WHY STUDY MRes EDUCATIONAL RESEARCH AT STIRLING?

This innovative Masters course prepares you for a career in educational research, whether you plan to go on to a doctorate or take your research in other directions.

Under the expert guidance of our team of leading academics, you’ll develop a broad range of research skills. You’ll learn to design and plan research projects and collect, analyse, interpret and report qualitative and quantitative data. By the time you graduate you’ll have a deeper understanding of the theoretical, ethical, political and comparative aspects of carrying out educational research.

The course also covers digital methodologies, and you’ll be involved with cutting-edge research projects currently being carried out by staff in the Faculty of Social Sciences.

“Studying for an MRes in Educational Research at the University of Stirling was an excellent experience for me. The course covered a wide range of research approaches, including both philosophical considerations and practical research challenges, which enabled me to become familiar with a range of approaches and make informed decisions about my own research going forward.”

CLAIRE RAMJAN
MRes Educational Research
