirlingcourthotel.co.uk

“...bus ride away from the city centre, enabling you to have the peace and quiet of the country but also the buzz of the city.”
ANGELA MCIVOR

BA (Hons) Human Resource Management and Marketing
STIRLING

THIS IS STIRLING

The ancient city of Stirling combines the charm of a historic destination with the buzz of a young population.

SHOP ‘TIL YOU DROP
Stirling has everything you could hope for in a premier shopping destination. The city’s historic Victorian arcade, bustling high street and Thistles Shopping Centre boast all the biggest brands and quirkiest pop-up shops imaginable.

SOAK UP THE CULTURE
The Castle and the Albert Halls are popular for concerts, while the Old Town venue the Tolbooth has a famous live music and arts scene. We have a multiplex cinema, and the Macrobert Arts Centre showcases the best in arthouse and mainstream cinema, along with a year-round live performance programme right here on campus.

PUBS AND GRUB
Allanwater Brewhouse is just a few minutes’ walk from campus. Our local Gin Distillery and craft beer revolutionaries BrewDog are in Stirling. Popular speciality cafes like the Burgh Coffeehouse and student-friendly eateries including Nando’s, Domino’s and Subway are also in the city centre.

WALK WITH HISTORY
Stirling Castle is one of Scotland’s grandest and former home to Mary, Queen of Scots. It’s also where the world’s oldest football was discovered hidden behind some panelling! The historic Old Town remembers Robert the Bruce and William Wallace, and still bears the scars from military campaigns that changed the course of Britain’s history.

GET CONNECTED
Stirling has everything you could hope for and even has Nextbike cycle-sharing stations. Its central location also means Glasgow and Edinburgh are within easy reach for a day of shopping or a night out. With around 130 gigs a week in Glasgow, and the world’s biggest arts festival in Edinburgh, you’re not going to want to miss out on either city.

GO OUTDOORS
If you’d like to explore the sets of iconic films and TV series, the University is a frequent film location and nearby Doune Castle features in Outlander, Game of Thrones and The Outlaw King. For a change of pace, Loch Lomond and the Trossachs National Park are on our doorstep and the Scottish Highlands are less than an hour away. Whether it’s skiing, rock climbing or simply enjoying the beauty of one of the world’s last wild places, you should add this outdoor adventure to your to-do list.
LIVE IT
LOVE IT

EDUCATION
Scotland has more world-class universities per head than anywhere else in the world. We offer unrivalled quality and choice, and maintain some of the highest rates of graduate employment in the UK. Stirling is regularly awarded five QS stars¹ for its commitment to graduate employability, with more than 97 percent of our students in employment or further study within six months of graduating².

INNOVATION
Scotland is famous for its inventions: penicillin, the bicycle, the television, the telephone and animal cloning all came from our nation of innovators – and we’re continuing that tradition. University of Stirling researchers are at the forefront of their fields, which means our students are taught by experts in each area of study. At Stirling, you’ll be encouraged to take part in work placements and internships with the brightest start-ups, as well as leading organisations – who knows what you’ll discover?

BEAUTY
Scotland is, quite simply, beautiful. Mountains, lochs, beaches, islands and castles offer wonderful opportunities for cycling, climbing, walking, skiing, swimming or just having the space to sit and think. Our towns and cities all have their own character, and Stirling’s central location means you’re never far from a new adventure. And travelling to the rest of the UK and Europe is easy, with convenient and affordable transport links.

SPORT
The Scots invented golf, curling and cycling, and have had a major impact on the development of rugby, hockey and football. From the 2016 Rio Olympic Games medal haul, to hosting the 2018 European Championships, Scotland is a haven for sporting success. With world-class facilities, strong community links and our great outdoors just waiting for you, why not take up a new sport or outdoor activity when you’re here. You’ll find lots to inspire you in Scotland!

FOOD AND DRINK
Scotland is renowned for its unique cuisine and internationally acclaimed whisky. The country boasts an incredible culinary tradition and has ten Michelin-starred restaurants. No Scottish experience is complete without a hearty serving of haggis, neeps and tatties, and many of the world’s top whisky distilleries are found in the local countryside and neighbouring Highlands. If you’re into food and drink, Scotland has plenty to offer.

¹ QS World University Rankings 2020
² Destinations of Leavers from Higher Education survey 2016/17
The University of Stirling is an international university with a global reputation for excellence in teaching and high-quality research.

With more than 100 international research partners and almost three-quarters of our research activity rated either world-leading or internationally excellent⁴, it’s not surprising that we’ve also been awarded five QS stars in the World University Rankings for internationalisation². Thinking and working globally is part of our daily teaching, learning and research practice. This means your degree will be outward-looking, and full of possibilities and potential. Studying at Stirling sets you up to be a global citizen in an increasingly connected world.

A DIVERSE CAMPUS
We’re known in Scotland for welcoming international students, with more than 120 nationalities represented on campus. Our exchange partnerships mean students can join our community for a year or a semester as part of their studies. This helps to create a unique atmosphere on campus, with plenty of opportunities to meet new people and experience diverse cultures.

Who knows – perhaps you’ll be inspired to follow in their footsteps and study abroad as part of your degree, too? There’s a whole world out there – let us help you discover it.

LASTING CONNECTIONS
Studying at Stirling is a truly connected experience. When you graduate, you’ll automatically become a member of our alumni association. This means you’ll join a vibrant network of 92,000 people in more than 170 countries. It’s an amazing resource for mentoring, career development, advice and support.

We strive to make sure our former students stay connected with each other, and love welcoming back our alumni as mentors, guest lecturers and speakers through our Alumni Ambassador Programme. As well as hosting work experience opportunities and placements that enable students to practise their skills in real-life situations, alumni also organise reunions and events for graduates living in their local communities.

“Coming to Stirling for a semester has been one of the best decisions of my life. The campus is absolutely beautiful and there are loads of different societies you can join in order to find friends and allow yourself to feel at home.”

University is all about trying new things – and Stirling is the perfect place to get involved. The city gives you a backstage pass to some of the country’s weirdest and most wonderful experiences imaginable. To give you an idea, here are our top 10 events to mark in your calendar.

**Feeling bold? One of Scotland’s biggest New Year’s Day traditions is the annual Firth of Forth Loony Dook, which sees thousands of brave souls charge into the freezing sea to celebrate the new year and raise money for charity.**

**Do you enjoy skiing or snowboarding? Stirling has trains running directly to the Cairngorms National Park and Aviemore. There are world-class runs available for all skill levels and, for practice, there’s a 120m dry slope just eight miles from the University.**

**Challenge your inner detective to solve the puzzles and riddles with clues that allow you to escape from Stirling Old Town Jail.**

**Perched high above the city, award-winning Stirling Castle will transport you to the 16th-century with all its splendour. Meet historical characters in the Royal Palace and learn about kings, queens and warriors of old who changed the course of Scotland’s history.**

**Looking for a bit of culture? The world’s largest arts festival is virtually on the doorstep. It runs over 25 days in August and features more than 50,000 performances across 300 venues. You’ll find all sorts of music, dance, theatre, comedy, cabaret, musicals, lectures, special events and so much more.**

Your award-winning Students’ Union is the beating heart of the University. Through its student-focused representation, the Union aims to ‘Make Students’ Lives Better’. Alongside our representation work, we offer a wide range of services designed to improve your student experience. From societies to sports clubs, events to environmental projects, no matter what your interest is, we are here for you.

**STUDENT UNION OFFICERS**

The Students’ Union body elects Student Officers each year to work with Faculty Officers and Course Reps to enhance all aspects of student life. From academic representation to course feedback, and campaigns on student housing to tuition fees, the Union is here for you. The Union will help you to deal with any personal or academic issue you may be facing. All services are run by a dedicated team that provides confidential and informed academic and non-academic support and guidance.

All services are run by a dedicated team that provides confidential and informed academic and non-academic support and guidance.

**GET INVOLVED**

“Here at the Students’ Union, our main aim is to ‘Make Students’ Lives Better’. We achieve this by representing your needs and views to ensure we work together with the University to make a positive difference to your student experience. We ensure that the Students’ Union offers something for everyone. Whether it’s getting involved in clubs and societies, with our environmental team or simply having a coffee in the Union, we look forward to welcoming you to Stirling.”

Chloe Whyte
Union President 2019/20

**UNIVERSITY ISN’T ABOUT LOCKING YOURSELF IN THE LIBRARY FOR DAYS ON END. HERE AT STIRLING, OUR STUDENTS LOVE TO EXPLORE THE WORLD AROUND THEM.**

At night, you can relax in our Studio bar or check out what’s going on in our multipurpose space Venue. From Freshers’ Week events, with guest DJs like BBC Radio 1’s Scott Mills and performances from Cascada, to comedy nights and regular ceilidhs – there’s something for everyone. Check out the Union’s website for more on the latest news.

**120+ CLUBS AND SOCIETIES**

**AIR3 RADIO**

Proudly the oldest student radio station in Scotland and equally looking to the future with its amazing new studio for podcasts, radio dramas and much more, Air3 radio holds the Best National Media Society award and has a wide range of programming designed to let your creativity run free!

**INTERNATIONAL**

Want to mix with students from across the globe? The International Society is the biggest on campus and all are welcome. From Christmas Markets in Edinburgh to St Andrews and its beaches, the International Society is the best way to explore while making new connections.

**LGBT+**

A welcoming, supportive society with a busy calendar of social and educational events. LGBT+ works with the wider community and is about raising awareness and having fun!

**LIVE MUSIC**

Are you a budding musician? Check out the Live Music Society. All instruments, skill levels and tastes are welcome. Both electric and acoustic sessions are offered, and the society hosts a weekly Open Mic night in the Students’ Union Studio bar.

**UNIVERSITY ISN’T ABOUT LOCKING YOURSELF IN THE LIBRARY FOR DAYS ON END. HERE AT STIRLING, OUR STUDENTS LOVE TO EXPLORE THE WORLD AROUND THEM.**

University isn’t about locking yourself in the library for days on end. Here at Stirling, our students love to explore and share the passions and interests that make them unique. That’s why we have more than 70 societies and 50 sports clubs to choose from, including our three award-winning student media outlets – Air3 Radio, Air TV and Brig Newspaper. If there’s nothing that piques your interest, we can even help you start your own club.

**STIRLING UNIVERSITY DRAMA SOCIETY (SUDS)**

To be or not to be… in this amazing society?!

SUDS is one of our top award-winning societies, with activities ranging from acting workshops right through to full stage productions, scriptwriting, make-up, costume design and stage management. Whether you love the limelight, or think you could work one, this might be the group for you!

For more information, visit: stirlingstudentsunion.com/clubssocieties

See page 24 for more on the Sports Union.

**MARINE CONSERVATION SOCIETY**

Protecting our oceans is at the heart of all we do. Whether it’s hosting guest speakers from the field, having marine documentary nights, taking part in beach cleans, advocating for plastic reduction and even volunteering with marine life; you’ll play an active part in conservation efforts in the fight to save our seas. If you’re passionate about our oceans, this society is for you.

**SOCIETY FOR THE PROTECTION OF WILD LIFE (SPWL)**

Marine CONSERVATION SOCIETY

Want to mix with students from across the globe? The International Society is the biggest on campus and all are welcome. From Christmas Markets in Edinburgh to St Andrews and its beaches, the International Society is the best way to explore while making new connections.

TOP 10 IN THE UK FOR CLUBS AND SOCIETIES  
UK International Student Barometer Benchmark 2018
We have been at the forefront of Scottish sport for five decades and are proud to have supported world-class athletes from around the globe. Our incredible student athletes have competed at the Olympic and Commonwealth Games, World Championships and Walker Cup.

Sport, health and wellbeing are in our DNA, and we aim to make sure every student can enjoy our world-class sports facilities - which are fully accessible. Whether you’re an Olympic athlete, fitness lover, sports fanatic or completely new to physical activity, we have programmes, classes and clubs to suit you.

Choose from more than 50 fitness classes per week, learn to swim, try tennis, join a walking or running group around our beautiful campus, or bolster your CV with fantastic coaching and volunteer opportunities. Be part of something brilliant.

And our new £20 million sports complex features:

- Two purpose-built, air-conditioned fitness studios
- A state-of-the-art gym and indoor cycling studio
- An additional three-court sports hall
- Strength and conditioning areas with professional free weights equipment
- A world-class high-performance suite for scholar athletes and Sports Union clubs
- Exciting new communal spaces, general facilities, cafe and reception area

Facilities
Open to all students, our world-class facilities include:

- The GB National Tennis Academy, which features six indoor courts
- The National Swimming Academy, which houses a 50-metre, six-lane pool and high-performance preparation room
- A nine-hole, par-three golf course, putting green, driving range, pavilion and video analysis suite
- An eight-court multipurpose sports hall and two squash courts
- A 400m all-weather running track
- Two artificial (3G and sand-based) and seven grass pitches

Sport, Health and Wellbeing for Everyone at Scotland’s University for Sporting Excellence.
HEALTH AND FITNESS
We provide a wide variety of classes, workshops and activities. From high-intensity circuit classes to serene yoga workshops, our health and fitness programme has been designed with all students in mind. Whatever your goals or interests, we’ve got you covered!

GET ACTIVE
If you want to exercise, play or try a new sport in a social environment – away from the pressure of competition – then Get Active is the programme for you. Incorporating our turn-up-and-play, intramural and beginner courses, it’s a great way to keep fit, socialise and meet new people, all in the name of fun!

COACHING AND VOLUNTEERING
As well as participation, we also offer a range of coaching and volunteering opportunities for students in activities such as club support services, community lessons, event delivery and more.

CLUB SPORT
In conjunction with the Sports Union, we support over 50 sports clubs of multiple teams for students of all abilities and interests, competing in a range of domestic and national competitions. Whether you’re an eager beginner or experienced competitive athlete, our clubs can provide the perfect sporting environment.

OUR SPORTS INCLUDE:
- American football
- Archery
- Athletics
- Badminton
- Baseball
- Basketball
- Boxing
- Brazilian Jiu-Jitsu
- Cheerleading
- Cricket
- Curling
- Cycling
- Dance
- Equestrian
- Fencing

- Water polo
PERFORMANCE SPORT
Our performance sport programme is world-renowned, attracting student athletes from across the globe and producing World, Paralympic and Olympic medallists.

SPORTS SCHOLARSHIPS
Our sports scholarship programmes provide student athletes with high-quality coaching and support services, including academic flexibility, facilities access, strength and conditioning, physiotherapy, and sports psychology as well as financial subsidies.

Scholarships are available for athletes in the following core sports:
- Curling
- Endurance running
- Football
- Golf
- Swimming
- Tennis
- Triathlon

OTHER SPORTS
We also offer scholarship packages to student athletes competing at international level in any other BUCS, Commonwealth, Olympic or Paralympic sport.

To be considered for a scholarship, prospective athletes must hold a profile and proven track record in national competition at junior level or beyond, and successfully gain admission to an academic course at the University. For more details and sport-specific criteria, visit: stir.ac.uk/performance

ADDITIONAL SCHOLARSHIPS
Undergraduate students from England, Wales and Northern Ireland can also apply for a further sports scholarship with a value of £2,000 per year of study. Students successfully progressing to fourth year also receive Honours Scholarships to cover their final year tuition fees.

WINNING STUDENTS
The national Winning Students programme offers scholarships to talented student athletes studying in Scotland. The programme is based on 12 core sports where governing bodies nominate eligible athletes for scholarships valued up to £6,000 per year. Athletes can also apply to be considered for scholarships in non-core individual or small combination sports. Core scholarship sports include:
- Badminton
- Canoeing
- Curling
- Football
- Golf
- Hockey
- Judo
- Orienteering
- Rowing
- Swimming
- Tennis
- Triathlon

For more information about sports scholarships, contact:
performancesport@stir.ac.uk

PARTNERS
As one of the UK’s leading universities for sport, we have close working relationships with a number of partners operating from the campus:

Hazel MacGarvie
Scotland
BA (Hons) Sport Business Management

Hazel continues to flourish as part of the University of Stirling performance golf programme. She has won the BUCS Order of Merit title twice, reached the last 16 of the Women’s Amateur Championship and won her first international amateur event at the 2019 St Rule Trophy at St Andrews.

“My experience at Stirling has been great and the University has helped me develop a lot, especially in my golf. There’s always someone up at the golf centre to bounce ideas off, play competitions against and learn from, which has helped me improve so much.”
Based in the heart of our beautiful campus, our University library provides access to more than 600,000 titles, about half of which are available as ebooks for digital download. With its carefully designed interior layout, our contemporary study hub gives you all the tools and inspiration you need to succeed.

LIBRARY

Working Together
Here at Stirling, we’re into collaborative working. That’s why our popular library with beautiful views offers a wide range of study options to suit all tastes. We’ve just increased our study space by 25 percent and have training suites, 10 group study rooms, study desks with PCs and plenty of more relaxed options, including a designated wellbeing space to chill out and recharge. Want to borrow a laptop? That’s no problem; we have nearly 200 laptops available to loan.

Archives and Special Collections
Our collections don’t just include journals – on everything from popular culture to philately – the library is also home to the University archive and its dedicated reading room, which will enable you to explore our wide range of historical collections. You’ll enjoy unrivalled access to original manuscripts and quirky artefacts that have contributed to shaping world events.

New Technologies
Our Maker Space is the newest addition to the library, offering everyone the opportunity to get to grips with digital creativity using the latest technologies. Maker Space facilities include 3D scanning, 3D printing, laser cutting and etching, and equipment to learn about the basics of coding.

These Pages Hold the Key to the Past, and Your Future
Living away from home for the first time is exciting. New students are always prioritised when we allocate accommodation, and our friendly staff are here to lend support.

We’ll guarantee you an offer of University-managed accommodation in your first year of study if you meet the eligibility criteria. All you need to do is confirm your place at Stirling and apply for accommodation by the advertised date. In 2019–2020, accommodation costs ranged from £84 to £171.83 per week, and included utilities, Wi-Fi, insurance and bed linen.

See website for eligibility criteria and terms and conditions.

We have different types of accommodation to reflect the needs and budgets of our students. All accommodation options are self-catered and kitchens are equipped with cooker, microwave, fridge, freezer and kettle. Toilets and showers are either en-suite or in shared facilities.

Accommodation is single occupancy, and you can choose from a range of flats, chalets and townhouses. We also have some family accommodation.

On campus, everything is planned around you, so you’ll find card-operated laundry facilities, a supermarket, pharmacy, medical and dental centre, sports centre and bank within a few minutes’ walk, as well as all the facilities the University and Students’ Union have to offer.

If your family and friends are missing you and fancy a visit, we have the Stirling Court Hotel on campus, with a fantastic restaurant, bar and facilities.

stirlingcourt.co.uk

We can provide or adapt accommodation for a variety of requirements following a pre-entry visit. If you have any specific needs, please get in touch with us as soon as you can and we’ll take it from there.

ask@stir.ac.uk

You can apply for accommodation through our online portal – you’ll get access to this once you have a confirmed place at Stirling (either conditional or unconditional). New students can apply for accommodation from around April. There are several different instalment plans available for paying rent.

For more information, up-to-date costs and booking details, visit:

stir.ac.uk/accommodation

TO CALL HOME

THE SAFEST CITY IN THE UK

The Complete University Guide 2019
We appreciate that not all students are after the same thing. That’s why we’ve compiled a quick list of options to help you decide where you’d like to stay during your time at Stirling.

**LIVING IN UNIVERSITY OR PRIVATE RENTAL ACCOMMODATION**

*You have the power of choice*

The University has plenty of accommodation options and the local area has accommodation to suit all tastes and budgets.

*Share with friends*

You can request to be housed with a group of friends in University accommodation or choose accommodation for yourself and a group of friends in the private sector.

*You may feel homesick*

It happens to everybody, but remember, it may just feel that way at first; that’s why we have our Accommodation Operations Team and Accommodation Liaison Students on hand to talk to and to help you.

*You’ll have to budget*

Moving away from home and paying rent means you’ve got to manage your money wisely. Fortunately, Stirling offers a low cost of living. See page 123.

**LIVING IN UNIVERSITY ACCOMMODATION**

*It’s safe and secure*

All our accommodation has staff on hand 24/7 to offer you their full support and assistance.

*You don’t need to worry about bills*

Heating, electricity, insurance and Wi-Fi charges are all included in your rent. Bedding and housekeeping support are also provided.

*Conveniently located*

It’s easier to roll out of bed and make it to those early-morning lectures if you’re in University accommodation. You’re always within a stone’s throw of our on-campus facilities.

**RENTING PRIVATE ACCOMMODATION**

*Be prepared to haggle*

If you choose to go privately, landlords may charge extra for additional services, but improving your negotiating skills isn’t a bad thing.

*Think about bills*

All of our University accommodation prices include bills. But most private rental fees don’t include energy or broadband fees – some properties don’t come with furniture either.

