Volunteer Opportunity

Just Play Sport Coordinator

Programme: Student Sport (Get Active)

Outline of Just Play Sport Programme

Just Play Sport is our student recreational sport and fitness programme which has the aim of engaging more students in physical activity and sport. It has been designed for students who want to play sport in a social environment away from competition without the commitment of joining a club. As the programme is student-led, there is an opportunity to join the University of Stirling Sport team on a voluntary basis as a Just Play Sport Coordinator.

What is a Just Play Sport Coordinator?

Just Play Sport Coordinators are students who have a passion for sport and promoting the benefits to fellow students. They're responsible for organising and leading their Just Play Sport session throughout the semester. This will involve keeping a register of participants, organising teams and coordinating games. They will ensure all participants feel welcome by creating a friendly, fun and supportive atmosphere. Just Play Coordinators will be supported and mentored by the Student Sport Experience Officer and will be provided with various rewards depending on the level of commitment and hours dedicated to the programme. It's also a great opportunity to meet likeminded students.

Requirements

- Experience in playing and delivering a session in your chosen sport (please see sports below)
- Excellent communication skills
- Organised
- Friendly, positive attitude
- Great team player
- Good knowledge of using social media
