ARE YOU STIRLING?
WHY STUDY LAW?

The Stirling Law School offers both LLB and BA Honours degrees. Both are intellectually challenging, prestigious degrees which offer the opportunity of developing a range of skills sought after by employers and the LLB is the first step toward qualifying as a solicitor or advocate in Scotland.

COURSE DETAILS

In the Stirling Law School, we provide high quality professionally qualifying legal education through our Scots Law LLB degrees. The LLB is available as an undergraduate four-year Honours degree and as a two-year accelerated degree for graduates in other disciplines.

We also offer a wide range of innovative and popular multi-disciplinary BA Honours Law degrees for those from throughout the UK and abroad who want a challenging and rewarding university education in law, but who do not intend entering the legal profession in Scotland.

Students on both the LLB and BA degrees study a wide range of interesting and relevant specialist law subjects, which examine the inter-relationship between law and society in key areas such as human rights; government; business, trade, banking and finance; the environment and energy; sport; and information technology.

The Law School’s LLB degrees are professionally accredited by the Law Society of Scotland and the Faculty of Advocates, and provide the foundation stage of qualifying as a lawyer in Scotland. The employability of all of our graduates, whether on the LLB or the BA, is a priority for us. Throughout our degrees, important legal, communication, organisational and personal skills are developed to enhance employability after graduation. We offer a work placement course and extensive guidance on securing graduate level employment and career development. Law students also have the opportunity to study abroad in Europe, Australia and the US.

LLB: Accredited by The Law Society of Scotland and the Faculty of Advocates.