*You need to be very self-sufficient*

Most private properties don’t give you 24/7 access to dedicated security staff.

**LIVING AT HOME**

*You won’t feel homesick*

Family and friends will still be right there whenever you need them. Home-cooked meals are a plus, too.

*You get continuity*

You can continue to work at the same part-time job or stay at the same clubs and teams that you’re in.

*Nobody likes a commute*

If you choose to live at home, you may have to spend a lot of time travelling to and from campus.

*You’ll lose time with peers*

Living in University accommodation is a quick way to make new friends, gain independence and make the most of university life.

---

Just because you’re choosing to study, that doesn’t mean you’ve got to fall into the cash-strapped student stereotype. There are plenty of ways to manage your money and stretch your finances to make sure you live comfortably while studying with us.

Five of our top tips:

1. **PLAN AHEAD**
   - Sometimes it helps to write everything down. There are loads of great, free websites that can help you to budget and plan your monthly expenses. You can also find out about additional funding you may be eligible for.

2. **TAKE UP COOKING**
   - Nothing eats away at your finances quicker than too many takeaways. Instead of eating out, why not learn to cook? It’s cheaper, healthier and a fantastic way to impress your flatmates.

3. **THE RIGHT BANK ACCOUNT**
   - It can be tempting to choose a bank account based on who’s offering the most freebies or the highest overdraft, but you’ve got to shop around and read the fine print. If you need help, we have a bank right here on campus that offers plenty of savings advice.

4. **SHOP SAVVY**
   - You can save hundreds of pounds each year by simply shopping smart. Use price comparison sites, shop for food online to avoid impulse buys and don’t be afraid to try out supermarkets’ own brand labels.

5. **TAKE ADVANTAGE OF DISCOUNTS**
   - Our students enjoy discounts at a wide selection of retail shops and restaurants around Stirling. You should always ask staff before you buy something to make sure you don’t miss out.

For more advice, contact our Accommodation Services Team:

[stir.ac.uk/accommodation](http://stir.ac.uk/accommodation)
University is about finding your own way, but that doesn’t mean you have to on your own. Our extensive support services are here to help every step of the way. The Student Services Hub brings lots of frequently used services together through a single point of contact to welcome enquiries about any of them.

ACCESSIBILITY AND INCLUSION
This team provides the expertise to enable students with a wide variety of needs to access all aspects of their university life. Dedicated advisers offer assessments for all your learning and support requirements, and create a tailored package to meet them.

If you have specific needs, please talk to us before you apply. We highly recommend pre-entry visits for students with mobility or sensory impairments.

CAREERS AND EMPLOYABILITY
Whatever your ambitions, we’ll ensure you can make the most of your abilities. From discussing your future career plans, to supporting you with practical job-seeking skills, our Careers and Employability Consultants can help you to be the difference in your chosen field.

FAITH AND SPIRITUALITY
The Chaplaincy is open to all faiths and none, and celebrates the wealth of nationalities, cultures and beliefs represented here at the University of Stirling. It has a quiet room for reflection and meditation, along with a lively and sociable communal area. Our team of chaplains provide emotional, spiritual or practical support, and we have a dedicated prayer and wash room for Muslim students.

IMMIGRATION
Our Student Immigration Team can provide you with advice and information to ensure you’re able to secure the appropriate visa to cover the duration of your studies at Stirling.

MENTAL HEALTH AND WELLBEING
We offer a mental health, wellbeing and counselling service. Our qualified counsellors and mental health professionals are here for you throughout your time at Stirling. Whatever you’re going through, we’re here to help.

MONEY SUPPORT
Student Money Advisers can help with budgeting and money management. They can also help you apply for additional funding and financial support. Further to this, the Income Office provides a range of flexible and secure options for fee payments.

STUDENT LEARNING SERVICES
Regular workshops and tutorials are organised by our Student Learning Services Team. No matter what stage of study you’re at, take advantage of our daily drop-in sessions, workshops and other services designed to help you become an independent, successful learner.

STUDY ABROAD
We offer a wide range of once-in-a-lifetime Study Abroad opportunities. You can choose to study at one of our partner universities across four continents and develop your personal skills, broaden your horizons and experience new cultures.
BE ADVENTUROUS
WANT TO SEE THE WORLD?

The University of Stirling is a truly international institution that offers a wide range of once-in-a-lifetime Study Abroad opportunities. From a semester in Tokyo to a year in Spain or California, we have partnerships with more than 70 universities across four continents that provide our students with a global and dynamic educational experience.

WHY STUDY ABROAD?
Our Study Abroad programmes are unique adventures designed to help you to see the world, experience new cultures and discover crucial skills and perspectives that will broaden your horizons. Taking part will also show future employers your ambition, maturity and self-reliance. Studying abroad helps you stand out to employers by showing you’ve got what it takes to thrive in an increasingly global workplace, and that you’re the kind of person who can handle anything life throws at you.

As a student at the University of Stirling, you could spend up to a year studying at one of our many partner universities as a fully integrated part of your degree. That means you’ll continue to learn more about your chosen field while overseas, and will keep earning credits towards your graduation at Stirling.

Costs shouldn’t be a barrier. Because it counts as part of your degree, tuition is funded in the normal way. And because it doesn’t extend the length of your degree, there’s no ‘extra’ time to fund, either. Plus, there’s a range of grants and scholarships to help with living costs.

A WORLD OF OPPORTUNITY
All our students are encouraged to take part in one of our overseas exchange programmes. Most Honours degree students are eligible to study abroad in their third year – and it’s a compulsory part of your course if you study French or Spanish.

The application process starts in October every year, and students are chosen based on their academic profile, the strength of their application and a short interview. From there, our expert team will guide you through the process to help you prepare for your adventure and make the most of your time overseas.

For more information, visit:
stir.ac.uk/international

“Studying abroad was incredible – from being able to experience an American university and living in a different place, to meeting amazing people who have now become my closest friends, to having unique career opportunities, and travelling to unreal places – I can strongly say this was a once-in-a-lifetime opportunity I will never forget. San Diego and San Diego State University have a special place in my heart. Go Aztecs!”

YASMIN DA SILVA TEIXEIRA
Portugal
BA (Hons) Film & Media and Journalism Studies

WANT TO MAKE THE MOST OF YOUR TIME ABROAD?
Most of our Study Abroad programmes are once-in-a-lifetime opportunities. To ensure you’re able to make the most out of your adventure, we’ve rounded up a few top tips from students who have taken advantage of the Study Abroad programme:

1. DO YOUR HOMEWORK
Once you’ve successfully snagged a Study Abroad spot, it’s always worth learning a little bit about your new country before you ship off. Not only will it give you a working knowledge of the local customs and culture, but it will also give you some ideas about what you’d like to see or do in between classes.

2. LEARN THE LANGUAGE
Half the fun of studying abroad is getting the opportunity to immerse yourself in a brand-new culture. To get a taste of life as a local, it’s always worth talking the talk. Do your best to learn key phrases and regional slang. Not only will it help you get by on a daily basis, but you’ll definitely earn some respect from the locals.

3. DON’T FORGET YOU’RE JUST VISITING
After you settle in, you may be tempted to shun sightseeing in order to live more like a local. There’s nothing wrong with that, but don’t forget that your time abroad has got an expiry date. If there’s something you want to see or do, you shouldn’t put it off.

STUDY ABROAD TIPS
SO, WHAT NEXT?

At Stirling, one of our top priorities is to enhance your employability through top-quality education. Everything you do while you’re studying here is designed to help you build the skills you’ll need to be the difference and stand out to potential employers — whether it’s getting involved in the Students’ Union, studying abroad, taking part in internships or even balancing part-time work with study.

TOP PERFORMANCE
We’ve been awarded five QS stars for employability, with more than 97 percent of our graduates having a positive destination after University, including work or further study. In the Higher Education Statistics Agency’s Destinations of Leavers from Higher Education (DLHE) survey published in 2017, our students were earning £23,000 on average per year within six months of graduating.

1ST IN SCOTLAND TOP 5 IN THE UK AND TOP 15 IN THE WORLD FOR CAREER SERVICES
UK International Student Barometer (ISB) Benchmark and Global ISB Benchmark 2018

SKILLS THAT LAST
We’ve built strong links with national and international organisations, as well as the brightest and best small businesses and start-ups flourishing around us. That means all sorts of opportunities for you to test your learning in real-life situations. Whether it’s through a paid internship as part of the Stirling Internship Programme or tackling a real business issue in a work-based project, you’ll stretch yourself and learn new skills to get an idea of which working environment suits you.

Reflecting on your personal and professional development is important. Our expert staff within our Careers and Employability Service can support you with comprehensive resources, through group work and on a 1-to-1 basis to:
- explore your ambitions and skills;
- develop your skills, experience and network;
- and prepare you to compete to be successful in whatever you do.

While you’re studying for your degree, our innovative My Stirling Award recognises your participation in extra-curricular activities such as part-time work, volunteering or involvement with University clubs and societies. These different skills and attributes, developed over your time at Stirling, are brought together and presented in your degree transcript. So, when it comes to proving your worth to potential employers, it’s all in one place.

To find out more about our Careers and Employability Service, visit: stir.ac.uk/careers

“The Careers and Employability Service is a wonderful resource that all students should make use of during their time at Stirling (and even after you graduate)! I learned such a lot about paid digital media on my internship at Lane Agency, and it also included a day at Facebook HQ in Dublin! I was invited to stay and I’m now Media Executive at Lane Media.”

A HANDS-ON EDUCATION
Several of our courses, such as Nursing, Teaching Qualification in Further Education (TQFE) and Applied Biological Sciences include compulsory work placements as part of the curriculum. These placements are a great way to develop practical skills ahead of your future career in a workplace environment supported by industry professionals.

There are also optional accredited volunteering placement modules students can undertake as part of some degree courses including Sport, Psychology, Law and Journalism.

"My work placement at Bio Reliance has been an excellent opportunity to get some hands-on experience, make connections and start to build a reputation in the industry. It made me very excited for my future career and all the different opportunities it holds."

AUSRINE SABOCKYTE
Lithuania
BSc (Hons) Applied Biological Sciences

EXPLORE NEW OPPORTUNITIES
The Careers and Employability Service delivers the Stirling Internship Programme, offering students a variety of exclusive paid internships in the private, public and third sector during semester and the summer vacation. They also advertise other work experience opportunities throughout the year, from volunteering and part-time work to graduate opportunities. Our Careers and Employability Consultants are also on hand to support you with applications as you take your next step into the world of work.

Increasing your employability isn’t just about achieving outstanding academic results. That’s why we’re committed to providing you with the skills and knowledge you’ll need to make a difference to major industries and sectors, and change the world for the better.

As part of this commitment, we’ve partnered with a wide range of leading businesses and public service providers to offer students a host of work experience opportunities. That’s just part of the reason why we have been awarded five QS stars for employability.¹

Dale’s career in journalism began at Stirling where he was editor of the students’ union newspaper and, since graduating with a first, has gone on to pursue a successful career in bold investigative journalism. His work has featured in a variety of publications including Private Eye, The Lawyer, The Press & Journal and Gay Times and his documentary Stolen Vision was awarded 4 stars by UK Film Review who described it as “a wonderfully informative piece of investigative journalism”.

“Stirling’s beautiful campus environment enchanted me. I was also drawn to the flexible degree structure, and changed to Journalism Studies after becoming heavily involved in the student newspaper, Brig: it was a fantastic experience to have my stories published. Stirling laid all of the foundations that, little did I know, would ultimately help me be a news reporter in Iraq. None of my journalism experiences would have been possible without my degree from Stirling.”

DALE MCEWAN
Scotland
BA (Hons) Journalism Studies 2009

Jessica joined Lime Pictures as a Costume Supervisor after graduating, where she spent eight years on the popular television series Hollyoaks. More recently she has been working independently on feature films and is looking forward to further film work and another well-known television series.

“Coming from Northern Ireland, I didn’t want to go to a big city and I really liked the campus. The course was brilliant and the practical modules gave me insight into what working life would really be like. I’m so glad I chose Stirling. I made lifelong friends there, met my husband and it was instrumental in giving me the skills I need for my work today.”

JESSICA BURTON
Northern Ireland
BA (Hons) Film and Media Studies 2009

Niru is an award-winning marine mammal biologist and Chartered Marine Scientist and Fellow of the IMarEST and a Chartered Scientist of the Science Council. He is currently a Senior Environmental Adviser within high-profile marine protected sites and is the co-founding Director of Whalefish, an international not-for-profit marine research and conservation organisation. Niru also provides student mentoring and career advice to aspiring marine science students through the University of Stirling Alumni Mentoring programme and also through Whalefish.

“Having a degree in Marine Biology has opened so many doors for me and launched me on an incredible career where I travel the world almost non-stop. I have worked on over 50 marine and coastal projects globally from far eastern Russia, South America and New Zealand, to Africa and Asia. I’ve also gained valuable experience working in protected areas and UNESCO marine biosphere reserves.”

NIRU NEIL DORRIAN

BSc (Hons) Marine Biology 2006
OUR PARTNERS

As an agent for global change, we work to forge strong partnerships both at home and further afield. That’s why our academics team up with a range of local and international institutions to offer diverse selection of undergraduate degrees taught in part, or entirely, overseas.

INTERNATIONAL

AMITY GLOBAL INSTITUTE, SINGAPORE

Amity is part of a leading worldwide education group with the vision of being an educational institute of excellence providing affordable education for both local and international students. The University of Stirling has partnered with Amity to offer the following courses, delivered from their Singapore campus:

- BA (Hons) Accounting and Finance
- BSc (Hons) Management

amitysingapore.sg

HEBEI NORMAL UNIVERSITY, CHINA

Hebei Normal University is a key provincial institution that caters to a student population of more than 57,000. The University of Stirling offers the following dynamic double award that is jointly delivered both on our campus in Stirling, as well as in Hebei:

- BA (Hons) Translation and Interpreting Studies

hebtu.edu.cn

MUSCAT COLLEGE, OMAN

Muscat College is one of Oman’s oldest privately owned colleges, and we have now enjoyed a partnership with them for more than a decade. It’s renowned for its creative and innovative approach to research and learning – which is why the University of Stirling Management School and our Faculty of Natural Sciences are working with the college to deliver unique courses, tailored specifically to meet the needs of the Omani economy. Undergraduate courses taught in Muscat include:

- BA (Hons) Accountancy and Business Studies
- BA (Hons) Accountancy and Computing Science
- BSc (Hons) Business Computing
- BA (Hons) Business Studies
- BSc (Hons) Computing Science
- BA (Hons) Human Resource Management

muscatcollege.edu.om

SINGAPORE INSTITUTE OF MANAGEMENT, SINGAPORE

Singapore Institute of Management (SIM) is one of the country’s premier higher education institutions. Having earned the backing of the Singaporean Government’s Workforce Development Agency, the University of Stirling has partnered with SIM to develop a range of business courses designed to offer students a truly global academic experience. Courses include:

- BA (Hons) Events Management
- BA (Hons) Retail Marketing
- BA (Hons) Sport Business Management
- BA (Hons) Sports Studies and Marketing

simge.edu.sg

UNIVERSITY OF STIRLING RAS AL KHAIMAH, UNITED ARAB EMIRATES

The University of Stirling is offering a number of undergraduate and postgraduate courses, delivered from our campus in Ras Al Khaimah (UAE). The courses will be delivered in English for UAE and international students. Courses include:

- BA (Hons) Accounting and Finance
- BSc (Hons) Business Computing
- BSc (Hons) Computing Science
- BA (Hons) Management
- BSc (Hons) Software Engineering

stir.ae

FORTH VALLEY COLLEGE, STIRLING

Forth Valley College was Scotland’s first regional college, and delivers more than 750 courses from its three campuses in Stirling, Alloa and Falkirk. In partnership with the college, the University of Stirling has developed four innovative skills courses taught on both the college’s nearby Stirling and Falkirk campuses, as well as on the University campus. Courses include:

- BSc (Hons) Applied Biological Sciences
- BA (Hons) Digital Media
- BA (Hons) Heritage and Tourism
- BSc (Hons) Software Development with Cyber Security

forthvalley.ac.uk

HERIOT-WATT UNIVERSITY, EDINBURGH

The University of Stirling has teamed up with Heriot-Watt University in Edinburgh to deliver collaborative new courses that enable our students to study Professional Education at Stirling – while specialising in a science subject offered at Heriot-Watt. Courses include:

- BSc (Hons) Education (Primary) with Primary Science
- BSc (Hons) Professional Education (Secondary) with Engineering Technologies
- BSc (Hons) Professional Education (Secondary) and Chemistry
- BSc (Hons) Professional Education (Secondary) and Physics

hw.ac.uk

INTO UNIVERSITY OF STIRLING, STIRLING

INTO University of Stirling offers a variety of pathways for international students, including preparatory courses leading to a wide range of university degree courses. See pages 46-47 for more information.
The University of Stirling plays home to a diverse international community. To help that community thrive, we’ve teamed up with global education leader INTO University Partnerships.

At INTO University of Stirling, our focus is on the provision of preparatory courses for international students, with the following undergraduate progression options:

- International Foundation programmes
- Undergraduate Degree with International Year One/International Year Two
- Academic English language programmes

These programmes are designed for international students who have the potential to succeed but do not yet meet the requirements for direct entry into an undergraduate degree at the University of Stirling. At INTO University of Stirling, it’s our job to make sure you have an outstanding academic, social and cultural experience that supports your unique needs and potential.

Through our dynamic academic programmes and specialist Academic English language courses, we offer a range of pathways from our state-of-the-art INTO University of Stirling Building designed to help you pursue academic success.

"I chose Stirling primarily because it provided a great opportunity academically, especially for my course, and the facilities were so compelling – I could see myself studying and living here."

BEN BREIGMANN
Germany
International Year One – BA (Hons) Sport Business Management

"Stirling was an easy choice for me. My lecturers are warm and friendly and prominent in the industry. In addition, their practical assessment methods make it so much easier to integrate into working life later."

AAKASH RAMA
Singapore
International Year Two - BA (Hons) Film and Media

ENGLISH LANGUAGE COURSES
If you’re an international student wanting to study with us, INTO University of Stirling offers flexible and intensive English language courses designed to prepare you for your degree. You can take these courses individually or as part of a degree course, and they help you develop your knowledge, ability and confidence in a variety of skills that are essential for study here in Stirling.

PRE-SESSIONAL ENGLISH
For students who meet the academic requirements to study on a University of Stirling degree course but do not have an adequate IELTS score to meet our English language requirements, the University offers a range of pre-sessional English courses. The courses range from 3 to 12 weeks and are designed to improve your IELTS score by up to 1.0 in one or more skills.

stir.ac.uk/pse
WE'RE FLEXIBLE

Flexibility is built into the curriculum at Stirling. In Year 1 and in Year 2 for most degrees you'll generally study a range of subjects across a variety of disciplines. We encourage you to push your boundaries and study the things you're passionate about. That may mean studying subjects that naturally enhance your main degree topic or trying something completely new. Whatever you choose to study, it all counts towards your final degree and you'll earn credits all the way through.

Midway through Year 2 is when we ask you to bring together everything you've learned so far and choose your graduating subject(s). Again, this is completely flexible – you can stick to your original subject choice, add a second subject for Combined Honours or change path completely. It's up to you! Why do we place this emphasis on flexibility? We want every student to get the most out of their time with us, so our ethos is based on offering as many opportunities as possible. Subject choice is a big part of that. Put simply, you're in control, so you have the chance to expand on your interests as they develop and study the things you love.

COMBINED HONOURS

If you do choose a Combined Honours degree, you'll be able to specialise simultaneously in two or more subjects. But choosing to study more than one subject does not mean you'll have to do more work. You'll still take the same number of credits each semester, and will be allowed to choose from a wide range of modules.

ADVANCED ENTRY

If you have excellent A-level, Advanced Higher grades or full HNC/HND qualifications, we also offer Advanced Entry routes that enable you to skip Year 1 study and enter directly into Year 2 of your chosen degree – so you can complete your Honours degree in just three years. Advanced Entry is only available for some courses, so you should consult your preferred course page to learn more.

RESEARCH AT STIRLING MAKES A DIFFERENCE

We believe great ideas and groundbreaking research can transform society and make the world a better place. That's why research is such a crucial part of our learning and teaching, and why almost three-quarters of our research activity is rated either world-leading or internationally excellent*. Our research makes an economic, social and cultural impact on the world, and falls under three interdisciplinary themes: Cultures, Communities and Society; Global Security and Resilience; and Living Well. Whether it’s preventing cancer, helping governments combat the effects of climate change or improving food security in communities across the globe, our researchers are collaborating to solve real-world problems.

Our Aquaculture and Marine Biology experts are ranked top five in the UK for research in Agriculture, Veterinary and Food Science. We’re also first in Scotland and top 15 in the UK for Health Sciences research. We’re in the top 25 UK institutions for Business and Management research, and 100 percent of our Psychology impact case studies are classed as world-leading*.

* Research Excellence Framework 2014
Here at Stirling, we believe in choice. That’s why we offer more than 220 single and combined courses, and you may specialise in multiple subject areas as part of your own unique Combined Honours degree.

If you know exactly which subjects you’d like to study, you can apply for one of our combined courses now – or, thanks to our flexible course structure, you can try out different subjects and decide which ones you’d like to combine later.

After you’ve been accepted onto a course at Stirling, you’ll be asked to sign up for three modules to take in your first semester. One of these modules needs to be in the subject you’ve picked as your degree, but the other two could be from many of the almost 70 Single Honours courses we offer.

If you end up falling in love with your new subjects, you’ll be allowed to mix and match two of them after Semester 3 to create your Combined Honours degree.

**TAKE A LOOK AT SOME EXAMPLES OF DEGREE COMBINATIONS:**

- **Film and Media Studies and Law**
  - BA (Hons)

- **Psychology and Sports Studies**
  - BA (Hons)

- **Philosophy, Religious Studies and Professional Education**
  - BA (Hons)

- **Environmental Science and Politics**
  - BSc (Hons)

- **Accountancy and Spanish**
  - BAcc (Hons)

**Study Abroad opportunities available**

**Part-time study options available**

**Complete your Honours degree in three years, subject to suitable qualifications or experience**

**This course is also available to study overseas with our global partners**

**Integrated undergraduate degree jointly delivered by Forth Valley College and the University of Stirling**

Are you interested in more than one of our courses? You might not have to choose between them.

**Take a look at some examples of degree combinations:**

- **Film and Media Studies and Law**

  - BAcc (Hons)
Accountancy and Finance at Stirling is ranked Top 5 in Scotland according to The Guardian University Guide 2020.

The Bachelor of Accountancy (BAcc) in Accountancy is designed specifically for students planning a career in the accounting profession or the wider financial sector. Having our degree behind you will help you achieve this, as you will gain significant examination exemptions from professional bodies, enabling you to progress quickly in your chosen area of professional study. Many professional bodies recognise the BAcc as a relevant degree, including: ICAS, ACCA, CIMA and CIPFA.

By studying towards the BAcc degree, you will learn that accounting involves the preparation, presentation and interpretation of financial information to enable investors, lenders, management, employees, government and others to make effective decisions.

COURSE CONTENT
In Semesters 1-3, you will study a series of core modules including: Accounting; Finance; Economics; Business Management; and Business Law.

In Semesters 4-8, you will develop a critical understanding and analytical approach to subjects directly relevant to accounting, including: Auditing, Advanced Financial Accounting; Taxation; Personal Financial Planning; and External Reporting.

You will have numerous opportunities to develop appropriate work-related skills at every stage of your studies, including the Professional Development and Practice module in Semester 8, which helps you prepare to enter the workplace.

Our BAcc degree can be taken as a three-year specialist degree or as a four-year Honours degree, which includes writing a dissertation on an accounting topic. A BAcc (Hons) Accountancy and Finance course is also available, which provides scope to study more finance-based topics.

CAREER OPPORTUNITIES
Accountancy offers a wide choice of careers with organisations in every field, from healthcare and sport to charities and local and national governments. Careers include financial and management accounting, auditing, taxation, consultancy and financial services.

Our graduates have found employment as:
- Business Advisory Managers
- Chartered Accountants
- Chief Financial Officers
- Finance Directors
- Management Accountants
- Principal Auditors
- Tax Accountants

This course can be combined with:
- Business Law (NN24); Business Studies (NN94); Economics (LN14); Finance (NN43); Marketing (NN04); Mathematics (GN14); Spanish (NN44); or Sports Studies (NC46).

COURSE COMBINATIONS
This course can be combined with:

ACCAGlobal
CIPFA
ICAS
STIRLING MANAGEMENT SCHOOL
What determines variation in animal resistance to disease? Why do many female animals exhibit mate choice? How can we help animals cope in hostile environments? This course will enable you to study the enormous variety of animal life on earth and discover the answers to these and many other questions.

Our strong research focus on the interaction between people and the environment makes Stirling the ideal place to study organismal biology. Our Faculty studies many facets of organismal biology including: Animal Behaviour; Ecology, Evolution; Cell Biology, and Physiology. We also explore applied aspects of animal conservation and management. Stirling is Scotland’s hub for conservation science, and we have close links with many animal conservation organisations based on campus or in the local area.

Fieldwork is an essential part of your training. In addition to fieldwork in Scotland, we run two optional field courses in Year 4. One course is situated in Southern Europe, such as in the French Cévennes Mountains, a UNESCO World Biosphere Reserve, and the second course is based at Gabon’s Lope National Park, in the heart of the western Congo Basin. Travel, accommodation and subsistence on residential field courses is not included in the course fees.

Additional student costs are kept as low as possible, but include the purchase of a lab coat and some personal lab kit. 100% of our Animal Biology students are in work or further study within six months of graduating.

AQUACULTURE
BSc (Hons)

Our world-leading Institute of Aquaculture is a recipient of the UK’s most prestigious academic honour – the Queen’s Anniversary Prize – and is the largest of its kind in the world.

As part of Stirling’s UK City Region Deal, £11 million for a new Institute of Aquaculture and Global Aquatic Food Security facility has been recently announced.

Keeping our aquatic environments healthy, protected and sustainable is vital for our planet and the people living on it. The aquaculture industry – or aquatic agriculture – already provides over 50 percent of all fish and seafood for human consumption worldwide.

However, aquaculture is more than just ‘fish farming’. It includes the culture of many species, including crocodiles and turtles. Our Aquaculture course will train you in all subjects relevant to global aquaculture.

In Semesters 5 and 6, you could benefit from an exchange programme with various institutions across the world, including Australia, Canada and the USA.

The course enables students to understand the farm and function of aquatic systems, and understand the biology, ecology and management of organisms inhabiting these systems. Students will gain detailed knowledge of various aspects of the aquaculture industry including: production and hatchery systems; nutrition; animal health and disease; and broodstock management. Practical work ensures students can translate theory into practice.

The Institute of Aquaculture enjoys an international reputation in teaching, research, innovation and consultancy. We provide expertise to organisations including: production and hatchery systems; nutrition; animal health and disease; and broodstock management. Practical work ensures students can translate theory into practice.

As well as fieldwork around Scotland, you can contribute to biological discoveries. As part of Stirling’s UK City Region Deal, you can undertake an inspiring 7-day field course in Biology at the CERES Field Centre in Aljezur, Portugal. The field station is situated within the Parque Natural do Sudoeste Alentejano e Costa Vicentina on Portugal’s Atlantic Coast and is one of the richest regions of Europe in terms of animal and plant biodiversity.

Additional student costs are kept as low as possible, but include the purchase of a lab coat and some personal lab kit.

course content

Semesters 1-4 cover biology and marine science modules, including: Our Blue Planet; Our Thrifty Planet; Laboratory Skills; Our Hungry Planet; and Evolution and Genetics.

During Semesters 5-8, optional modules include Microbiology and Animal Physiology, together with specialised topics such as Aquaculture Production Environments, and Genetics and Reproduction, plus an Aquaculture field course.

Aquaculture is not available as a combined Honours degree, but it shares a common foundation with the degree course in Marine Biology, so you have the option to take a degree in Marine Biology until the end of Semester 5.

Additional student costs are kept as low as possible, but include the purchase of a lab coat and some personal lab kit.

CAREER OPPORTUNITIES

A graduate in Aquaculture is well equipped to enter both the expanding field of aquaculture or related positions, including: aquaculture development, aquaculture production, hatchery companies, fish farm companies, environmental impact assessment, environmental and conservation fields; pollution control, pharmaceutical companies, fisheries management and governmental regulatory departments.

In addition, there is a wide range of more general graduate employment, such as with biotechnological companies, bioinformatics, health sciences, the food industry, marketing, science journalism and teaching.

A second degree (MSc or PhD) will often be required for career advancement to more senior research posts, and many of our graduates go on to pursue further study at Stirling or other UK and overseas universities.

Our graduates have found employment as:

• Trainee Fish Farm Managers
• Scientists e.g. Analytical Research
• Health Managers
• Fisheries Technicians e.g. Hatcheries
• Geographic Information Analysts
• Recycling Officers
• Scientists e.g. Analytical Biological/Research/Field/Water etc.
• Waste Management Officers

PT ☛ UCAS CODE: C160

Biology is the study of life. As a Biology student, you will receive training in the molecular and cellular mechanisms that underlie all life, the physiology of living organisms and interactions among and between organisms and their environment. At every stage, conceptual underpinning and practical applications will be emphasised.

As such, our Biology degree is necessarily flexible, providing the broadest possible perspective for the first two years, then enabling you to specialise. In Years 3 and 4, you can specialise to reflect the strengths and interests you develop, whether your interests lie at the level of the biosphere, the whole organism, the cell or the biomolecule. As you develop your practical skills and stimulate your curiosity with projects, you will become involved with ongoing research, giving you the opportunity to contribute to biological discoveries.

As well as fieldwork around Scotland, you can undertake an inspiring 7-day field course in Biology at the CERES Field Centre in Aljezur, Portugal. The field station is situated within the Parque Natural do Sudoeste Alentejano e Costa Vicentina on Portugal’s Atlantic Coast and is one of the richest regions of Europe in terms of animal and plant biodiversity.

COURSE COMBINATIONS

This course can be combined with: Mathematics (C011), Professional Education (C011), Professional Education (Primary) with Specialism in Environmental Education (C011) or Psychology (C113).

COURSE CONTENT

Semesters 1-4 include core modules in: Cell Biology, Physiology, Genetics and Evolution, Ecology, and Practical Skills in Laboratory and Field Settings. You will take a field course in Ecology and Identification Skills, as well as additional modules in other disciplines.

During Semesters 5-6, your module choices include: Plant Ecological; Behavioural Ecology, Applied Immunology; Animal Cell Biology, Microbiology, Animal Physiology, and Population and Community Ecology.

In Semesters 7-8, you will undertake an independent research project, and study between four and six advanced modules from a range of options.

CAREER OPPORTUNITIES

Biology graduates progress to successful careers in the pharmaceutical, biomedical and agricultural industries, among others. Many find employment in conservation, management and environmental agencies.

Other career paths include: the civil service, forensic-science, teaching, the food industry, hospital analytical laboratories, and government and industrial research laboratories.

Our graduates have found employment as:

• Geographical Information Analyst
• Laboratory Technicians
• Microbiologists
• Recycling Officers
• Scientists e.g. Analytical Biological/Research/Field/Water etc.
• Waste Management Officers

This course is not available as a combined degree.
In this course, you will examine just how critical computers are to business. The emphasis is on organisations and how computers are used within them. In addition, you will study the core skills of designing and building software systems. You will gain a broad base of skills by combining theory and practice – a skill set that resonates well with employers, whether in the software industry itself or in a wider and more strategic context, developing the use of IT in any business.

We help our students build a strong link with industry and, during Year 3, you will have the opportunity to take part in a three-month summer placement or a one-year placement. Students also have the opportunity to engage with an international teaching environment through our exchange programmes.

Graduates are fully accredited by the British Computer Society (BCS), The Chartered Institute for IT for the educational requirements of being a Chartered Information Technology Professional (CITP), which is the Society's professional membership level.

3RD IN SCOTLAND FOR COMPUTER SCIENCE
The Guardian University Guide 2019

COURSE CONTENT
In Semesters 1-3, students from our three computing-related degrees take the same core modules in Computing Science. Core topics include: Computational Thinking; Programming Using Java; Social and Professional Issues; Usability and Accessibility of Interfaces; and Data Structures, Objects and Algorithms. There are also three core business modules and you will take one additional subject each semester. Semesters 4-8 cover core computing and business modules that include: Information Systems; Database Principles; Applications; International Business and Entrepreneurship; Computer Security, and Networks, together with optional advanced modules such as Business Analytics or Artificial Intelligence.

Final-year Honours students undertake an independent project, which typically involves designing and developing a computer application within a business context.

CAREER OPPORTUNITIES
Our graduates have knowledge of both business and computing science – a skills combination highly valued by employers. You will be ideally placed to work either in the software industry itself, or in a more strategic role developing the use of IT in business. Employment sectors range from consulting firms to IT users such as governments, banks and insurance companies. Our industrial placements will equip you with work experience designed to help you enter the job market. Employers of graduates in business and financial services include: Prudential, Standard Life Assurance; Bank of Scotland and HSBC; as well as companies such as KANX, CGG, Microsoft and Google.

Our graduates have found employment as:
• Data Engineers
• Systems Analysts

stir.ac.uk/UGBSC

Our focused yet flexible approach to learning means you can undertake a single Honours degree in Business Studies, or one of a number of combined degree courses that bring together Business Studies and another subject. Students intending to specialise in Business Studies are encouraged to take modules in related subject areas, such as Accountancy, Marketing, Retail Studies, Economics or Computing Science.

Whether you route you choose, the knowledge, skills and competencies you gain from this course offer a firm foundation to continue developing your management expertise.

Our teaching staff are active in various areas of current management research, which informs our teaching and ensures our course content is relevant to current trends within business. Guest speakers from a wide range of industries bring relevant to current trends within business. Guest speakers from a wide range of industries bring

COURSE COMBINATIONS
This course can be combined with:
Accountancy (NN116); Economics (QN11); English Studies (NG13); Film and Media (NP13); Finance (NN113); French (NR11); Human Resource Management (NN116); Law (NN111); Management (NN112); Marketing (NN25); Modern Languages (NH115); Politics (LN113); Professional Education (NNX11); Professional Education and Computing Science (NNX21); Psychology (CNB11); Spanish (NR414); or Sports Studies (NC116).

BUSINESS STUDIES
BA (Hons)

COURSES CONTENT
Semesters 1-2 will provide you with a grounding in the subjects of Business and Management, as well as analytical techniques that underpin Business; UCAS CODE: N100

COURSE COMBINATIONS
Students 3-4 focus on Business and Management, including: the Organisation of Business; and the Fundamentals of Business and Management. Semesters 5-8 comprise a series of interlinked core modules, including: International Business; Responsible Business; and Strategic Management. Elective modules include: Human Resource Management; and Project Management. You will have numerous opportunities to develop appropriate work-related skills at every stage of your studies, including the Professional Development and Practice module in Semester 6 or 8, which helps you prepare for entering the workplace. We also offer opportunities for you to gain work experience via internships with a number of local, regional and national organisations.

stir.ac.uk/UGBUS

CAREER OPPORTUNITIES
Business Studies graduates are well placed for a variety of jobs covering many different business sectors. Our graduates have found employment as:
• Business Owners
• Commercial and Business Development Managers
• Company Secretaries
• Finance Managers
• Production Managers
• Senior Market Advisors

Also taught at: Muscat College, Oman, Rasm Al Khaimah Campus, United Arab Emirates

ADDITIONAL INFORMATION

General entry requirements – see page 115. Widening access students may be eligible for an adjusted offer entry – see page 118.

COURSE CONTENT

In Semesters 1-4, you will study the following core modules: Cell Biology, Physiology, Genetics and Evolution; Ecology, and Biodiversity. In addition to the core modules, you will study Laboratory Skills and Statistics. You will take additional modules in other disciplines of your choice. These are often in Biological, Environmental or Aquatic Sciences.

Semesters 5-6 include modules in: Animal Physiology, Microbiology, and Animal Cell and Enzymes and their Applications. Students will also select additional modules such as: Advanced Marine Biology; Applied Immunology, Behavioural Ecology, Plant Ecology, and an Applied Biological Sciences placement.

In Semesters 7-8, you will undertake an independent research project and a number of advanced modules from a range of options, which currently include: Molecular Techniques, Omics and Systems Biology, Molecular Evolution and Phylogenetics and Biological Control Mechanisms, Cell Birth, Life and Death, Genetic Engineering, Immunology and Disease, and Proteomics.

A research project is a major component of the final year, and the project topics offered to you will reflect the active research interests of academic staff.

CAREER OPPORTUNITIES

Cell Biology graduates enter careers in the healthcare, science and pharmaceutical sectors. Specific career paths include working as research assistants/technicians in academia or industry, or teaching in colleges/ schools. A number of our students have progressed onto a postgraduate degree such as an MSc or PhD.

Our graduates have found employment as:

• Laboratory Technicians
• Microbiologists
• Scientists e.g. Analytical Biological Research/SubWater etc.

This course is not available as a combined degree.
CONSERVATION BIOLOGY AND MANAGEMENT

62 C (Hons)

The contemporary world is one of rapidly increasing human interference in natural environments, as well as competition for space and resources. A degree in Conservation Biology and Management will provide you with the framework to develop an understanding of the complex relationships between environments and their inhabitants, as well as the policies and management strategies that aim to safeguard our biodiversity and the ecosystem services upon which humans depend.

Stirling is an ideal place to study this. The city is home to more environmental and conservation organisations than anywhere else in the UK. We have strong links with all these organisations, and some of them are even based at the University.

Our research is at the interface between the environment and society, and includes: Conservation Science; Evolutionary Ecology; Ecosystem Ecology; Hydro-Geomorphology; and Remote Sensing.

The contemporary world is one of rapidly increasing human interference in natural environments, as well as competition for space and resources. A degree in Conservation Biology and Management will provide you with the framework to develop an understanding of the complex relationships between environments and their inhabitants, as well as the policies and management strategies that aim to safeguard our biodiversity and the ecosystem services upon which humans depend.

**Entry – see page 118.**

**How does society work? How are crime and other social problems situated in society, and how do different cultures understand these problems? What can we learn from the success of social policies in other countries?**

Criminology provides a strong academic base if you are considering careers in the police, the prison service; probation; social work; community care and law; regulatory fields such as the factory and tax inspectors; human rights agencies; charitable foundations; and lobby groups.

Our graduates have found employment as:

- Analyst Researchers
- Correction Officers
- Criminal Justice Workers
- Fraud Investigators
- Investigative Assistants
- Police Officers
- Prison Officers

**Faculty: Social Sciences**

Criminology

**BA (Hons)**

**Course content**

Semesters 1-4 cover core modules in foundation subjects, including Sociology, Criminology, Criminal Justice, Policing and Social Policy. Semesters 5-6 cover advanced modules in Environmental Security, and Social and Cultural Consequences of Crime.

Students doing Conservation Biology and Management can choose to enrol on a three-week placement with a relevant organisation in the summer between Years 3 and 4.

In Semesters 7-8, you will undertake a research project and can choose to go on the ecology field course, currently based in the Cévennes National Park in Southern France. Students take up to six modules from a range of options.

Students must pay a contribution towards the cost of travel, accommodation and subsistence for the Scottish field course in Year 2 and the optional field courses in Years 3 and 4.

**Career opportunities**

There is high demand for well-qualified conservation graduates, and students completing a Conservation Biology and Management degree at Stirling work with a range of UK employers. We have strong links with research and conservation bodies in Scotland (e.g. Scottish Natural Heritage, Scottish Environmental Protection Agency, the wider UK and overseas (e.g. International Union for Conservation of Nature, European Environmental Agency, Gobernas National Parks Service, Norwegian Institute for Nature Research), as well as with various non-government conservation organisations such as the Royal Society for the Protection of Birds, British Trust for Ornithology, Bat Conservation Trust, wildlife trusts and environmental consultancies. Other graduates may train as teachers or undertake further study.

Our graduates have found employment as:

- Ecologists
- Energy Advisers
- Environmental Education Officers
- Environmental Managers/Consultants
- Nature/Conservation Officers

**60% of our students say our staff are good at explaining things**

National Student Survey 2018

This course is not available as a combined degree.

**Politics (ML92); Sociology (LM39);**

**Joint Honours (MV95); History (MV96);**

**University of Stirling.**

**Can we learn from the success of social policies in other countries?**

**FACILITATE OF SOCIAL SCIENCES**

**COURSE COMBINATIONS**

This course can be combined with:

- Law (MM91); Philosophy (MV95); Politics (ML92); Sociology (LM39); or Social Policy (LL64).

**COURSE CONTENT**

The Stirling degree structure is very flexible in the first year, allowing you to experiment with new subjects. In Years 1 and 2 are allowed to choose from a range of modules available from non-core subjects across the University. Modules include: Crime; Risk and Modernity; Criminological Theories in Context; Gender; Crime and Justice; Drugs; Crime and Society; Global Markets and Crime; Urban Society; and Honours Seminar – Doing Social Research.

In Year 1, a combination of prescribed and optional modules will formed your chosen combined degree course. The final-year dissertation counts for two modules and will provide you with an opportunity to put research methods studied into practice while focusing on an area of particular interest.

Throughout the duration of the course, you will learn how to identify and recognise the inherent importance and value of a discipline from an economic, social and cultural perspective – and make links between the discipline and professional opportunities. You will learn how to become a critical thinker with analytical and problem-solving abilities, able to repackage and transform knowledge to generate new understanding, that you can then apply creatively in different contexts.

**Career opportunities**

As well as specific subject-based knowledge, you will graduate with a wide range of experience and skills – in particular, communication skills, self-management skills and interpersonal skills, providing you with a competitive edge across the private, public and voluntary sectors. Criminology provides a strong academic base if you are considering careers in the police, the prison service; probation; social work; community care and law; regulatory fields such as the factory and tax inspectors; human rights agencies; charitable foundations; and lobby groups.

Our graduates have found employment as:

- Analyst Researchers
- Correction Officers
- Criminal Justice Workers
- Fraud Investigators
- Investigative Assistants
- Police Officers
- Prison Officers
DATA SCIENCE
BSc (Hons)

Demand for workers with specialist data skills like data scientists and data engineers has more than tripled over five years (+231%), according to a 2019 Royal Society Report ‘Dynamics of data science skills’. The types of skills most frequently required by British employers include scripting languages, big data, SQL databases and machine learning.

Our BSc (Hons) Data Science will give you an in-depth awareness and appreciation of the underlying computing and mathematical principles driving data science technologies. It is a practical degree focusing on the mathematical and analytical skills needed to begin a career as a data scientist or analyst. You will study modules chosen from across Computing Science and Mathematics and will be introduced to database principles and applications. You will study subjects at the core of data science including programming, machine learning and statistics. You will be introduced to database principles and applications and learn cutting edge technology such as Python and NoSQL. The course will teach you what you need to know to collect, manage and analyse big, fast-moving data for science or commerce.

COURSE CONTENT
In Years 1-3 students need to complete 120 credits comprising of compulsory and optional modules, whereas in Year 4 all modules are compulsory.

Year 1 compulsory modules include: Introduction to Computing Science; Mathematics 1: Practical Statistics; Programming and User Interface Design.

Year 2 compulsory modules include: Data Structures; Objects and Algorithms; Database Principles and Applications; Managing Information; Scripting for Data Science.

Year 3 compulsory modules include: Introduction to Machine Learning; Code Analysis and Performance; Statistical Inference; Optimisation; NoSQL Databases; Natural Language Processing and Computer Vision; Data Strategy.

Year 4 includes: Data Science Applications; Computing Science Project; Security; Distributed Data Science Systems.

As an Honours student you will undertake an independent project in your final year. The choice of project topic can be motivated by a particular interest you may have and will allow you to demonstrate a range of skills you have learned throughout the course.

CAREER OPPORTUNITIES
Organisations are increasingly using and collecting larger amounts of data during their everyday operations. From predicting what consumers will buy to tackling environmental and organisational issues, your job is to analyse, visualise and interpret large amounts of data to find patterns and help solve problems faced by businesses in innovative ways.

Data Scientists work across a range of areas including finance, health, retail, food, scientific research, agriculture etc. Graduates from a data science course find employment as:

- Data Engineers
- Data Scientists
- Data Scientists in a research field such as Genomic, Cognitive, Clinical and Healthcare
- Data Solution Architects
- Digital Analytics Engineers
- Machine Learning Data Scientists
- Machine Learning Developers
- Machine Learning Engineers
- Research and Development Data Scientists

Digital Media
BA (Hons)

As the speed of change in the media sector continues to accelerate, the demand for graduates able to embrace new technology and innovative methods of content delivery is also growing.

This course provides students with rigorous and challenging training in the tools, applications and possibilities of the digital environment – from the preparation of journalistic and multimedia content to its effective display and dissemination across television, film, radio, print, online and beyond.

The overarching aim of the course is to make sure graduates are work-ready, and will meet the critical skills requirements of a multi-sector job environment through the development of relevant skills in journalism and related content development technologies.

Students will not only be equipped with the skills to be creative and productive in the digital era, but will also understand the ethical, legal and theoretical dimensions of this industry.

COURSE CONTENT
The Digital Media course combines the applied technological and media-oriented skills of Forth Valley College’s course with the advanced academic training and latest digital expertise of the University.

Semesters 1-4 are based at Forth Valley College (Stirling Campus), and include modules delivered under thematic umbrellas including: An Introduction to Storytelling, Journalism for Digital Media; Creative Economy, Independent Project 1 and 2; Storytelling Theory and Production; and Applied Practice. Students will also participate in the Digital Media and Culture module at the University in semester 4.

Semesters 5-8 are based at the University of Stirling. In Semesters 5 and 6, core modules include: Digital Creativity, and Social Media Marketing. Optional modules include: Production - Online Content; Introduction to Animation; and further optional modules from the Film and Media and Journalism Studies programmes.

In Semester 7, you will choose from advanced modules including: Applied Digital Media; Audio Podcasting; Production - Content Development and Research; Researching the Media and Culture; and Digital Journalism.

As part of a final-year Honours project, you will also complete a 60-credit independent study module. This will take the form of a capstone project or dissertation.

CAREER OPPORTUNITIES
Graduates are work-ready, well-rounded, informed, highly skilled and digitally literate individuals, able to work effectively across a range of media platforms.

Our graduates find employment as:

- Media Planners
- Multimedia Specialists
- Programme Researchers
- Public Relations Officers
- Social Media Managers
- Television/Film/Video Producers
- Web Content Managers
- Workers in Broadcasting, Film and Video

3RD IN SCOTLAND AND TOP 20 IN THE UK FOR COMPUTER SCIENCE AND INFORMATION SYSTEMS

The Guardian University Guide 2019

This course is not available as a combined degree.
People have an enormous impact on their environment through resource use, habitat degradation and climate change. Understanding how our actions impact the ecological balance across the planet has never been more important. Our Ecology course is designed to help you understand how animals, plants, fungi and microorganisms interact with their environment, as well as the relationships between people and the rest of the biosphere. This course covers the core conceptual issues of Ecology in its broadest sense, but also provides hands-on opportunities for learning transferable skills and applying ecological relationships across all types of organisms. Whether you are interested in pursuing an academic career, or want to participate in the practical solution of ecological problems, Ecology will provide you with the tools and concepts you need to make a difference.

Fieldwork - an essential part of training - takes place in Scotland and France. There is also an optional trip to Spain. Additional cost may occur.

Our exchange programmes with institutions across North America and Europe, as well as Australia, mean that you can spend a placement in Scotland and France. There is also an overseas field course in France. They also take between four and six advanced modules from a defined list of options.

The research project in the final year takes up around a third of the timetable, and is strongly linked with the active research interests of academic staff in biological and environmental sciences.

CAREER OPPORTUNITIES

With this well-respected degree, our graduates have entered a range of jobs in academic and applied ecology, including roles as university and government researchers, natural history film-makers, nature reserve managers, and policymakers with environmental agencies and conservation bodies.

Our graduates have found employment as:
- Ecologists
- Energy Advisers
- Environmental Education Officers
- Environmental Managers/Consultants
- Geographic Information Analysts
- Nature/Conservation Officers
- Recycling Officers
- Waste Management Officers

Almost every decision taken in our fast-moving social, commercial and technological world is dictated by economic imperatives at regional, national and global levels.

In the current economic climate, the role of the economist is now becoming more crucial, with the welfare and prosperity of people, communities and nations dependent upon their accurate interpretations and responses to continually shifting environmental, social and economic realities.

2ND IN SCOTLAND AND TOP 10 IN THE UK FOR ECONOMICS

The Guardian University Guide 2020

Almost every decision taken in our fast-moving social, commercial and technological world is dictated by economic imperatives at regional, national and global levels.

In the current economic climate, the role of the economist is now becoming more crucial, with the welfare and prosperity of people, communities and nations dependent upon their accurate interpretations and responses to continually shifting environmental, social and economic realities.
Our courses in Primary Education will equip you with the necessary knowledge and skills to start a career in one of the most rewarding professions. By choosing our Primary Education degree with one of seven specialisms (Modern Languages, the Environment, Inclusive Practice, Literacy, Numeracy, Early Years or Primary School Science (STEM)), you will be demonstrating to future employers that you are a capable and qualified Primary Education teacher. You will study the relevant subject specialism modules at university level, as well as modules focused on education theory and practice. You will be taught by a combination of world-leading academics and outstanding teachers, who are seconded from schools to work at the University. This ensures you have access to a combination of cutting-edge practice and research throughout your study. Our unique model of teaching also allows you to develop gradually as a teacher through having longer to reflect on the integration of theory and practice over four years as opposed to a traditional route of a one-year course.

In partnership with Heriot-Watt University (HMru), Primary Science students will study either Chemistry or Physics at HMru followed by Physiology and Ecology modules at Stirling.

COURSE CONTENT
You will develop your understanding of education theory and practice alongside your subject specialism in Semesters 1–2, and undertake a self-organised placement. In Semesters 3–4, you will continue to study education alongside your subject specialism. You also begin to develop your knowledge and understanding of literacy and numeracy, after your five-week school week, you will undertake an advanced education module with a focus on differences, identities and inclusion. You will also take a module on pedagogy, policy and practice in relation to your subject specialism. Semester 7 includes a ten-week school experience, with opportunities to teach your chosen specialism. In Semester 8, you will complete an Enquiry into Practice that is closely related to your placement, and undertake an independent study of your choice linked to your chosen specialism.

CAREER OPPORTUNITIES
The majority of our graduates enter the Scottish Government’s Probationary Teacher Scheme, which entitles them to guaranteed employment for one year as a newly qualified teacher in a Scottish local authority school. Other roles include: corporate training and development; museum and leisure education; educational psychology; translation; or media. Other qualifications

Scottish HNC/HND: Minimum entry: B in graded unit. Access courses and other UK/ EU and international qualifications are also welcomed.

ADDITIONAL INFORMATION
General entry requirements apply – see pages 115-117. Widening access students may be eligible for an adjusted offer entry – see page 118.

Entry to these courses is provisional until the end of Year 1, and subject to interview and criminal record PVG check.

---

We offer a wide range of courses to prospective secondary school teachers that enable them to gain a research-informed degree in Professional Education, studying both pedagogy with a first teaching subject or subjects (see degree combinations below). Our distinctive courses, studied over four years rather than the traditional five, have been offered for over 40 years, and our confidence in this process is validated by the recommendations of the Donaldson Report into Teacher Education.

You will be taught by a combination of world-leading academics and outstanding teachers, who are seconded from schools to work at the University. This ensures you have access to a combination of cutting-edge practice and research throughout your study. We review and modify our courses to take account of the changing educational context to ensure you have the most up-to-date knowledge and skills for teaching. We also work in close partnership with the Local Authorities, schools, Education Scotland and the General Teaching Council for Scotland to ensure you are supported throughout your studies.

COURSE CONTENT
Students 1-2 cover core Education modules, with further Education modules taken in Semesters 3-6, including a range of teaching skills in your chosen subjects. There will be a two-week placement in Semester 2, followed by two school placements of three-to-five weeks between Semesters 3-4 and 5-6. Physical Education students will take part in an additional four-week placement. During Semester 6, you will spend five half-days in school.

Semester 7 includes a ten-week placement. In Semester 8, students will complete their Enquiry into Practice and undertake further study in their main teaching subject. Students studying Chemistry, Engineering Technology or Physics at Heriot-Watt can combine this with a teaching qualification here at Stirling. You will study your subject at Heriot-Watt, and study education modules alongside Secondary Education students at Stirling. You will follow the same core and advanced Education modules as other Education students, and undertake the same three school placements.

---

CAREER OPPORTUNITIES
The majority of our graduates enter the Scottish Government’s Probationary Teacher Scheme, which entitles them to guaranteed employment for one year as a newly qualified teacher in a Scottish Local Authority school. Other roles include: corporate training and development; museum and leisure education; educational psychology; translation; or media. Our graduates have found employment as:

• Authors
• Curriculum Specialists
• Educational Psychologists
• Principal Teachers
• Senior Lecturers
• Training and Development Managers

ACCREDITATION
Recently reaccredited by the General Teaching Council of Scotland with seven commendations, including being student-centred and the high quality of our research-informed approaches.

---
Course Content
In Semesters 1-2, you will take two compulsory modules: Introduction to English Studies: Genres; and Introduction to English Studies: Theories and Approaches; plus four additional modules from other disciplines, which could include Linguistics.
In Semester 3, you will study Literary Revolutions.
In Semester 4, you will study a choice of core modules including: Writing and History; Writing and Theory; and Writing and Language. In Semester 5, students choose from several period-based modules, including: Renaissance literature, 1500-1660; The Literature of the Middle Ages; British Romanticism; Victorian Literature and Culture; and Modernism and Modernity. Semester 6-7 cover a range of optional modules which may include: Modern Gothic; American Literature; Victorian Popular Fiction; Tragedy; Scottish Literature; Jane Austen; Creative Writing; Documenting the Eighteenth Century; and Rotten English. The final semester will be spent writing your dissertation, supervised by your tutor.

Career Opportunities
The ability to think and write clearly is extremely valuable in many careers and professions. Our graduates are well prepared in these transferable skills, and have an excellent success rate in finding rewarding employment in many fields like teaching, TV, advertising, marketing, PR, journalism, charity or arts administration, publishing, broadcasting and creative writing. Our graduates have found employment as:

- Copy Editors/Proofreaders
- Customer Service Managers
- English Teachers
- Event Producers
- Journalists
- Press Officers

Course Combinations
This course can be combined with: Business Studies (NX13); Film and Media (QP33); French (QR31); History (QY31); History and Professional Education (QXHC); Journalism Studies (QY35); Philosophy (QY35); Politics (QL32); Professional Education (QX35); Psychology (QC38); Religion and Professional Education (QX31); or Spanish (QR34).

Environmental Geography/Environmental Science and Outdoor Education

UCAS CODE - GEOGRAPHY: Y12C UCAS CODE - ENV. SCIENCE: FX99

Typical Requirements
YEAR 1 ENTRY – Four-Year Honours
SQA Higher/Advanced Higher: AABB – by the end of S5 AAAB – by the end of S6 GCE A-levels: BBB IB Diploma: 32

YEAR 2 ENTRY – Three-Year Honours

2nd in Scotland for Literature in English
National Student Survey 2019

Environment Geography

Environmental Geography combines a solid foundation of theory with extensive hands-on practice, giving you an in-depth understanding of environmental, geographical and ecological issues.

If you have an interest in outdoor activities and are able to demonstrate your enthusiasm or participation in such activities, then one of these courses might be the right one for you.

In addition, you will gain the Mountain Leader Award, which is endorsed by the Mountain Training Association and provides you with training in navigation, mountain hazards and other outdoor leadership skills. Lectures and tutorials are combined with practical in-the-field learning, making this a physically demanding course requiring a certain level of health, fitness and mobility.

Career Opportunities
Graduates have found work as Countryside Rangers, guides and environmental science or geography educators – raising public awareness of environmental issues – and other careers specific to outdoor education. Our graduates have found employment as:

- Ecologists
- Energy Advisers
- Environmental Education Officers
- Environmental Managers/Consultants
- Geographic Information Analysts
- Laboratory Technicians
- Microbiologists
- Nature/Conservation Officers
- Recycling Officers
- Scientists e.g. Analytical Biological/Research/Soil/Water etc.
- Waste Management Officers

This course is not available as a combined degree.
ENVIRONMENTAL SCIENCE
BSc (Hons)

This course offers innovative, interdisciplinary training for students who want to address the world’s most pressing environmental challenges. The environmental systems on which our society depends are complex and fragile. To understand these systems, environmental scientists need to take an interdisciplinary approach that combines knowledge of the physical, chemical and biological processes with how these interact over space and time to shape our natural environment and its interaction with human society.

We were one of the first universities to introduce an Environmental Science degree in the UK. Our course is accredited by the Institution of Environmental Sciences (IES) and our students are entitled to free Student Membership of the Institute.

We are committed to educating students in work-relevant skills demanded by employers, which is why a specialist skills module is included in each semester of our course, and regular careers sessions are embedded into core teaching. Field training is a fundamental element that includes field courses in the UK, Ireland and Spain. Additional cost may occur.

Our exchange programmes with institutions across North America and Europe, as well as several universities in Asia and Australia, mean that you can spend one semester studying abroad during Year 3.

COURSE CONTENT
Semesters 1-4 will explore the science behind the global physical, chemical and biological processes that shape our natural environment. Training in laboratory and field skills is provided through a series of core and optional modules, including a residential field trip to Aviemore or the Lake District.

Semesters 5-8 will provide specialist training in core modules, including: Environmental Policy and Management; Geographical Information Systems; and Methods and Applications in Environmental Science. These are complemented by a range of other modules.

CAREER OPPORTUNITIES
Our focus on providing technical field and laboratory training, as well as scientific knowledge, means our graduates are highly employable. Many go on to work in a wide range of organisations including water authorities, renewable energy companies, conservation bodies, environmental consultancies, local authorities and government agencies – or take up postgraduate study in education, environmental management, and information technology.

Our graduates have found employment as:
- Ecologists
- Energy Advisers
- Environmental Education Officers
- Environmental Managers/Consultants
- Geographical Information Analysts
- Laboratory Technicians
- Microbiologists
- Natural/Conservation Officers
- Recycling Officers
- Scientists e.g. Analytical Biological/ Research/Soil/Water etc.
- Waste Management Officers
- Research/Soil/Water etc.

PT UCAS CODE: F900
TYPICAL REQUIREMENTS
YEAR 1 ENTRY – FOUR-YEAR HONOURS
GCE A-levels: ABB
IB Diploma: 32
BTEC (Level 3): DDM
Essential subjects: To include Biology and one of Geography, Environmental Science, Geography, Geology, Mathematics or Physics.

STANDARD ENTRY – THREE-YEAR HONOURS
GCE A-levels: ABB
IB Diploma: 32
Essential subjects: To include Biology and one of Chemistry, Environmental Science, Geography, Geology, Mathematics or Physics.

OTHER QUALIFICATIONS
Scottish HNC/HND: Minimum entry: Bs in graded unit. Advanced entry: Please consult website for details.
Access courses and other UK/EU and international qualifications are also welcomed.

ADDITIONAL INFORMATION
General entry requirements apply – see pages 115-117.

 Widening access students may be eligible for an adjusted offer entry – see page 118.

 Standard entry into the MSci course is the equivalent of Year 2 of the standard BSc course.

This course is directly aimed at students who want to gain employment in the environmental sector, whether in research institutes, environmental consultancies, environmental protection agencies, water authorities or conservation bodies. Others may go on to further their careers through postgraduate research culminating in the award of a PhD.

Our graduates have found employment as:
- Ecologists
- Energy Advisers
- Environmental Education Officers
- Environmental Managers/Consultants
- Geographical Information Analysts
- Laboratory Technicians
- Microbiologists
- Natural/Conservation Officers

BTEC (Level 3): DDM
Essential subjects: To include one of Biology, Chemistry, Environmental Science, Geography, Geology, Mathematics or Physics.

TOP 5 IN SCOTLAND FOR GEOGRAPHY AND ENVIRONMENTAL STUDIES
The Guardian University Guide 2019

This was the first Environmental Science MSci to be offered in Scotland, and is accredited by the Institution of Environmental Sciences (IES). Environmental science has grown out of increasing concern for the environment and the need for a scientific approach to the study of human impacts on natural resources. Our course provides the necessary scientific grounding and technical training to investigate these problems and identify solutions.

It leads directly to a postgraduate qualification, and is designed specifically for students who want to pursue a career in the environment sector. It offers an environmental placement and an industry-linked final-year project, equipping you with the key knowledge, skills and career awareness to succeed in the environmental sciences sector.

COURSE CONTENT
Years 1 and 2 will give you the basic knowledge and analytical skills in Environmental Science, Geosciences, Ecology and Physical Geography that underpin the degree.

In Year 3, you can choose from more specialist modules in Environmental Systems, Environmental Management and Environmental Technologies.

In Year 4, the choice of advanced modules continues with a wide range of subjects available. There is an emphasis on career development and employability skills, with an extended placement module.

You will also organise and present at a symposium on environmental careers for students in earlier years.

In your final year, you will undertake a significant piece of independent research in partnership with an environmental organisation, and also choose from a range of specialist environmental management modules focused on the energy, conservation and environmental sectors.

CAREER OPPORTUNITIES
This course is directly aimed at students who want to gain employment in the environmental sector, whether in research institutes, environmental consultancies, environmental protection agencies, water authorities or conservation bodies. Others may go on to further their careers through postgraduate research culminating in the award of a PhD.

Our graduates have found employment as:
- Ecologists
- Energy Advisers
- Environmental Education Officers
- Environmental Managers/Consultants
- Geographical Information Analysts
- Laboratory Technicians
- Microbiologists
- Natural/Conservation Officers
- Recycling Officers
- Scientists e.g. Analytical Biological/ Research/Soil/Water etc.
- Waste Management Officers

TOP 5 IN SCOTLAND FOR GEOGRAPHY AND ENVIRONMENTAL STUDIES

This course is not available as a combined degree.

stir.ac.uk/UGENS

stir.ac.uk/UGESM
Events range in scope, scale and complexity – from mega-events and international festivals to traditional gatherings and on-trend corporate events – boosting the economy, energising communities and attracting visitors. They cover a diverse array of activities, from sport, music and culture, to product launches and fundraising.

A successful events manager must have abilities in a wide range of subject areas. The Events Management course crosses the boundaries between marketing, human resources, finance, planning and other business skills to develop multi-disciplined, creative leaders able to deliver the largest event down to the smallest detail.

The focus on events as a management form represents a dynamic approach relevant to event organisations that strive to produce memorable experiences and fulfil a range of community, business and government objectives. This course produces graduates well-versed in the largest event down to the smallest detail.

Upon graduation, students will be able to apply sound analytical techniques and to product launches and fundraising.

COURSE CONTENT

There are three key components to the Events Management course: Events Management and Technical Expertise; Business Enterprise; and Market Awareness. Each of these components is represented throughout the course, creating a unique balance between generic business study elements and the more industry-focused events and consumer experience-based modules.

Year 1-2 are designed to provide a broad grounding in the subjects of business and management, with a global perspective. You will study one core module per semester in Years 1-2, leaving the flexibility to choose from a range of options from across the Stirling Management School and wider University.

Year 3-4 provide you with theory and applications of Event Management, including: the Development of Sustainable Events; Digital and Experiential Marketing; Managing the Consumer Experience; Project Management; Effective Communication and External Relations for Managers.

In the final year, there is the option to work on an individual events-related project or dissertation and engage with an industry organisation on a consultancy project.

You will have numerous opportunities to develop appropriate work-related skills at every stage of your studies, including the option of the Professional Development and Practice module in Year 3 or 4, which helps you prepare for entering the workplace.

Career Opportunities

Upon graduation, students will be able to apply sound analytical techniques and management skills to the challenges faced by the events management industry. There are many opportunities across a range of sectors, including the management of teams and venues relating to conferences and corporate events, music festivals and cultural events, sport events, community events, weddings and charity fundraising.

ST IN SCOTLAND AND TOP 10 IN THE UK FOR MEDIA AND FILM STUDIES

The Guardian University Guide 2019

We are pioneers in Film and Media education and research, and have been nationally and internationally active in the field since 1978.

Our Film and Media degree combines analysis and practice. You will develop the critical and theoretical skills you need to study film, broadcasting, journalism, digital media, advertising and public relations. You will have the option of selecting modules devoted to audio and video production, and of developing related skills.

Our students get the chance to develop their skills within a supportive and stimulating environment. Teaching staff include specialists in gender, broadcast production, documentary, scriptwriting, radio drama, Scottish cinema, film philosophy, public relations and digital media. The course is strengthened by regular input from our industry advisory board of professionals, who offer a diverse range of experience and expertise.

As well as our excellent teaching and research, you will benefit from access to the Macrobert Arts Centre, our on-campus, multiscreen cinema and theatre. This excellent resource is represented throughout the year, including film and cultural festivals. Students also choose to contribute to our campus television station and filmmaking group, ArtV, and to ArtR, the listings magazine.

COURSE COMBINATIONS

This course can be combined with: Business Studies (NP13); English Studies (QP33); French (PN13); History (PV31); Journalism Studies (QP35); Law (PN31); Marketing (PN35); Philosophy (VP35); Politics (PL32); Psychology (CP38); Religion (VP36); Sociology (UP33); Spanish (RP43); or Sports Studies (CP63).

CAREER OPPORTUNITIES

Many Film and Media students have established successful careers in the media. These include broadcast and print journalism, television, radio and film production, media management, advertising and public relations. Transferable skills also mean that some students have established careers in more traditional areas such as education, banking and the civil service.

Our graduates have found employment as:
- Media Planners
- Multimedia Specialists
- Programme Researchers
- Public Relations Officers
- Social Media Managers
- Television, Film and Video Producers
- Web Content Managers
- Workers in Broadcasting, Film and Video

FACULTY OF ARTS AND HUMANITIES

STIRLING MANAGEMENT SCHOOL

FINANCE
BA (Hons)

UCAS CODE: N300

TYPICAL REQUIREMENTS
YEAR 1 ENTRY – FOUR-YEAR HONOURS
SQA Higher: AABB – by the end of S5
AAAAB – by the end of S6
GCE A-levels: BBB
IB Diploma: 32
BTEC (Level 3): DDD

Essential subjects: Mathematics preferred.

ADDITIONAL INFORMATION
Widening Access students may also be welcomed.

Access courses and other UK/EU and international qualifications are also welcomed.

COURSE CONTENT
In Semesters 1-3, you will study the core modules in Finance, Accounting and Economics, and two other subjects per semester.

Semesters 4-8 cover core advanced modules, including: Mergers and Acquisitions; International Finance; and Financial Analysis. You can choose further advanced modules in Accountancy and Finance from a list of electives, or from those required by the particular degree course you are following.

You will have numerous opportunities to develop appropriate, work-related skills at every stage of your studies, including the Professional Development and Practice module in Semester 8, which helps you prepare for entering the workplace.

CAREER OPPORTUNITIES
Many significant decisions made by companies, individuals and financial institutions require the analytical skills and professional judgment developed by studying Finance. Accordingly, a wide range of career opportunities are available to graduates of this discipline.

Our graduates have found employment as:

• Auditors
• Group Financial Controllers
• Investment Directors
• Senior Financial Directors
• Senior Mergers and Acquisitions Managers

COURSE COMBINATIONS
This course can be combined with: Accountancy (GN44); Business Studies (GR13); Economics (GN13); or Mathematics (GN13).

COURSE CONTENT
French at Stirling focuses on the contemporary, global nature of French language and culture today.

Through studying language, literature and film you will develop a cultural awareness of France and its place in the world. You will explore ethnic diversity in contemporary France, and the complexities of Francophone cultures in places as diverse as Quebec, the Maghreb and sub-Saharan Africa.

This course can be combined with: Business Studies (GR13); Computing Science (GR41); English Studies (QR31); Film and Media (RP13); History (RV11); Human Resource Management (NR01); Journalism Studies (RP15); Law (RM11); Marketing (NR1); Mathematics (GR11); Philosophy (RV15); Politics (LR21); Professional Education (Primary) with Modern Languages (XR13); Professional Education (Secondary) (RX11); Religion (RV16); Spanish (RR14); or Spanish and Professional Education (Secondary) (RXD1).

3RD IN SCOTLAND AND TOP 20 IN THE UK FOR FRENCH
The Complete University Guide 2020

stir.ac.uk/UGFRE

CAREER OPPORTUNITIES
Language graduates are confident communicators with an ability to adapt well to new environments. In recent years, our graduates have progressed to careers in publishing, journalism, television, advertising, translating, law, teaching in French or English as a foreign language, administration and management.

Our graduates have found employment as:

• Editors
• Export Managers
• Proofreaders
• Teachers (French, English etc.)
• Translation Managers

stir.ac.uk/UGFRE
This is a unique course rooted in the real world that equips our graduates with the skills to face global challenges in the 21st century.

Environmental Geography is the integrated study of the world, its landscapes, places, people, and their relationship with the environment. It seeks to make sense of the world we live in, and is unique in bridging the environmental and social sciences.

While Physical Geography and Human Geography are disciplines in their own right, Environmental Geography combines these subjects to provide a much-needed capability to study and understand interactions between people and the environments in which they live.

Environmental geographers have expert knowledge and skills to research, analyse and communicate how the changing environment affects our lives. They visualise geographical issues at different spatial scales, from global to local, and offer solutions to some of our most pressing environmental problems.

You will apply these skills to understanding the biophysical processes that drive environmental change – and to real-world issues including food, energy and water security – set within political and economic frameworks.

3RD IN SCOTLAND AND TOP 20 IN THE UK FOR GEOGRAPHY Times and Sunday Times Good University Guide 2019

COURSE CONTENT

Semesters 1-4 cover the following core modules: Physical Geography, Geology, Geography, People and Environment, Environmental Issues, and Statistical Techniques, plus additional modules from a wide range of options including a residential field course.

Semesters 5-8 offer a more specialised approach. You will study advanced modules on themes including: sustainable environmental resources; palaeo-environments; earth-surface processes; remote sensing and GIS, and contemporary environmental issues. A further element of the course is a residential field class in Spain or Iceland which involves an additional cost. All our final-year students develop research skills through their Honours research project.

Students have the opportunity to undertake Study Abroad during the third year of the course; this may be for a Semester or for the full academic year (two Semesters). We have a long-standing and highly successful exchange programme in Europe and North America.

CAREER OPPORTUNITIES

Environmental Geography graduates are equipped with a unique combination of subject-specific and transferable skills, enabling them to develop their understanding of the relationships between environment and people. These skills, along with experience in fields like investigation, problem-solving, team working, communication and geographical information technology, make them highly sought after by a wide range of industrial, commercial and public-sector employers.

Our graduates have found employment as:

- Ecologists
- Environmental Impact Assessors
- Geographic Information Analysts
- Geomorphologists
- NatureConservation Officers
- Recycling Officers
- Urban Designers
- Waste Management Officers

This course can be combined with:
- Environmental Geography and Professional Education (FYX3); or
- Environmental Geography and Outdoor Education (Y21C).

This course is not available as a combined degree.
If you really want to understand the modern world, it is essential to understand the past. Here at Stirling, we have developed different and innovative ways to help you do that.

Our History course will equip you with a range of intellectual and personal skills. You will gain an awareness of how different societies across the world have changed over time by exploring areas such as Scottish, British, European, American and African history. You will engage with different types of history, such as political, social, cultural, gender, computer and environmental.

History may be studied in combination with a range of other subjects.

A History degree sets the kind of intellectual challenges and fosters particular skills that employers have always recognised and valued. These include: the ability to argue a persuasive case; a capacity for independent work and effective time management; an ability to organise and solve problems; and a capacity to communicate clearly, both in writing and speech.

CAREER OPPORTUNITIES

Our History graduates have been successful in obtaining a wide variety of posts – some in history-related areas, such as teaching or work in museums and libraries, and others in fields such as administration, commerce, the civil service, banking and insurance.

Our graduates have found employment as:

- Academic Librarians
- Archivists
- Broadcast Journalists
- Civil Service Administrators
- Conservation Officers
- Editorial Assistants
- Heritage Managers
- Historic Buildings Inspectors
- Information Officers
- Museum Education Officers
- Museum and Gallery Curators
- Secondary School Teachers

COURSE COMBINATIONS

This course can be combined with:

- English Studies (QV13)
- English Studies/Professional Education (QXHC)
- Film and Media (PV31)
- French (RV11)
- Journalism Studies (VP15)
- Law (MV11)
- Philosophy (VY13)
- Politics (LV12)

- Sociology/Professional Education (VX31)
- Spanish (RV41)
- Sports Studies (VC16)

HUMAN RESOURCE MANAGEMENT

BA (Hons)

Human Resource Management (HRM) is a function within an organisation that is performance focused, and students can expect to learn how HR professionals contribute to the strategic goals of the organization through managing employee recruitment, performance and individual development effectively.

Specialists in this role work closely with operational managers to develop and promote the employment relationship, enhance individual and team performance and ensure that workers are fairly treated. HRM also attempts to increase the organisation’s ability to adapt within its environment through broadening the skills of the workforce. As such, HR specialists also need a good understanding of the labour market and their organisation’s wider social, economic and political environments.

COURSE COMBINATIONS

This course can be combined with:

- Business Studies (MV16)
- French (RV11)
- Law (MV16)
- Marketing (NV65)
- Psychology (NC68)
- Spanish (NR64)

CAREER OPPORTUNITIES

The BA (Hons) Human Resource Management is highly relevant to the world of work, and students taking the degree at our Stirling campus will be eligible for associate membership of the Chartered Institute of Personnel and Development (CIPD) upon successful completion of the course.* Students completing single honours and combined HRM degrees are well qualified for specialist careers both in HRM and general management.

Focusing on understanding employment in the widest sense, this course also enables graduates to take up roles in trade unions, employment-related charities, government departments, non-governmental organisations and employment research bodies.

Our graduates have found employment as:

- Account Managers
- Business Analysts
- Chief Executive Officers
- Human Resource Consultants
- Human Resource Directors
- Human Resource Managers
- Recruitment Managers
Graduates with business and marketing skills, combined with a strong knowledge of European languages and society, are highly sought after in the global job market. Choosing this course could be your first step to an international career.

During this course, you will combine aspects of international business and marketing with the study of either French or Spanish – as well as the economic, political, social and cultural environment in which international business is conducted.

You will spend Semester 6 studying in either Spain or Latin America, or at one of our French language partners across France, Switzerland, Canada or Morocco. Eligible students taking two languages can take a year out at the end of Year 2 to work as language assistants in France (or another Francophone location), Spain or Latin America. You will then spend Semester 6 in the country of your second language, so you’ll spend two lengthy periods in French and Spanish-speaking countries.

COURSE CONTENT
This course involves the study of three subject areas: geography, economy, government, and society. Students study the following modules: French or Spanish Business and Marketing, as well as options in their third subject area, and continue with high-level written and spoken language work including translation. Semester 6 is an integral Study Abroad semester.

CAREER OPPORTUNITIES
Our graduates have a strong command of one or more languages, and have studied management subjects within a global context. They are ideally equipped for careers in international business or marketing.

Recent graduates have progressed to positions in advertising, marketing, banking and management – securing positions with leading manufacturers and retailers, financial institutions and communications companies.

Our graduates have found employment as:
- Business Consultants
- Company Secretaries
- Data Analysts
- Investment Directors
- Project Services Managers
- Editors
- Export Managers
- Proofreaders
- Teachers
- Translation Managers

This course is not available as a combined degree.

SPIED A SEMESTER IN SPAIN, LATIN AMERICA, FRANCE, SWITZERLAND, CANADA OR MOROCO
At Stirling, we offer two BA (Hons) Law courses: one in Business Law and the other in Law. Both will be set against a wider social or business context.

The Business Law course caters for students considering a career in business. Semesters 1-4 of the degree introduce the building blocks of Business Law, with core modules including: Law in the 21st Century; Criminal Law; Business Law; and Law of Commerce.

In Semesters 5-8, you will choose advanced modules from specialist legal topics, including: Competition Law; Sports Law; Labour Law; and Intellectual Property Law. The Law course provides a broad understanding of a wide range of areas. Semesters 1-3 introduce the subject through core modules, which include Criminal Law and Family Law.

In Semesters 4-8, you will choose from the range of specialist legal topics mentioned above for the BA (Hons) Business Law, including: Child Law; International Human Rights Law; and Environmental Law.

Recent success for our Law BA graduates includes recruitment to Ashurst LLP; Morgan Stanley, Santander UK Corporate & Commercial, Provisa UK, Mono Consultants Ltd and JP Morgan Chase & Co.

Our graduates have found employment as:
- Business Development Executives
- Business Relations Managers
- Legal Counsels
- Managers
- Public Relations Account Executives
- Business Relations Managers
- Public Relations Account Executives

Recent graduates have been recruited to CMS Cameron McKenna LLP, Ashurst LLP, Harper Macleod LLP, Martin Johnston & Socha, Scotland Malawi Partnership, Thorntons LLP, Softcat plc, Morgan Stanley, Ministry of Justice UK, Glasgow Caledonian University, COPFS and more.

Graduate entrants can obtain the LLB after two years of study concentrating on the core modules. For more information, please contact Admissions.

COURSE CONTENT

Semesters 1-4 will cover Business and Marine Science modules, including: Our Blue Planet; Science of Dying, Our Thrifty Planet; and Evolution and Genetics.

Our course is truly multidisciplinary. It draws on other Biology disciplines, including Ecology and the physical and environmental sciences, to understand a habitat that covers around 71 percent of the earth’s surface.

The programme enables students to understand the form, function and dynamics of aquatic systems, specifically marine systems, and understand the biology, ecology, taxonomy and management of organisms inhabiting these systems. Students will gain knowledge of diving science and other underwater techniques, and understand their importance in a professional capacity.

Practical work ensures students can translate theory into practice.

Through the Study Abroad scheme, our students often spend part of Year 3 studying in places such as the USA (including Hawaii and California), Canada or Australia.

The final year of study involves an independent research project, often carried out with external organisations. Overseas projects in Semester 8 are encouraged and have previously been located throughout Europe, North and South America, the Indian subcontinent, Asia and Oceania.

Our world-leading Institute of Aquaculture is a recipient of the UK’s most prestigious academic honour – the Queen’s Anniversary Prize – and the largest of its kind in the world, with an excellent international reputation in teaching, research, innovation and consultancy. We collaborate with academic research institutions throughout Europe and beyond, including China, Brazil, Norway and Thailand.

Our students are sought after in relevant areas of employment in both public and private sectors, such as environmental protection, environmental impact assessment, environmental and conservation fields, pollution control, water companies, tourism, fisheries management, governmental regulatory departments and the fast-growing aquaculture sector.

In addition, there is a wide range of more general graduate employment, such as with biotechnological companies, bioinformatics, health sciences sales, the food industry, and marketing, science journalism and teaching.

A second degree (MSc or PhD) will often be required for career advancement to more senior research posts, and many of our graduates go on to pursue further study.

Our graduates have found employment as:
- Environmental Engineers
- Marine Biology Technicians
- Marine Biotechnologists/Ecologists
- Marine Ecology Consultants and Researchers
- Marine Policy Experts
- Oil Spill Response Specialists
- Reef Restoration Project Managers

This course is not available as a combined degree.

FACULTY OF NATURAL SCIENCES

Marine Biology

BSc (Hons)

管理

BSc (Hons)

M
Marketing
BA (Hons)

Every business has end users or customers and every successful business correctly identifies its customers and strives to deliver what they want in order to keep them. If you combine logical analysis with creative intuition, then Marketing may be the right degree for you.

Marketing is at the centre of what businesses do. It helps organisations work out how they can identify and satisfy customer needs using strategic thinking, business acumen and carefully designed communications.

The teaching options available on this course reflect the specialist expertise of staff, who have an active interest in particular topic areas, such as social marketing and consumers and culture and society. This contributes to the current international perspective of the course.

### COURSE CONTENT
Semesters 1-2 will provide fundamentals of marketing and a background in business-related modules, which will be taught alongside other Management students. These modules include: The Global Business Environment - An Introduction; and The Management Challenge - An Introduction. Semesters 3-4 will further your understanding of marketing, and you will also choose four elective modules.

Year 2 entry is available for suitably qualified candidates who can expect a seamless transition into Semester 3.

Semesters 5-8 modules include: Understanding Consumers; Delivering Value in the Digital Age; along with elective modules drawn from current marketing activities.

Statistics are being taught as part of the dissertation module.

You will also undertake a Marketing and Retail Consultancy project designed to engage you with current ‘live’ business practices.

You will have numerous opportunities to develop appropriate work-related skills at every stage of your studies, including the option of the Professional Development and Practice module in Semester 8, which helps you prepare for entering the workplace.

### CAREER OPPORTUNITIES
Marketing students acquire a comprehensive range of analytical, problem-solving and professional skills that are increasingly valued in industry, commerce, education, government and non-profit organisations.

As your acquired skills have applications in most walks of life, a Marketing degree can become your entry to a specialised marketing career or to a more general management career in a wide range of sectors.

Our graduates have found employment as:

- Brand Communications Managers
- Business Owners
- Commercial Managers
- Marketing Managers
- Product Managers
- Project Managers
- Public Relations Managers

**Course combinations**
This course can be combined with:
- Accountancy (NNN45); Business Studies (NNN25); Economics (NLS15); Film and Media (PN35); French (NSR11); Human Resource Management (NNN65); Law (MN15); Marketing and Sociology (L135); Psychology (CNN85); Spanish (NSR84); or Sports Studies (NC56).

**The combined Sports Studies and Marketing course may also be studied at the Singapore Institute of Management (SIM), Singapore.**
Mathematics and Applied Mathematics

**BSc (Hons)**

**Course Content**
In Semesters 1-3, you will take Mathematics plus two other subjects. Material covered at secondary level is reviewed and applied before being developed further, ensuring a smooth transition from a school teaching approach to a university one. You will take core modules in: Calculus of One and Several Variables; Vectors, Matrices, Complex Numbers and their Application in Geometry and Systems Theory; Statistics and Probability; and Analysis. You can also opt to take additional mathematics modules in Discrete Structures and Practical Statistics. In Semesters 4-8, the Applied Mathematics Honours course covers a broad range of skills. Advanced modules cover the following key areas: mathematical techniques for solving a wide range of problems, and the theory underlying these mathematical techniques; model building; statistical data analysis; multivariate methods and statistical inference. This will include projects that allow further development of skills in areas of applied mathematics.

**Career Opportunities**
In business, research and the sciences, there is a growing need for graduates with mathematical skills. This course provides both the theoretical background and the quantitative skills you need to solve real-world problems.

Our graduates have found employment as:
- Actualists
- Chartered Accountants
- Data Analysts
- Data Scientists
- Investment Analysts
- Research Scientists
- Secondary School Teachers
- Statisticians
- Systems Developers

**Course Combinations**
This course can be combined with: Accountancy (GH14); Biology (GS11); Computing Science (GG40); Economics (GG11); Environmental Science (GG15); Finance (GH13); French (GR11); Professional Education/Computing Science (GX91); or Psychology (GB81).

General entry requirements apply – see pages 115-117.

**Top 5 in Scotland for Modern Languages**

The Guardian University Guide 2019

While English may be an international language, it is far from the only one. With long-established relationships across the globe, French and Spanish are languages spoken all over the world.

This is why we study them from a global perspective at Stirling, exploring wide-ranging perspectives and opportunities on offer to study, live and work in other countries.

In Semester 6, Honours students spend a period of residence abroad, studying at a university or business school in France, Spain, Morocco, Switzerland, Quebec or Latin America. Additionally, eligible students will have the option of spending a year abroad as a language assistant between Semesters 4-5 via a British Council-run scheme.

Students who study both languages will need to fulfil the minimum residence requirement for their second language.

**CAREER OPPORTUNITIES**
Languages graduates are confident communicators and highly sought after by employers. The combination of subjects available with either French or Spanish, in some cases both, allows students to go on to a wide variety of careers.

Our graduates have found employment as:
- Broadcast Journalists
- Diplomatic Service Officers
- English-as-a-foreign-Language Teachers
- International Aid or Development Workers
- Interpreters
- Logistics and Distribution Managers
- Marketing Executives
- Patent Examiners
- Sales Executives
- Secondary School Teachers
- Tour Managers
- Translators

**Course Content**
We recognise that you may not have studied a language before. That is why we enable you to start your study of French or Spanish from a beginner, as well as from an advanced level. During Year 2, both streams merge and students graduate at the end of their degree with advanced language skills. Modern Languages and Business (NT19) combines the study of French or Spanish with Management.

**Course Combinations**
This course can be combined with: Modern Languages and Business (NT19); European Languages and Psychology (CR89); French and Education (Secondary) (RX13); French with Spanish and Education (Secondary) (RX01); Education (Primary) with specialization in Modern Languages (CR88); International Management Studies with European Languages and Society (NR29); International Politics and Languages (RL92).
NURSING (ADULT)
BSc/BSc (Hons)

This course provides an innovative and contemporary nursing education that will result in either a three-year BSc or a four-year BSc (Hons) degree, and professional registration as a nurse in the adult field of practice.

Course Content
You will study alongside Mental Health Nursing students for part of the course to gain a holistic understanding of how healthcare professionals work together to bring about the best in patient-centred care.

Course structure
Each year meets the NMC requirement of 50 percent theory and 50 percent practice. You will be introduced to the fundamentals of nursing, and progress towards delivering person-centred care in more complex and demanding situations. Developing the leadership and management skills needed to foster quality and innovation within healthcare and social care will also be a focus.

Through our partnerships with a diverse range of health and social care organisations, students will have the opportunity to put theory into practice. Students will work both day and night shifts to coincide with the patterns of the practice or service area. You will also have the opportunity to apply for an international placement.

Career Opportunities
An Adult Nursing degree from the University of Stirling will prepare you to meet the needs of a modern profession, and provide the best-possible patient care. You will leave us as a confident and capable practitioner, fully equipped to register with the Nursing and Midwifery Council (NMC) and join a healthcare team upon graduation.

This course is not available as a combined degree.

NURSING (MENTAL HEALTH)
BSc/BSc (Hons)

This course provides an innovative and contemporary nursing education that will result in either a three-year BSc or a four-year BSc (Hons) degree, and professional registration as a nurse in the mental health field of practice. As a mental health nurse, your practice will focus on establishing relationships with service users and carers, to help bring about an understanding of how they might cope with alterations in their mental health and wellbeing, thus maximising their potential for recovery.

Our Mental Health Nursing course will prepare you to meet the needs of a modern profession and provide the best-possible patient care. You will leave us as a confident and capable practitioner, fully equipped to register with the Nursing and Midwifery Council (NMC) and join a healthcare team upon graduation.

BSc (Hons)

BSc (Hons) Nursing students follow the same programme structure as the BSc Nursing students for the first two-and-a-half years of their course. After that point, Honours students carry out an additional placement module.

In their final year, Honours students complete additional modules, including a dissertation and their Nursing and Midwifery Council (NMC) required final placement, achieving registration and their Honours degree at the end of Year 4.

Career Opportunities
As a mental health nurse, your practice will focus on establishing relationships with service users and carers, to help bring about an understanding of how they might cope with alterations in their mental health and wellbeing, thus maximising their potential for recovery.

This course is not available as a combined degree.
PHILOSOPHY

BA (Hons)

Access courses and other UK/EU qualifications are also welcomed.

ADDITIONAL INFORMATION
General entry requirements apply – see pages 115-117.

 Widening access students may be eligible for an adjusted offer entry – see page 118.

COURSE CONTENT
Philosophy is an academic discipline that is highly valued by employers, who recognise that philosophy graduates are strong analytical thinkers, capable of presenting material clearly and succinctly with cogent argument.

Our Philosophy graduates are currently working for a number of leading organisations, including Scottish Enterprise, BAE Systems, Davexa, Australian Government, UK Government, Justice Publishing, Aegon, Police Scotland and a local high school.

Our graduates find employment as:
- Barristers
- Civil Service Fast-Streamers
- Health Service Managers
- Local Government Officers
- Marketing Executives
- Newspaper Journalists
- Paralegals
- Psychologists
- Recruitment Consultants
- Solicitors
- Teachers in Further Education, Higher Education and Secondary Schools

3RD IN SCOTLAND FOR PHILOSOPHY

The Guardian University Guide 2019

CAREER OPPORTUNITIES

Politics permeates every aspect of people’s lives – shaping their opinions, informing their decisions, guiding their alliances and enabling others’ beliefs and motivations at individual, organisational and cultural levels.

Our Politics division is highly regarded, and our students benefit from a strong, research-led approach to teaching.

In addition to being able to participate in a range of University-wide Study Abroad options, our exchange programme with the Politics department at the University of Gothenburg offers you the opportunity to study in Sweden in Semester 6, subject to passing an interview and meeting the grade requirements.

3RD IN SCOTLAND AND TOP 20 IN THE UK FOR POLITICS

Times and Sunday Times Good University Guide 2020

CAREER OPPORTUNITIES

Degree courses in Politics encourage you to develop intellectual, communication and analytical skills, which are invaluable to many employers. These include the ability to: critically evaluate data and information, work independently, develop effective time-management skills; organise and solve problems; and communicate clearly, both verbally and in writing.

Our graduates have developed these transferrable skills, which is why they become successful in commerce and industry, as well as the civil service, journalism, law, teaching and both research and representative politics.

Our graduates have found employment as:
- Diplomatic Service Officers
- Government Social Research Officers
- Members of Parliament
- Political Assistants
- Political Journalists
- Public Affairs Consultants
- Public Relations Account Executives

COURSE CONTENT
In Semesters 1-3, you will take Politics, plus two other subjects.

Semesters 1-3 cover the study of three core modules: The Politics of the British Isles; Political Concepts and Ideas; and Introduction to International Politics.

Semester 4 module: Great Political Thinkers; and Comparative Politics.

In Semesters 5-8, you can choose from a wide range of module options, such as: Human Rights in International Politics; Middle East Politics; and Direct Democracy and Referendums. In addition, Single Honours Politics students complete the Semester 6 module: Research Methods; and a final-year Politics dissertation.

COURSE COMBINATIONS
This course can be combined with: Business Studies (LL21); Criminology (ML92); Economics (L122); English Studies (L132); Environmental Science (FL92); Film and Media (PL32); French (LR21); History (LV21); History/ Professional Education (LX21); Journalism Studies (PL52); Law (ML12); Philosophy and Economics (LV90); Psychology (LC28); Social Policy (LL24); or Sociology (LL23).

COURSE CONTENT

In Semesters 1-3, you can take three modules in Philosophy (two of which are compulsory) as well as modules in other subjects. All three philosophy modules focus on central philosophical problems and issues: ‘Philosophy: What is it all about?’ is an introduction to key metaphysical and ethical issues. What is it to be a person? Are we responsible for what we do? Can we be motivated by anything other than our own self-interest? These and other topics will be considered and some ethical implications explored.

‘From Plato to Existentialism’ is a philosophical examination of the relationship between the individual and society, looking at works by Plato, Hobbs, Mill and Sartre.

In Semesters 5-8, you will take optional modules from a broad list, including: Knowledge and Reality, Environmental Ethics, Philosophy of Language, Philosophy of Biology, Political Philosophy and Aesthetics.

In Year 4, there are opportunities for directed independent study, including dissertation projects and supervised study of a particular topic, theme or book.

COURSE COMBINATIONS

This course can be combined with: Computing Science (GV45); Criminology (MV95); English Studies (QV45); Film and Media (VP35); French (RV15); History (VY15); Politics (LV23); Politics and Economics (LV00); Professional Education/ Religion (VVX3); Psychology (CV85); or Religion (VY56).

If you are contemplating a future in the world of politics, you will need to understand issues of power, alliances, conflict and peace, the workings of influential organisations and the processes surrounding international decision-making.

Don’t worry if this sounds daunting; we will help you to build a confident and well-rounded knowledge of all of the above and much more. Our Politics division is highly regarded, and our students benefit from a strong, research-led approach to teaching.

In addition to being able to participate in a range of University-wide Study Abroad options, our exchange programme with the Politics department at the University of Gothenburg offers you the opportunity to study in Sweden in Semester 6, subject to passing an interview and meeting the grade requirements.

CAREER OPPORTUNITIES
The study of International Politics equips you with intellectual and analytical skills that are attractive to many employers. These include: the ability to critically evaluate data and information, work independently, develop effective time-management skills; organise and solve problems; and communicate clearly, both verbally and in writing.

Having developed these transferable skills, Stirling Politics graduates work in commerce and industry, as well as the civil service, journalism, law, teaching and within politics in both research and representative capacities.

Our graduates have found employment as:
- Civil Service Fast-Trackers
- Government Social Research Officers
- Politicians’ Assistants
- Public Affairs Consultants
- Public Researchers

3RD IN SCOTLAND AND TOP 20 IN THE UK FOR POLITICS
Times and Sunday Times Good University Guide 2020

COURSE CONTENT
In Semesters 1-3, you will take Politics, plus two other subjects.

In Semesters 4-8, you will study at least five International Politics modules, including: The Politics of the British Isles, Introduction to International Politics, and Comparative Politics.

In Semesters 5-8, you will study at least five International Politics modules, including: Human Rights in International Politics, and Middle East Politics and Green Politics in the Age of Climate Change. In addition, you must complete the Semester 6 module, Research Methods, and a final year International Politics dissertation.

3RD IN SCOTLAND AND TOP 20 IN THE UK FOR POLITICS
The Guardian University Guide 2019

2ND IN SCOTLAND AND TOP 10 IN THE UK FOR ECONOMICS
The Guardian University Guide 2020

CAREER OPPORTUNITIES
Having completed your PPE degree, you will graduate with an in-depth knowledge of political institutions and the policymaking process, the big ideas that have shaped Western societies and how the economy works. You will be skilled in argument evaluation, while enjoying the ability to effectively express your own viewpoints. You will also have developed valuable insight into the cultural, intellectual and moral pressures on decision-makers. This broad-ranging ability and understanding will therefore make sure that you are well-positioned to succeed in the graduate job market, whether you choose to work in the public sector, private companies, voluntary organisations, the financial sector or the media.

Our graduates have found employment as:
- Accountants
- Chief Executives
- Diplomatic Service Officers
- Directors
- Economists
- Government Social Research Officers
- Members of Parliament
- Political Assistants
- Political Journalists
- Private Bankers
- Public Affairs Consultants
- Public Relations Account Executives
- Senior Analysts

This course is not available as a combined degree.
PROFESSIONAL ACCOUNTANCY
BA (Hons)

Accounting and Finance in Stirling is ranked 3rd in Scotland (The Guardian University Guide 2019) and receives consistently high ratings in the National Student Survey (NSS).

COURSE CONTENT
In the first year of the course, you will study a series of core modules to give you a grounding for subsequent stages of more advanced studies. These core modules will be in Financial Accounting, Management Accounting, Financial Economics, and Business Law. In subsequent years, you develop a more critical and analytical approach to your studies. You will take modules in Advanced Financial Accounting, Accounting Information and Employment, and Applied Management Accounting, together with modules in Personal Financial Planning, Quantitative Methods, International Finance, and Financial Analysis, plus modules in Auditing and Taxation. Higher-level skills of critical evaluation, analysis and synthesis are extended in issues in Accountancy and Critical Analysis of Accountancy and Finance. There will be numerous opportunities to develop your work-related skills at every stage of your studies. The BA (Hons) degree in Professional Accountancy is a three-year Honours degree. Please note that it is NOT accredited by ICAS (Institute of Chartered Accountants in Scotland). Students wishing to obtain an ICAS accredited degree should register for the BAcc (Hons) Accountancy or the BAcc (Hons) Accountancy and Finance degree.

CAREER OPPORTUNITIES
Accountancy offers a wide choice of careers with organisations in every field, from healthcare and sport to charities and local and national governments. Careers include financial and management accounting, auditing, taxation, consultancy and financial services.

This course is not available as a combined degree.

If you are interested in the mind and human behaviour, then Psychology is for you.

In our last accreditation review, the British Psychological Society described us as being "at the forefront of the student-led teaching experience in Psychology across the UK", and commended our staff, who "clearly care about the wellbeing and development of their students, and provide a nurturing learning environment".

We also received the inaugural Award for Innovation in Psychology Programmes in 2014 from the British Psychological Society for our innovative, student-led teaching initiatives and commitment to integrating employability.

Our course will give you the opportunity to be involved in designing and conducting a number of experiments, individually or in groups, researching:

- Human brain imaging (fMRI and PET)
- Health research (including GSR and heart-rate monitoring)
- Face research (including eye-tracking)
- Vision research (including VR and stereoscopic displays)
- Developmental research (including our Kindergarten)

In your final year, as well as completing a research project, you will choose from a variety of electives that interest you and will build your employability skills. It also includes an opportunity to take part in a placement with a local employer.

PSYCHOLOGY

In your final year, as well as completing a research project, you will choose from a variety of electives that interest you and will build your employability skills. It also includes an opportunity to take part in a placement with a local employer.
RELIGION (BA (Hons))

**Course Content**

Religion is studied as a combined degree, and is taken with two other subjects in Years 1 and 2.

- Semesters 1-4 cover four core modules, examining issues such as conflict, colonialism and nationalism, representation and historical methods of studying religion.

- In Semesters 5-8, advanced core modules include Religion and Postcolonialism; Religion and Critical Theory; and Dissertation Preparation. You may also choose advanced option modules, such as: Religion and Literature; Gender and Religion; and Political Islam.

- In Semester 8, students will write a dissertation of between 10,000 and 12,000 words on a topic chosen in consultation with an individual supervisor.

**Career Opportunities**

The key transferable skills gained by studying Religion – critical thinking, research, communication, organisation and self-motivation – make our graduates an invaluable resource on whatever career path they choose. In addition, by enhancing their capacity for the critical identification of cultural difference and alternate perspectives, we help develop 'soft' skills of reflexivity and empathetic identification that are absolutely vital in any of the wide range of contexts that involve managing or working with people.

Recent graduates have gone on to work in the civil service; social work; hospital and prison management; banking and insurance; music production; commerce, including commercial research; the police; armed services; publishing; and the media – as well as the perhaps more traditional career pathways of teaching and academic research.

Our graduates find employment as:

- Advice Workers
- Archivists
- Charity Fundraisers
- Counsellors
- Civil Service Administrators
- Community Development Workers
- Editorial Assistants
- Higher Education Lecturers
- Newspaper Journalists
- Police Officers
- Primary School Teachers
- Secondary School Teachers

**Additional Information**

- **3rd in Scotland for Theology and Religious Studies**
- **Times and Sunday Times Good University Guide 2018**

**Course Combinations**

This course must be studied as a combined degree with one of the following:

- English Studies (QV16)
- Film and Media (VP63); French (RV16)
- History (VV16); Philosophy (VY56); Philosophy/Professional Education (VX53); Professional Education (VX61); Professional Education/English Studies (QX43); Professional Education/History (VX41); or Sociology (UJ38).

**Retaining access students may apply – see pages 115-117.**

General entry requirements and international qualifications are Access courses and other UK/EU Advanced entry: Please consult subject page(s) to check for any required subjects.

**Other Qualifications**

Scottish HNC/HND:

- Minimum entry: B as in graded unit.
- Advanced entry: Please consult website for details.

Access courses and other UK/EU international qualifications are also welcomed.

**CAREER OPPORTUNITIES**

- Secondary School Teachers
- Primary School Teachers
- Higher Education Lecturers
- Editorial Assistants
- Community Development Workers
- Civil Service Administrators
- Counsellors
- Archivists
- Advice Workers
- Brand Specialists
- Buying Executives
- Category Managers
- Marketing Managers
- Retail Sales Directors

**Course Content**

- Semesters 1 and 2 are designed to provide a background in business-related modules, and include: The Global Business Environment – An Introduction; and The Management Challenge – An Introduction.

- Semesters 3-4 will further your understanding of the fundamentals of marketing and retail studies; you will also cover sustainable marketing and choose from elective modules.

- In Semesters 5-8, core modules in retailing and marketing are studied alongside a selection of elective modules. These core modules include: Understanding Consumers; Retail Strategy and Operations; and Delivering Value in the Digital Age.

- You will also undertake a dissertation, as well as a Marketing and Retail Consultancy Project designed to engage you with current ‘live’ business practices.

**Recommended elective modules include:**

- Buying and Visual Merchandising
- Multi-Channel Retail Marketing
- Marketing Analytics
- and Brand Creation

**Recommended electives include:**

- Business, logistics and related subjects.
- Consumer behaviour, marketing, international resources and organisations. Students will also develop extensive knowledge and skills in consumer behaviour, marketing, international business, logistics and related subjects.

- **2nd in Scotland and Top 10 in the UK for Marketing**
- **The Complete University Guide 2020**

**Course Content**

- **UCAS CODE: N550**

**TYPICAL REQUIREMENTS**

- **YEAR 1 ENTRY – FOUR-YEAR HONOURS**
  - SQA Highers: AABB – by the end of 5S
  - ABBB – by the end of 5S
  - GCE A-levels: BBB
  - IB Diploma: 32
  - BTEC (Level 3): DDM

- **YEAR 2 ENTRY – THREE-YEAR HONOURS**
  - SQA Highers: ABB
  - GCE A-levels: ABB
  - IB Diploma: 35

**Other Qualifications**

Scottish HNC/HND: Minimum entry: As in graded unit. Advanced entry: Please consult website for details.

Access courses and other UK/EU international qualifications are also welcomed.

**CAREER OPPORTUNITIES**

- You will acquire a comprehensive range of analytical, problem-solving and professional skills. These are valued not only in the retail industry, but increasingly in other areas of commerce, education, government and non-profit-making organisations.

- This degree can prove key in pursuing either a specialised retail career or a more general management career.

- Our graduates have found employment as:
  - Account Directors
  - Brand Specialists
  - Buying Executives
  - Category Managers
  - Marketing Managers
  - Retail Sales Directors
This course is not available as a combined degree. Related degrees: BA (Hons) History

Scottish History is dark and dramatic. At Stirling, we bring it to life for you in unique ways not explored at other universities.

For instance, one of our core modules, ‘Reputations in History’, offers a riveting insight into famous Scottish and international male and female historical characters from a thousand years of history, including William Wallace and Nelson Mandela.

At advanced level, in your final year, you have a choice of special subjects for a year-long intensive study module (which runs alongside the dissertation) that must be taken by all Scottish History Honours degree students.

However, you will be helped along by the enthusiasm, encouragement and, of course, the most recent research from staff members with special interest in your subject.

CAREER OPPORTUNITIES

A History or Scottish History degree sets out intellectual challenges and focuses on skills that employers have always recognised and valued. These include the ability to argue a persuasive case, a capacity for independent work and effective time management, an ability to organise and solve problems, and a capacity to communicate clearly, both in writing and speech.

Graduates in Scottish History find opportunities for a wide variety of posts within and outside of Scotland. The module Back to the Future will get students thinking about their future in work.

Typical employers include: Heritage organizations; museums; libraries; financial institutions; educators; management consultancies; publishers; retail; media and broadcasting organizations; and international development organisations.

The civil service, NHS, police and armed forces all welcome the skills and knowledge gained by a degree in this subject area.

Our graduates have found employment as:
• Further and Higher Education Lecturers
• Heritage Managers
• Historic Buildings Inspectors or Conservation Officers
• Museum Education Officers
• Museum or Gallery Curators
• Museum or Gallery Exhibitions Officers
• Secondary School Teachers.

Additionally, Single Honours students must take the Semester 6 module on Dissertation Preparation, which takes the fear out of doing your final-year dissertation. Students will write a supervised dissertation of between 12,000 and 14,000 words on a research topic of their choice.

In Semesters 7-8, Honours students will take a special subject from a choice of five or six options. This module involves using printed documentary collections and other challenging and fascinating source material.

The Guardian University Guide 2019

Do you want a career that is stimulating, rewarding and makes a positive contribution to society? If so, a degree in Social Work could be for you.

At the University of Stirling, social work education is committed to progressive social change through teaching, research and active involvement with practice. We believe in a social work profession defined not only by its function but also by its values and integrity. We promote an understanding of social work, which is informed by social justice and human rights – a profession that acknowledges the links between “public issues” and “private troubles” and seeks to address both. We also value practice that has prevention at its heart and recognises the importance of collective approaches, actively engaging with and learning from service users.

You will be taught by a team of qualified social workers including world leaders in their research field, and academics who maintain close connections with practice. You will enjoy the benefits of smaller class sizes (23-55) with creative teaching and assessment, as well as detailed feedback on your progress and you will be supported and assessed by practice educators who are either fully accredited or undertaking their training.

Our degree course combines the professional qualification you need to practice social work with a strong grounding in relevant social science subjects. We will help you qualify as a social worker with knowledgeable, skilled, analytical and ethical in your approach to working with individuals, families, groups and communities.

Successful completion of this course will mean you are eligible to be registered by the Scottish Social Services Council as a qualified social worker. Each UK country has its own registration body and this degree is accepted by all of them.

CAREER OPPORTUNITIES

In Semesters 1-3 you will take four social work related modules that introduce you to social work knowledge, skills, law and policy – one of which incorporates community-based practice. You will undertake modules in sociology and social policy in order to enhance your understanding of the wider context for social work, and two other modules of your choice.

Teaching from Semester 4 onwards involves a high level of student participation. You are encouraged to engage with theory and research through the use of case studies and role plays, discussions and project work. You will continue to have a personal tutor who offers advice during University-based seminars and visits you on placement, strengthening the links between theory and practice.

You will have two professional practice learning opportunities in Semester 5 (75 days) and in the summer period between Semesters 6 and 7 (95 days). These take place in a variety of settings where you will undertake direct work with people who use services. During practice learning placements, you will receive supervision from qualified social workers and other professionals and have your practice assessed by a qualified practice educator.

COURSE CONTENT

This degree will equip you for social work jobs throughout the UK, in a variety of settings, including local authorities, criminal justice, hospitals and non-governmental organisations. You may also find specialist posts in the third sector around mental health, fostering and residential childcare.

The nature of the work is extremely varied and you can move between different work settings throughout your career.

Our graduates have found employment as:
• Advocacy Workers
• Community Care Workers
• Community Development Officers
• Family Support Workers
• Probation Officers
• Social Workers

This course is not available as a combined degree.
SOCIOLOGY AND SOCIAL POLICY

BA (Hons)

Do you want to understand and learn how to analyse the way in which society works? Do you want to build and develop your ability to critically engage with these processes, purposes and outcomes of social welfare, both here and abroad?

Our course’s international and comparative approach offers topics that analyse society and welfare issues in various countries. We have particular expertise covering Scotland, the UK, the EU, Western and Central Europe, Australasia, North America and Latin America. Our course and modules include the latest developments in social research, taught by recognised experts in their chosen fields, who raise real-world issues in a critical, informed and engaging manner.

The first two years of our degree structure are flexible, allowing students to experiment with new subjects. You can apply to spend Semester 6 at another university in Europe, Canada or the USA.

3rd in Scotland for Sociology

The Guardian University Guide 2020

TOP 5 in Scotland for Social Policy

The Complete University Guide 2020

COURSE CONTENT

In Years 1 and 2, you will take three subjects each semester. The key benefits are that you can change the emphasis of your degree as you progress, from full-time to part-time if you need to, or change your degree subject(s), and you don’t need to decide what your final degree subject(s) will be until midway through your second year.

In Years 3 and 4, you will specialise in your chosen area. You will choose from a list of optional modules and have the opportunity to develop practical research skills through two intensive core courses on qualitative and quantitative research skills.

Modules include: Ageing, Society and Social Policy; Contemporary Social Issues in Practice; Cooperation and Society; Disability and Society; Drugs, Crime and Society; Gender, Work and Welfare; Health and Society; Housing Policy; Poverty, Income and Wealth; Race and Ethnicity Social Stratification; Social Network Analysis; Sociology of Childhood; Sociology of Development; Sociology of Urban, Youth; Society; Work, Class and Society.

You will also have the opportunity to undertake your own research dissertation, which will provide you with highly valued transferable skills. Examples of recent dissertation topics include: Sectarianism in Scottish Society; Understanding Binge Drinking; the Criminalisation of Muslims in Britain; Body Image; Obesity; Anti-Social Behaviour Orders; Young Female Bullying and Violence; and the Impact of Adoption on Personal Identity.

CAREER OPPORTUNITIES

There are some careers where a sociology degree is a requirement, for example working as a sociological researcher or a lecturer or teacher of sociology. However, there are many more opportunities where the knowledge and understanding students acquire in studying sociology is highly valued, for example, social work, in local government, for the police or prison service, in the voluntary sector or in human resources.

We have found employment as:

• Community Care Workers
• Financial Crime Associates
• Housing Service Assistants
• Lecturers in Social Science
• Social Workers

SOFTWARE DEVELOPMENT WITH CYBER SECURITY

BSc (Hons)

Our BSc (Hons) in Software Development with Cyber Security is a highly practical degree developed in partnership with 50 companies from the Scottish ICT industry who are looking for an additional 45,000 professionals to join their workforce over the next five years.

The first two years of this course will be taught at Forth Valley College following an enhanced Software Development HND curriculum, and the remaining years will be taught by academics at the University of Stirling. In Years 3 and 4, two key components of the course are the industrial placement and the Honours project.

During this time you will develop a range of skills which will assist technical software development skills and knowledge in programming and systems development. You will also gain academic, technical and professional training leading to the skills necessary to design, implement, support, evaluate or manage IT systems in a vast range of industries.

You will have dual student status and be fully enrolled within both institutions, having full access to all of the University of Stirling and Forth Valley College online and on-site facilities from your first year onwards.

COURSE CONTENT

In Semesters 1 and 2, you will be delivered by Forth Valley College at their Falkirk Campus.

In Semesters 5 and 6, you will be delivered by the University of Stirling at the University. Selection will be determined by a successful interview.

Includes a Three-Month Industrial Work Placement

This course is not available as a combined degree.

CAREER OPPORTUNITIES

There is high demand for computer science graduates who can find employment in various sectors such as software development, consultancy and business analysis.

Our graduates have found employment as:

• Business Intelligence Analysts
• Computer Programmers
• Computer Systems Analysts
• Computer Systems Engineers
• Database Administrators
• Network Systems Administrators
• Software Applications Developers
• Web Developers

COURSE CONTENT

During Semesters 1-3, students from all three
of our computing-related degrees take the
same core modules in Computing Science,
plus two other subjects. Core topics include:
Computational Thinking; Programming Using
Java; Social and Professional Issues; and
Data Structures, Objects and Algorithms. In
Semester 1, Software Engineering students
must also take a Mathematics module.

Semesters 4-8 cover compulsory core modules
including: Programming Language Principles;
Software Engineering; Computer Security
and Networks; plus optional modules that
include: Artificial Intelligence; Web Services;
Telecommunications; and Games Development.

Software Engineering Honours students
undertake an independent project in their
final year, which involves the design and
development of a major piece of software
from initial requirements to final delivery.

CAREER OPPORTUNITIES

You will have knowledge of Software
Engineering as a coherent discipline, together
with a wide range of analytical skills. Our
industrial placements will ease your transition
into the job market. You will be well equipped
to enter the software industry itself, or any
of the fields in which computer systems are
extensively used. Recent destinations for our
graduates include: Agilent (Hewlett Packard Ltd),
British Telecom, Google, HSBC, BAE Systems,
Logica, Microsoft and Scottish Power.

Our graduates have found employment as:
• Cybersecurity Consultants
• Database Administrators
• Games Developers
• Information Systems Managers
• IT Management Consultants
• Multimedia Programmers
• Software Developers and Testers
• Systems Administrators
• Web Developers

This course is not available

S

FACULTY OF ARTS AND HUMANITIES

SPANISH AND LATIN AMERICAN STUDIES
BA (Hons)

This course offers Spanish for all – from
complete beginners to advanced speakers.

By the end of the course, you will be
able to read, write and speak Spanish
to an advanced appropriate level for
the demands of today’s job market.

Students also have the chance to acquire
a critical awareness of the societies and
cultures of Spain and Latin American countries,
and critical skills that aid in the study of
other subjects, as well as the development of careers.

You will be taught by experts in the language,
culture, history, politics and anthropology
of these exciting and diverse nations.

This course can be combined with:
Accountancy (NR44); Business Studies (NR54);
Computing Science (GR44); English Studies (OR43);
Film and Media (RR40); French (RR14); French and
Professional Education (Secondary) (RK3X1); History (RY41);
Human Resource Management (NR64); Journalism Studies (PE43);
Law (MR11); Marketing (NR54);
Professional Education (Primary) with Modern Languages (KR61X);
or Sociology (LR43).

You may also study Spanish as a pathway on the following programmes:
Psychology with a European Language (CR89); International Management
Studies with European Languages and Society (NR29); Modern Languages
and Business Studies (NT19); International Politics and Languages (RL52).

CAREER OPPORTUNITIES

Language skills are highly sought after by
employers and open up a wide range of careers.

Graduates have secured jobs in teaching,
both in Spanish and English; translating
and interpreting; finance; the civil service; industry
and commerce; marketing, administration;
charity work; publishing; and public relations.

Our graduates have found employment as:
• Broadcast Journalists
• Diplomatic Service Officers
• International Aid/Development Workers
• Interpreters
• Logistics and Distribution Managers
• Marketing Executives
• Patent Examiners
• Sales Executives
• Secondary School Teachers
• Teachers of English as a Foreign Language
• Tour Managers
• Translators
How do our body systems respond to acute exercise and adapt to training? What influences our participation in physical activity and the ability to benefit from it? How can physical activity affect our health and wellbeing?

Scotlands University for Sporting Excellence brings a cross-disciplinary approach that encompasses sport, health and biological sciences. Studying biological sciences teaches you the disciplines underpinning Sport and Exercise Science, develops your knowledge of scientific methods and explains the role of exercise and training in improving health and athletic performance.

**Course Content**

Teaching is delivered in eight semesters, with an extensive research project conducted in the final year.

In Year 1, you will gain a strong grounding in biological science and an introduction to the study of sport and exercise, with further outline modules in Cell Biology, Physiology and Sports Studies. Both field and laboratory skills will also be introduced.

Year 2 considers ideas and concepts of sports studies. You will also further develop your knowledge and skills in biological science, and sport and exercise sciences. You will study subjects such as Human Anatomy and Physiology, Genetics and Evolution, and Statistical Techniques.

Further advanced-level modules are delivered in Year 3, studying areas such as Physiology of Sport and Exercise, which considers adaptations to exercise training and the challenges of environmental extremes. Animal Cell Biology looks at the basic components of animal cells, their functions and how these functions are regulated in health and disease.

Understanding exercise and diet in developing a healthy lifestyle is also explored during Year 3, and considers medical issues that affect physical activity. Applied Exercise Physiology is studied in the laboratory, and Psychology of Exercise, Physical Activity and Health considers the factors that influence a person’s decision to exercise.

Semester 7 covers Advanced Methods in Human Physiology Research, and also helps you to discover the techniques and methodological assumptions underpinning sport and exercise sciences research—before you undertake a dissertation in the final semester.

**Career Opportunities**

Careers in the sport sector account for around three percent of all jobs in Scotland. Our graduates progress to postgraduate study and research, as well as pursuing careers in the sport, leisure and health sectors, such as:

- Coaching
- Health and fitness monitoring
- Physical activity promotion
- Physiotherapy, dietetics and other allied health professions
- Sports science support of athletes
- Teaching

This course is not available as a combined degree.

This course is not available as a combined degree.

**SPORT BUSINESS MANAGEMENT**

**BA (Hons)**

The Sport Business Management course is designed to meet the modern sport industry’s requirement for technically competent, customer-oriented, innovative and commercially minded practitioners who have the flexibility and capability to apply their knowledge across domestic and international sports markets.

This involves integrating core business management skills with an understanding of strategies, policies and practices in sport business— including knowledge of key contemporary issues such as marketing and branding, sponsorship and finance, sport event management, globalisation, regulation, corporate social responsibility and sport’s role in consumer culture.

By taking part in this course, you will experience an industry-focused curriculum delivered with the support of ‘real-life’ contexts and realistic sport-based working environments; an integrated learning experience facilitated through staff teams employing a variety of delivery modes, opportunities to enhance and develop a range of relevant personal skills, including problem-solving, decision-making and reflection; and a consultancy project where you will work with a sport business company to help solve a real-world business challenge.

**Course Content**

There are three key components to the Sport Business Management course: Sport Management and Technical Expertise; Business Enterprise, and Market Awareness. Each of these components is represented throughout the course, creating a unique balance between generic business study elements and the more industry-focused Sport Management, Sport Business and Sport and Society-based modules.

Years 1-2 are designed to provide you with a broad grounding in the subjects of business, management and sports studies, with a global perspective. You will study two core modules per semester, leaving the flexibility to choose from a range of options from Stirling Management School and the wider University.

Years 3-4 provide you with theory and applications of sport business management including: Marketing, Managing the Consumer Experience; Policy, Governance, Events Management; Project Management; and Financial Business Modelling. In the final year, there is the option to work on a sport business-focused individual project or work as a group and engage with an industry organisation on a consultancy project.

You will have numerous opportunities to develop appropriate work-related skills at every stage of your studies, including the Professional Development and Practice modules in Year 4, which helps you prepare for entering the workplace.

**Career Opportunities**

Upon graduating, you will be able to apply sound analytical techniques and management skills specific to the challenges faced by the sport industry. There are many opportunities across a range of sport business organisations, including sport venue management, project management of sporting events, or management of a sport retail business.
Here at Scotland’s University for Sporting Excellence, we provide a unique and hugely rewarding study and sporting environment.

Our Sports Studies course is flexible, with a wide variety of module options. It can form part of a Combined Honours course alongside a range of subjects, such as Journalism, Marketing and Psychology. This course is designed to enhance knowledge and understanding of sport across a range of academic disciplines. You can choose from three core subject areas: Sports Policy and Management; Physical Activity and Health; and Sport, Culture and Society. We enjoy strong partnerships with many national governing bodies of sport, some of which are based on campus. You will benefit from seminars with industry experts and numerous opportunities to gain valuable networking and practical experience. You will also develop research and employability skills to prepare you for a variety of careers in sport.

**Course Content**

You are introduced to the core Sports Studies modules in Year 1, covering aspects of sport in society, patterns of participation in sport and physical activity, the foundations of sport and exercise science, and sports business, finance and management.

Year 2 explores issues and concepts in sport, reflecting on the historical development, the foundations of physical activity and the psychology of sport – with the option to study further subjects.

In addition to two core modules in Years 3-4 (Research Methods in Sports Studies and Readings in Sports Studies), students can specialise by choosing seven modules from the following: Sports Medicine, Health and Wellbeing; Psychology of Exercise, Physical Activity and Health; The Development of Excellence in Sports; Sports Coaching and Leadership; Sports Policy; Sports Marketing; Managing the Business of Sport; Sport Governance; Doping in Sport; Sport, Culture and National Identity; PE, School Sport and Youth Culture; and Sport, Gender, Ethnicity and Identity.

A work experience module is available in Years 3-4. You will develop an understanding of research, and complete your Honours year by undertaking an independent research project on a sport topic of your choice.

**Career Opportunities**

This course is designed to enhance knowledge and understanding of sport across a range of disciplines, and prepares students for a variety of careers in sport.

Our graduates have found employment as:

- Administrators for national governing bodies and sport policy agencies, such as sports-scotland
- Coaches
- Health Advisors
- Managers of sport facilities
- Personal Trainers
- Sport Development Officers

**Course Combinations**

This course can be combined with:

- Accountancy (NC46); Business Studies (NC16); Film and Media (PC59); History (VC16); Journalism Studies (PC56); Marketing (MC56); Psychology (CS58); or Professional Education and Physical Education (CX61).

**T&S in Scotland for Education Studies**

The Guardian University Guide 2019

CAREER OPPORTUNITIES

As the recognised teaching qualification for individuals who are employed in Scottish Further Education, the TQFE provides you with a highly relevant and marketable qualification. Students achieving the BA award may progress to the MSc in Professional Education and Leadership.

Our graduates have found employment as:

- Authors
- Education and Employability Advisers
- Further Education Lecturers
- Heads of Department in Further Education Institutions
- Learning Coordinators

**Course Content**

Accredited by the General Teaching Council for Scotland, this course leads to a BA degree or a University Diploma. Taken over the course of the academic year, the TQFE comprises three modules at SCQF Level 9 worth 120 points.

The course is open to those who currently work in post-compulsory education (a further education college or similar institution).

While attending teaching days, either on campus or at college-based sites, you will experience large group lectures delivered by TQFE staff and invited guest lecturers. The lectures provide an opportunity for key concepts and issues to be highlighted and for you to receive guidance about key aspects of assessment tasks.

A wide variety of digital resources will be made available to you online, including: recordings of all lectures; e-journals; and e-books. In addition to ‘e-house’ resources, you are also provided with links to digital resources that are provided by various organisations in the FE sector. The wide variety of resources reflects contemporary issues and trends and enables you to interact with staff and peers in a variety of modes.

**Direct Application**

University Diploma

Relevant Higher National Certificate (HNC) at Level 7 on the Scottish Credit Qualification Framework (SCQF) or equivalent. This pathway is for students where an HNC is the highest qualification available in the UK in that subject area.

**BA Degree**

Relevant Higher National Diploma (HND) at Level 8 on the SCQF or equivalent. Equivalent qualifications, which may be recognised include:

- A Part II, full technological certificate
- City and Guilds ‘Professional Recognition Award’ – Apprenticeship Level
- Senior Award from the City and Guilds of London Institute

Other equivalent qualifications may be accepted where applicants provide appropriate evidence of equivalence.

Candidates for both qualifications must also have both literacy and numeracy skills that meet the demands of the course.

- A National Qualification Course award in English at level 6 on the SCQF (or suitable evidence of being able to attain this standard) or SCQF communication level III
- A National Qualification Course award in numeracy or Mathematics at level 4 on the SCQF (or suitable evidence of being able to attain this standard)

Candidates should have Information and Communication Technology (ICT) skills equivalent to Intermediate 2 (i.e. level 5 on the SCQF).

**Additional Information**

To apply, visit the course page indicated below.

This course is not available as a combined degree.

stir.ac.uk/UGTQF
Teaching Qualification in Further Education (TQFE)

Pre-service BA

Where can I gain practical, hands-on experience that allows me to qualify to teach in a Further Education college and best support effective learning? This course will strengthen your knowledge of key vocational education issues and enhance your capacity to develop as a lecturer in further education. In particular, you will develop an ability to work collaboratively with a wide range of colleagues, explore issues relating to professional practice from a range of perspectives and contribute to the development of others.

The TQFE course is tailored specifically for individuals who aspire to a career in the further education sector, and the University of Stirling is the only provider to offer this unique pre-service route. Delivered by staff who are both research-active and have teaching expertise in the further education sector, the TQFE award offers a research-informed and practice-focused course, thus providing a high-quality learning experience with the notion of professional enquiry at its heart. Through the research and scholarship activities undertaken by staff on the course, the research knowledge base is continuously reviewed, updated and enhanced and this further informs practice.

The course was commended by the General Teaching Council for Scotland on behalf of the Scottish Government for the quality of its teaching and learning. In addition, the course is guided and informed by a Programme Advisory Group made up of colleagues from further education colleges.

Course Content

The course is taught using a combination of lectures and seminars, both online and on campus. All the teaching materials are available online. As a pre-service student, you will undertake an unpaid college placement which involves two to three days per week of teaching practice in a college, plus additional inputs on campus. The placement, supported by tutor visits and college mentors, provides you with the opportunity to develop and enhance your teaching practice in the further education environment. Course assignments are designed in such a way that you will be encouraged to explore links between professional practice and current research ideas and concepts. In addition, two teaching observations will be carried out, in the main, by core staff on the TQFE course.

The course is taken across one academic year and comprises five modules at SCQF Level 9 worth 120 credit points.

Career Opportunities

As the recognised teaching qualification for individuals who are employed in Scottish Further Education, the TQFE provides you with a highly relevant and marketable qualification. Students achieving the BA award may progress to the MSc in Professional Education and Leadership.

Our graduates have found employment as:

- Authors
- Education and Employability Advisers
- Further Education Lecturers
- Heads of Department in Further Education Institutions
- Learning Coordinators

1st in Scotland for Education Studies

The Guardian University Guide 2019

Additional Information

To apply, visit the course page indicated below.

stir.ac.uk/UGTQFP

This course is not available as a combined degree.
The University of Stirling is fully committed to helping all students reach their full potential, and we believe that everyone has the ability to succeed. Each student needs to meet course-specific entry requirements and to manage this, our centralised Admissions and Access Team analyse, review and process all applications to the University. They’re also available throughout your application journey if you need to update your application, have any questions or are just looking for some advice.

We accept a wide range of qualifications from around the globe and understand not all students will come to university through the same routes. The following pages provide you with more information about some of the more common routes.

**COMING FROM SCHOOL**

**Scottish Highers and Advanced Highers**

We generally make offers based on your Highers and occasionally Advanced Highers. Each of our course pages displays the typical requirements including the number of Highers and grades needed, along with the details of any essential subjects. We accept Highers taken over two sittings, although you may be asked for a higher grade if you repeated or upgraded examinations.

In order to be as fair and consistent as possible for those who are sitting any Advanced Highers, a grade C or above will count as an upgrade to the original Higher grade achieved. If you have an Advanced Higher only (without the relevant Higher), you’ll be asked for grade B in the Advanced Higher.

**Foundation Apprenticeships**

Foundation Apprenticeships are fully accepted for all our undergraduate courses, and are generally equivalent to a Higher grade A or B, depending on how relevant the Foundation Apprenticeship is to the degree applied for.

**The Scottish Baccalaureate**

We accept qualifications from Expressive Arts, Languages, Science or Social Sciences based on the relevance to our degree courses. The qualification consists of a group of current Higher and Advanced Higher subjects in combination with an interdisciplinary project.

**A-levels**

We make offers based on your predicted A-level grades. Each of our course pages displays the minimum grades required, along with the details of any essential subjects. If you are resitting or upgrading some subjects you may be asked for a higher grade. Passes in two subjects with a high amount of material in common may not be counted separately (e.g. Biology and Human Biology); if your subjects overlap like this, ask our Admissions and Access Team for advice.

**BTEC**

We fully accept BTEC qualifications whether studied at Level 3 Extended Diploma level or in conjunction with our qualifications. Successful applicants will typically require a grade of DDM in their final Diploma.

**T-levels**

We are fully supportive of the new T-level qualifications; students will generally be asked to obtain a Merit. Please note if the course pages state a specific subject is required at A-level/Higher please check with Admissions and Access to confirm your T-level meets this requirement in advance of submitting an application.

**The Welsh Baccalaureate**

We accept the Advanced Skills Challenge Certificate. If you are studying the Welsh Baccalaureate we will generally treat this the same as one A-level. For most of our courses you will be required to have the equivalent of three A-levels or two A-levels plus the Advanced Skills Challenge Certificate.

**Combined Qualifications**

We accept a wide range of qualifications from all over the world. If you are sitting a combination of different qualifications, you will be made an offer based on your individual circumstances (e.g. Highers and a Foundation Apprenticeship or A-level and BTEC combinations).

**Variation to published grades**

Grades listed on individual course pages are for guidance only. Check online for the latest minimum grades needed before you apply, and if you are resitting or upgrading some subjects you may be asked for a higher grade. Passes in two subjects with a high amount of material in common may not be counted separately (e.g. Biology and Human Biology); if your subjects overlap like this, ask our Admissions and Access Team for advice.

admissions@stir.ac.uk
+44 (0)1786 467044
COMING FROM COLLEGE
College students come from a range of different backgrounds and courses, and use a variety of different routes to come to university. We provide tailored support for HNC and HND students, including advice on routes and practical advice and guidance through your transition into university.

You can come into Year 1 or, for some degrees, you might be able to come into Year 2 or 3 (advanced entry). This means if you’ve completed an HNC or HND at college, you could be eligible for advanced entry by simply changing the year of entry on your application form. Not all of our courses have advanced entry, so always check with us before you apply. You can check for yourself on our website: stir.ac.uk/collegestudents

ADULT RETURNS
We have an active mature student community, and welcome applications from mature students no matter your background. We can help you figure out the right course for you and what you need to do to get into university.

If you already have some qualifications, contact our advisers – your qualifications might be enough to get you a place on a course. If not, you might want to think about studying an access course.

If English is not your first language, you must provide evidence of your English language skills. Specific English language requirements are listed on each individual course page on our website and we accept a number of English language qualifications. Should you not qualify, we’ve teamed up with global education leader, INTO University Partnerships, to deliver dynamic programmes to support your transition into Stirling. INTO University of Stirling’s integrated academic programmes offer progression to a wide range of undergraduate and postgraduate degrees at the University of Stirling.

For more information about English language requirements, visit: stir.ac.uk/elr

“IT’S A WONDERFUL EXPERIENCE STUDYING HERE WITH ALL THE BEAUTIFUL SCENERY AND THE LAKE. I ALSO LIVE ON THE CAMPUS AND AM SO HAPPY; THERE’S LOTS TO DO AND I LOVE THE SWIMMING POOL! MY LECTURERS AND THE SUPPORT STAFF REALLY CARE ABOUT ME AND I’VE BEEN HELPED TO THINK AND RESEARCH FOR MYSELF. IT FEELS GREAT.”

FU HANYU
China
BA (Hons) Translation and Interpreting Studies
REALISE YOUR POTENTIAL

REALISE YOUR POTENTIAL WITH OUR WIDENING ACCESS SUPPORT
The University of Stirling is committed to helping students from all backgrounds reach their full potential and we believe that everyone has the ability to succeed. The Widening Access Team works with a range of different students, including:

- Someone studying at a local school with a low rate of progression into higher education (below the national average)
- Someone studying at a school involved in the Schools for Higher Education Programme (SHEP) across Scotland
- Care experienced students
- Young adult carers
- College students
- Mature students
- Students from targeted postcodes (use our online checker: stir.ac.uk/wpcare)

CARE EXPERIENCED, ESTRANGED YOUNG PEOPLE AND YOUNG ADULT CARERS
Dedicated support is available for care experienced or estranged young people and young adult carers at every stage of your journey. This includes advice on choosing the best route into higher education for you, applying to university and subject choice. We also support students through their transition from school/college to university, linking students with the dedicated staff that will support them through their time at Stirling.

Our team of advisers offer one-to-one, confidential pre-application and transitional support, which can include:
- Advice on choosing the right school/college courses
- Help to choose a course and/or find the right route into university
- How to complete your UCAS form
- Support at our Open Days and Applicant Days to make sure you get the most out of your visit
- Bespoke campus visits for you and a friend, support worker or parent/guardian, to find out more about our degree choices
- Tailored support throughout your first weeks at the University to help you settle in

To find out more, email us or check out our website: stir.ac.uk/wpcare cli@stir.ac.uk

ADJUSTED OFFERS
As part of our commitment to making university as accessible as possible, we will make an adjusted offer of two grades (compared to our published entry requirements) for students who meet certain criteria. The University will consider the following applicants:

- Applicant’s home postcode is within the Scottish Index of Multiple Deprivation lowest 20%
- Applicant has experience of being in care
- Applicant is a carer
- Applicant is part of the Schools for Higher Education Programme (SHEP)
- Applicant has participated in the University of Stirling Access to Degree Studies Programme
- Applicant has participated in the Scottish Wider Access Programme (SWAP)

FOR SQA HIGHER QUALIFICATIONS, THE MINIMUM ENTRY REQUIREMENT IS ADJUSTED BY UP TO TWO GRADES.

“It doesn’t feel like everything here is geared towards younger students and it’s more inclusive. There is a lot of help available at the University when it comes to childcare or learning support; you just have to ask. My degree is BSc Psychology and I’m studying biology and sports studies, too, which means I can keep my options open.”

HELEN HOULT
Scotland
BSc (Hons) Psychology
LET’S APPLY

UCAS FULL-TIME UNDERGRADUATE
If you're applying for a full-time undergraduate course, use the UCAS online application system. UCAS starts receiving applications for entry in autumn 2021 on 1 September 2020. You can apply for up to five different courses on your application – there’s no ranking of your choices, and universities don’t see your other choices. You can track your applications online and see any offers as soon as they’re made. UK and EU applicants need to apply by 15 January 2021. All universities will consider applications received on time or before this date on an equal basis.

Apply as early as you can – don’t leave it until the last day! ucas.com

UCAS APPLICATION FEE
You’ll need to pay an application fee to UCAS based on the number of courses you apply for. If you only apply for one course, it costs £20. If you apply for two or more courses, there’s a one-off fee of £25.

DEFERRED ENTRY
You should make deferred applications through UCAS by the 2021 deadline for entry in September 2022.

JANUARY ENTRY
For students from England, Northern Ireland and Wales, some courses offer the opportunity for you to start your course in January for year one entry. Applications for January entry must be made directly to the University through Admissions and Access. admissions@stir.ac.uk

INTERNATIONAL STUDENTS
International applicants have until 30 June 2021 to apply. Our overseas agents can help with your application. Visit our country-specific information pages for all the details: stir.ac.uk/countryinfo

NORTH AMERICA COMMON APPLICATION
As well as applying through UCAS, applicants from North America can apply through the Common Application. We accept both methods, and don’t have a preferred option. Speak to your School Counsellor to decide which method would be best for you.

stir.ac.uk/commonapp

TERMS AND CONDITIONS
Any student who is offered a place will be subject to the University of Stirling’s Terms and Conditions.

stir.ac.uk/terms

PART-TIME UNDERGRADUATE
Applications for part-time courses should be made directly to us. Please contact Admissions to do this.

admissions@stir.ac.uk

+44 (0) 1786 467044

QUESTIONs

What do I need to apply for the degree I want to study?
You’ll need qualifications, a personal statement and a reference. For some specific degrees you may also need to:

• Come to an interview for certain professional courses
• Provide evidence of relevant work or voluntary experience and a Protection of Vulnerable Groups (PVG) check for our Nursing, Teaching and Social Work courses
• Get an Occupational Health check for our Nursing courses
• Answer some scenario questions for our Social Work course

If English is not your first language, you will normally need to provide evidence of your English language skills through qualifications. You can find out more on our website: stir.ac.uk/elr

We call these our entry requirements. We list the entry requirements for each course on its respective page in this prospectus. This is an example of how the information is presented.

What qualifications and grades do I need?
The qualifications and grades you need will vary by course. We select students based on ability and potential, which means that these may also depend on whether you’re a Widening Access student. If you’re not sure if you are a Widening Access student, go to page 118 for more information or look on our website: stir.ac.uk/wvp

UCAS CODE: C300

TYPICAL REQUIREMENTS

YEAR 1 ENTRY – FOUR-YEAR HONOURS
SQA Highers: AAB – by the end of S5
AAAB – by the end of S6
GCE A-levels:
8BB
IB Diploma:
32
BTEC (Level 3): DDM
Essential subjects:
To include one of Biology, Chemistry, Mathematics or Physics.

YEAR 2 ENTRY – THREE-YEAR HONOURS
SQA Adv. Highers:
ABB
GCE A-levels:
ABB
IB Diploma:
35
Essential subjects:
To include Biology and one of Chemistry, Environmental Science, Geography or Physics.

OTHER QUALIFICATIONS
Scottish HNC/HND:
Minimum entry: B: in graded unit. Advanced entry: Please consult website for details.
Access courses and other UK/EU and international qualifications are also welcomed.

ADDITIONAL INFORMATION
General entry requirements apply – see pages 115-117.
Widening access students may be eligible for an adjusted offer entry – see page 118.

Do you accept HNCs and HNDs?
Absolutely! College students make up a significant part of our student population in all of our courses.

An HNC or HND in a related subject might even get you Advanced Entry into Year 2 or Year 3 of some of our courses. Go to page 116 for more information, or look on our website: stir.ac.uk/collegestudents

Can be studied part-time
Advanced entry
You can study abroad
UCAS Code – this is the code you use in your UCAS application

By the end of S5 – These are the grades you need by the end of fifth year.
By the end of S6 – These are the accumulated grades you need from the fifth year and sixth year together.

This bit is really important!
Essential subjects – It is compulsory to have one of these subjects.
If it says a subject is preferred, you don’t have to have this but it helps.
Not all of our degrees have essential subjects.

This means you could start in second year rather than first year if you want to, and if you have these qualifications and grades.

We accept a lot of different qualifications, including HNC and HND from college, and access courses for mature students.

There’s loads of information on our website about this: stir.ac.uk/wp

These pages tell you how we look at qualifications.

I’m a mature student, can I apply?
We’re happy to help anyone who is interested in studying at university whatever your age and background. Those who have been out of education for three years or more use a range of different courses to come to university.

Go to page 116 for more information, or look on our website: stir.ac.uk/maturestudents
Tuition fees vary depending on your permanent place of residence and so does the funding you may be eligible to receive. To find out more, please visit the relevant authority in your own country.

For further information, visit: stir.ac.uk/scholarships

**NURSING SCHOLARSHIP UK STUDENTS (EXCLUDING SCOTLAND)**

All 2021 applicants from England, Northern Ireland or Wales who meet the conditions of their offer will receive a £1,000 cash award per year for Years 1-3 of study.

It can be combined with the Honours Year Scholarship and the Access to Nursing Bursary.

**CHOICE SCHOLARSHIP UK STUDENTS (EXCLUDING SCOTLAND)**

All 2021 applicants from England, Northern Ireland or Wales, who choose the University of Stirling on UCAS as their Firm or Insurance option and who meet the conditions of their offer, will receive a generous scholarship of £1,000 paid in Year 1.

In addition, these students are offered a guaranteed place in University-managed accommodation during their first year.

This Choice Scholarship can be combined with the Honours Year and Merit Scholarships. It may not be combined with the Nursing Scholarship.

For further information, visit: stir.ac.uk/scholarships

**SPORTS BURSARIES UK STUDENTS (EXCLUDING SCOTLAND)**

24 Sports Bursaries are on offer to students from England, Northern Ireland and Wales, or from outside the EU. These bursaries are available for athletes who participate in curling, football, golf, swimming, tennis and triathlon. Other sporting disciplines will be considered on a case-by-case basis.

These bursaries each have a value of £2,000 per year of study and will be awarded for September 2021 entry. Bursaries are awarded based on a combination of academic merit and sporting achievement, and will be made subject to meeting the University’s academic admission standards.

Sports Bursaries are payable in addition to Choice and Honours Scholarships but may not normally be combined with any other University scholarship.

For further information, visit: stir.ac.uk/scholarships

**MONEY MATTERS**

EU STUDENTS

The future fee status of EU students enrolling in UK universities will depend on the timing and terms of the UK’s exit from the European Union. Once published, further guidance from the Scottish and UK governments will inform fee levels for EU students enrolling in 2021/22. Information on fee levels and financial support will be published on the University website when available.

While students should be aware that this may mean a change from the current position where EU students are treated with equivalence to Scottish students, it is also important to note that any changes would also require changes to existing UK and Scottish legislation.

INTERNATIONAL STUDENTS (LIVING OUTSIDE THE EU)

Tuition fees for new students entering in academic year 2022/23 are available on the University website. Please visit the course pages for further information: stir.ac.uk/ugcourses

Tuition Fees for Nursing Students

SCOTTISH NURSING STUDENTS

SAAS pays tuition fees for all Scottish students on pre-registration courses. There’s also a non-means-tested bursary – please refer to our website for details.

EU NURSING STUDENTS

Funding provision is subject to change pending the timing and terms of the UK’s exit from the European Union. Please check our online course pages for the latest information about fees.

INTERNATIONAL/UK NURSING STUDENTS (EXCLUDING SCOTLAND)

Fees will be payable for your Nursing course and will vary depending on your normal place of residence. Please check the course pages for fees.

Additional Sources of Funding

Different trusts and bodies provide additional funding for students. These additional sources of funding include:

- **Carnegie Trust**
- **Association of Charitable Foundations**
- **Stirling Regional Educational Trust**
- **University Scholarship Finder**
- **Student Support Services**
- **MERIT SCHOLARSHIP UK STUDENTS**
- **NURSING SCHOLARSHIP UK STUDENTS (EXCLUDING SCOTLAND)**
- **CHOICE SCHOLARSHIP UK STUDENTS (EXCLUDING SCOTLAND)**

**ADDITIONAL SOURCES OF FUNDING**

The cost of living in Stirling is more than 40 per cent lower than London. The breakdown below shows you the potential costs of living away from home – but remember, the amount you actually spend will depend on your lifestyle.

Scottish/UK students

As well as financial support towards your tuition fees, you can typically apply to your relevant funding body for help with living costs. This usually takes the form of student loans, grants or bursaries, and the amount awarded depends upon your personal circumstances and household income.

EU/International students

Typically, you won’t be able to claim support for living costs through SAAS or any other UK public funds. Contact the relevant authority in your own country to find out more.

### USEFUL WEBSITES

- edinburghairport.com
- glasgowairport.com
- stirlingdirect.org
- thetrainline.com

## JUMP ON A TRAIN

Trains depart from Bridge of Allan or Stirling stations for destinations across the UK. On average, there’s a train to Glasgow or Edinburgh every 30 minutes – more at peak times.

## TRAVELLING FURTHER

Scotland’s two main international airports are less than an hour away by car. You can reach either airport by public transport, too. There’s also a direct transfer service provided by Stirling Direct, the University’s airport pick-up service.

## GETTING AROUND THE CITY

It’s easy to get from Stirling to the campus – you can walk, cycle or hop on a bus.

### TRAVELLING BY CAR

Students in Years 2-4 can park on campus. You can either buy a parking permit or use the pay and display.

### TRAVELLING BY BUS

There are Uni Link bus services between the University and city centre that run every 10 minutes during semester time. National bus operators also offer frequent services that run to Edinburgh, Glasgow and Aberdeen.

### TRAVELLING BY TRAIN

Trains depart from Bridge of Allan or Stirling stations for destinations across the UK. On average, there’s a train to Glasgow or Edinburgh every 30 minutes – more at peak times.

### TRAVELLING FURTHER

Scotland’s two main international airports are less than an hour away by car. You can reach either airport by public transport, too. There’s also a direct transfer service provided by Stirling Direct, the University’s airport pick-up service.

PROSPECTUS PRODUCTION

This prospectus is printed on Edition. This paper is environmentally friendly having come from sustainable forests.
Do you want to learn more about the University of Stirling? We’d love to show you around.

By attending one of our Open Days, you’ll be able to explore our beautiful campus, check out our diverse range of courses and get a taste of what life as a Stirling student is really like.

All prospective students, parents, guardians, teachers and careers advisers are welcome!

WHAT ARE OPEN DAYS?
Open Days help guide you through the application process, enable you to explore our world-class accommodation and tell you all about our extensive support services. You’ll also be able to sit in on subject-specific presentations, meet our academic staff and enjoy useful discussions about student finance, accommodation and exciting Study Abroad opportunities.

Jot down five key questions that you want to ask us.

1. PREPARE
   Jot down five key questions that you want to ask us.

2. GO TO COURSE TALKS
   Attend a subject presentation and visit the academic showroom.

3. TAKE A TOUR
   Join the campus, accommodation and sports tours.

4. THINK GLOBAL
   Learn about Study Abroad options from a choice of more than 30 countries.

5. CLUE UP ON CLUBS
   Get information on our 120+ student clubs and societies.

6. MIX ‘N’ MATCH
   Ask about our combined degrees.

7. ASK ABOUT FLEXIBILITY
   Not sure what to study? Don’t worry! You can still switch your course up until Year 2 – and we’ll tell you all about your options at Open Day.

HOW TO MAKE THE MOST OF THE OPEN DAY
To help you prepare for your visit, here are seven tips that will help you make the most of your day at Stirling:

HOW DO I REGISTER?
Open Days at the University of Stirling are open to everyone, but we do ask that you register in advance. Our 2020 Open Days are scheduled to take place on:

SATURDAY 6 JUNE
SATURDAY 19 SEPTEMBER
SATURDAY 24 OCTOBER

You can find the full programmes online nearer the time, but you can register to attend now: stir.ac.uk/openday

If you’re planning to come to the University from overseas, you can also meet our staff at events in your country: stir.ac.uk/countryinfo

“I’m attracted to Stirling because of the sporting facilities – it’s top in Scotland for Sport. I’m hoping to get into the Sport Studies programme and play water polo. A combined degree really interests me.”

JAMES (Northern Ireland) Open Day attendee

CAN’T ATTEND AN OPEN DAY?
No problem. If you’re unable to make one of our Open Days or wish to visit us at another time, there are plenty of other visiting opportunities. stir.ac.uk/visitus

Or take our virtual tour: stir.ac.uk/virtualtour
